Subject: health services

Dear Madam/Sir,

The European Youth Forum would like to welcome the discussion on Community actions on health services. In today's Europe, young people are moving between different countries more than ever before. It is therefore in the interest of young people that there is a functioning non-discriminatory health services system that can be used by all EU citizens no matter in which country they are living at the moment.

The European Youth Forum will open up a broader consultation among its membership on health issues in general, including health services. We will therefore wait with further comments on health services until this consultation has been finished but would with this letter express that we are nevertheless interested in the area.

Best regards,

Ludvig Hubendick Policy Officer for Sustainable Development and Health
