  - sharing high-priority patient safety issues
- **EU patient safety solution bank**
  - build upon existing data
- **a common taxonomy for reporting systems**
  - basis for transparency and exchange of info
- **a common EU data collection system**
  - sharing information on events/solution

# Overall timeframe

M2	Organizational structure for the project (WP1)
M4	SOP manual (WP1), communication strategy (WP2) established reporting routines from other WP (WP3) start prospective evaluation (WP3)
M5	project website (WP1) format and structure of information platform (WP2) graphic profiler and logo design (WP2)
M8	rapid response mechanism (WP6)
M12	expert group in place (WP4)
M13	EU patient safety solution bank (WP6)
M17	library on methods, data collecting and analyzing techniques (WP5)
M18	library on organizational structure and legal framework (WP4)
M20	conference on European reporting systems (WP4) proposal for an EU patient safety reporting system
M24	final report to the commission (WP1) internal evaluations report (WP3)

# Proposal for next steps

## September (Next meeting)

- Overall work plan for all WP
- Expectations for MS involvement
- Agreement with advisory group

## November

- Project start

## December

- Workshop with EUNetPaS in Paris
- Detailed work plan for all WP
- Proposal for coordination activities with EUNetPaS
