THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to the Treaty establishing the European Atomic Energy Community,

Having regard to Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities <sup>(1)</sup>, and in particular Article 183 thereof,

Having consulted the European Parliament, the Council, the Court of Justice of the European Communities, the Court of Auditors, the European Economic and Social Committee, the Committee of the Regions, the Ombudsman and the European Data Protection Supervisor,

Whereas:

- (1) The provisions of Regulation (EC, Euratom) No 1605/2002 (hereinafter 'the Financial Regulation') have been simplified to confine the Regulation to the basic principles and definitions relating to the establishment, execution and control of the general budget of the European Communities (hereinafter 'the budget').
- (2) These implementing rules should therefore not only supplement the Financial Regulation in respect of the provisions thereof for which it expressly refers to the implementing rules but also in respect of the provisions whose application requires the implementing measures to be determined in advance. In the interests of clarity, it is necessary to replace Commission Regulation (Euratom, ECSC, EC) No 3418/93 of 9 December 1993 laying down detailed rules for the implementation of the Financial Regulation of 21 December 1977 <sup>(2)</sup>, as last amended by Regulation (EC) No 1687/2001 <sup>(3)</sup>.
- (3) To ensure that sectoral rules are consistent with the budgetary principles set out in the Financial Regulation, an inventory should be produced of all regulatory instruments relating to budget execution and provision made for this inventory to be drawn up by the Commission and submitted to the budgetary authority.
- (4) As regards the budgetary principles, in particular the principle of unity, the requirement that interest on pre-financing to be repaid to the budget be identified means that any pre-financing which remains the property of the Communities must be identified. Such pre-financing remains the property of the institution unless the basic act, within the meaning of Article 49 of the Financial Regulation, provides otherwise and unless it is paid under a procurement contract, or to staff or members of the institutions, or to the Member States. This rule should be spelled out according to the type of management (direct or indirect centralised management and shared management). It does not apply to joint management since in such cases the Community funds are

merged with the funds of the international organisation. Where pre-financing which remains the property of the Communities yields interest, this interest should be paid to the budget as miscellaneous revenue.

- (5) For the principle of annuality, it is important to clarify the meaning of annual appropriations and the preparatory stages of the commitment procedure which, if completed by 31 December, may allow the carryover of commitment appropriations which will then have to be used by 31 March of the following financial year.
- (6) As regards the principle of the unit of account, the rates to be used for conversion between the euro and the other currencies for the requirements of the management of the cash flow and the accounts should be specified.
- (7) As regards the derogations from the principle of universality, the budget treatment to be given to assigned revenue, in particular to contributions by Member States or third countries to certain Community programmes, should be specified, as must the limits on the netting of expenditure and revenue.
- (8) As regards the principle of specification, a precise definition should be given of the calculation of the percentage of appropriations which the institutions are authorised to transfer by virtue of the autonomy they enjoy and provision should be made for the budgetary authority to be given full information through a detailed explanation of the requests for transfers which have to be submitted to it.
- (9) As for sound financial management, it is necessary to specify the objectives of the *ex ante*, interim and *ex post* evaluations of the programmes and activities, the minimum frequency with which they are to be carried out and the information to be given in the legislative financial statement.
- (10) As for the establishment and presentation of the budget, it is necessary to determine the contents of the general introduction to the budget, the working documents backing up the budget and the budget remarks for ensuring that the budgetary authority is fully informed. In the new activity-based budgeting (ABB) presentation, the definition and classification of administrative appropriations should also be set out.
- (11) As regards implementation of the budget, it is appropriate first to clarify the forms which may be taken by basic acts in the Community field and in the fields covered by the Treaty on European Union. The maximum amounts of appropriations which may be implemented for preparatory actions and pilot schemes without the existence of a basic act should be determined and the provisions of the Treaties conferring specific powers directly on the Commission should be listed.

<sup>(1)</sup> OJ L 248, 16.9.2002, p. 1.

<sup>(2)</sup> OJ L 315, 16.12.1993, p. 1.

<sup>(3)</sup> OJ L 228, 24.8.2001, p. 8.

- (12) Acts likely to constitute a conflict of interests should also be defined, together with the procedure to be followed in such cases.
- (13) As for the different methods of implementing the budget, it should be laid down that, when the Commission does not implement the budget directly in its departments, it must first ascertain that the entities to which it plans to entrust implementing tasks have management procedures and control and accounting systems which are adequate and appropriate with regard to the requirements of sound financial management.
- (14) In respect of indirect centralised management, that is to say, of management delegated by the Commission to executive agencies or to bodies governed by Community law or national public-sector bodies or bodies with a public-service mission, it is also necessary to lay down the framework for such delegation of powers and the arrangements for its implementation by act of delegation or agreement. The executive agencies, which remain under Commission control, should be recognised as authorising officers by delegation of that institution for implementation of the Community budget. Where national bodies have to carry out acts of budget implementation, they should offer adequate financial guarantees and be chosen in a transparent manner following a cost-effectiveness analysis showing the reasons for delegating management to such a body. The Commission should seek the opinion of the relevant committee, in accordance with the basic act for implementing the appropriations concerned, before delegating powers to national bodies. Private-law entities performing preparatory or ancillary tasks on the Commission's behalf should be selected in accordance with procurement procedures.
- (15) For shared management with the Member States or decentralised management with third countries, the stages and objectives of the procedure for the clearance of accounts should be laid down without prejudice to the specific provisions contained in the relevant sectoral regulations.
- (16) Finally, for joint management, it should be made clear that the share contributed by each donor to each type of expenditure need not be identified but that the subsidised actions must none the less be subject to comprehensive controls; the international organisations eligible for this type of management should be identified.
- (17) As regards the role of the financial actors, the reform of financial management, together with the dropping of centralised *ex ante* controls, increases the responsibilities of the authorising officers in all revenue and expenditure operations, including in terms of internal control systems. The budgetary authority should in future be informed of the appointment or termination of duties of an authorising officer by delegation. Consequently, the tasks, responsibilities and principles of the procedures to be observed should also be laid down. The internalisation of *ex ante* controls requires, in particular, a clear distinction between tasks relating to the initiation of operations in implementation of the budget and tasks relating to the verification of such operations. Moreover, each institution should adopt a code of professional standards applicable to the staff responsible for *ex ante* and *ex post* verifications. Provision should then be made for the responsibilities assumed to be accounted for in an annual report to the institution which must, *inter alia*, give the results of the *ex post* verifications; arrangements should also be made for keeping the supporting documents relating to the operations carried out. Finally, all the various forms of negotiated procedure for the award of public contracts should, since they represent derogations, be the subject of a special report to the institution and of a communication to the budgetary authority.
- (18) In order to clarify responsibilities, a precise definition should also be given of the tasks and responsibilities of the accounting officer in connection with the accounting systems, treasury management, the management of bank accounts and third-party files. The arrangements for the termination of the accounting officer's duties should also be spelled out.
- (19) The conditions for the use of imprest accounts, a system of management which forms an exception to normal budgetary procedures, should also be laid down, and the tasks and responsibilities of the imprest administrators, as well as those of the authorising officer and accounting officer in connection with the control of imprest accounts, should be set out. The budgetary authority should be informed of any appointment or termination of duties.
- (20) Once the tasks and responsibilities of each financial actor have been defined, they may be held liable only under the conditions laid down in the Staff Regulations of Officials of the European Communities and the Conditions of Employment of Other Servants. However, a new specialised financial irregularities panel should be set up in appropriate manner in each institution to determine whether irregularities of a financial nature have occurred. The procedure by which an authorising officer may seek confirmation of an instruction and thus be released from any liability should also be laid down.
- (21) As regards revenue, except for the special case of own resources covered by Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 94/728/EC, Euratom on the system of the Communities' own resources<sup>(1)</sup>, it is necessary to specify the tasks and controls falling within the responsibility of the authorising officers at the different stages of the procedure: establishment of the estimate of amounts receivable and then the recovery order; dispatch of the debit note informing the debtor that the amount receivable has been established; calculation of any default interest due; and, finally, the decision, where necessary, to waive an entitlement subject to criteria guaranteeing compliance with sound financial management. The accounting officer's role in the collection of revenue and in allowing any additional time for payment should also be specified.

<sup>(1)</sup> OJ L 130, 31.5.2000, p. 1.

- (22) As regards expenditure, the relationship between financing decisions, global commitments and individual commitments should be defined, as should the characteristics of those different stages. The distinction between a global commitment and an individual commitment depends on the extent to which the beneficiaries are identified and the amounts involved. Provisional commitments are limited to routine administrative expenditure and expenditure in connection with the European Agricultural Guidance and Guarantee Fund (EAGGF). To restrict the volume of dormant commitments, appropriations corresponding to commitments for which no payment has been made for three years should be decommitted.
- (23) It is then necessary to clarify the relationship between validation, authorisation and payment operations and the controls to be carried out by the authorising officer when validating expenditure, with the endorsement 'passed for payment', and when authorising payment by checking the validity of the release from all liability, for which the authorising officer now has sole responsibility. The documents to be produced in support of payments should be specified and rules laid down for the clearing of pre-financing and interim payments. Finally, the time-limits applicable to validation and payment operations should be laid down, account being taken of Directive 2000/35/EC of the European Parliament and of the Council of 29 June 2000 on combating late payment in commercial transactions <sup>(1)</sup>.
- (24) For the internal audit, it is necessary to lay down the procedure for appointing the auditor and to guarantee his independence within the institution which has appointed him and to which he must report on his activities; the budgetary authority should be informed of any appointment or termination of duties.
- (25) With regard to procurement, the option taken is to insert in the present Regulation the provisions of Council Directives 92/50/EEC <sup>(2)</sup>, 93/36/EEC <sup>(3)</sup> and 93/37/EEC <sup>(4)</sup>, as last amended by Commission Directive 2001/78/EC <sup>(5)</sup>, relating to the procedures for the award of public service, supply and works contracts respectively. Consequently, it is first necessary to define the various types of procurement contract; the advertising and publication measures applicable; the conditions in which use may be made of a particular form of procedure and the main features of the existing procedures; the specification of selection criteria and the possible award arrangements; rules for access to tender documents and for communication with tenderers or candidates; and, for cases where the Commission awards contracts on its own account, the various thresholds applicable and the rules for estimating the value of the contracts to be awarded.
- (26) The purpose of the procedures for the award of contracts is to satisfy the needs of the institutions on the best possible terms while guaranteeing equal access to public contracts and complying with the principles of transparency and non-discrimination. With a view to ensuring transparency and the equal treatment of candidates, as well as the full responsibility of authorising officers in the final choice, it is necessary to lay down the procedure for opening and then evaluating tenders and requests to participate, from the appointment of a committee up to the substantiated and documented award decision, which ultimately rests with the contracting authority. The financial guarantees needed to protect the Communities' financial interests should also be specified.
- (27) Finally, it is necessary to delimit the contracting authorities' powers to impose administrative penalties, in order to ensure that penalties are proportionate and dissuasive and to secure equal treatment as between the various institutions and as between departments.
- (28) The scope of the Title on grants should also be clarified, particularly with regard to the different methods for implementing the budget, but also with regard to the type of action or body of general European interest eligible for a grant. The characteristics of the annual work programme and of calls for proposals should be specified, as should the possible exceptions in this context and the possibility of retroactive effect, particularly in the context of humanitarian aid and the management of crisis situations, for which the constraints are very specific.
- (29) Again with regard to the requirements of transparency, equal treatment for applicants and the enhancement of the accountability of authorising officers, the award procedure should be laid down, from the application for the grant to its evaluation, by a committee, in the light of previously specified selection and award criteria, before the authorising officer takes his final, appropriately documented decision.
- (30) Sound financial management then requires that the Commission protect itself with guarantees: at the stage of grant applications, by arranging financial audits for applications involving larger amounts; then, at the time of paying pre-financing, by requiring advance financial guarantees; and, finally, at the stage of final payment, by arranging financial audits for the requests which involve the largest amounts and which present most risk. Sound management and compliance with the no-profit and co-financing principles also require rules to be laid down delimiting the possible use of flat-rate payments. Finally, the sound management of Community funds means that the grant beneficiaries themselves must comply with the principles of transparency and equal treatment of potential contractors, as well as with the principle that the contract must be awarded to the tender offering best value for money when the action is partly sub-contracted.

<sup>(1)</sup> OJ L 200, 8.8.2000, p. 35.

<sup>(2)</sup> OJ L 209, 24.7.1992, p. 1.

<sup>(3)</sup> OJ L 199, 9.8.1993, p. 1.

<sup>(4)</sup> OJ L 199, 9.8.1993, p. 54.

<sup>(5)</sup> OJ L 285, 29.10.2001, p. 1.

- (31) Finally, powers for imposing penalties in that context should be aligned with those conferred in the context of procurement.
- (32) As regards the keeping and presentation of the accounts, each of the generally accepted accounting principles on which the financial statements must be based should be defined. It is also necessary to specify the conditions for entering a transaction in the accounts and the rules for valuing assets and liabilities and for the constitution of provisions.
- (33) It should be specified that the institutions' accounts must be accompanied by a report on budgetary and financial management and details should be given of the content and presentation of the elements making up the financial statements (balance sheet, economic outturn account, cash-flow table and annex) and the budget implementation statements (budget outturn account and annex).
- (34) On accounting matters, it should be specified that the accounting officer of each institution must produce documents describing the organisation of the accounts and the accounting procedures of that institution and define the conditions to be respected by the computerised accounting systems, in particular as regards security of access and the audit trail for any changes made to the systems.
- (35) As regards the keeping of the accounts, it is necessary to specify the principles applicable to the accounting ledgers, the trial balance, the periodical reconciliation of the totals in that balance and the inventory, and to specify the components of the chart of accounts adopted by the Commission's accounting officer. The rules applicable to the registration of operations, in particular the double-entry method, the rules for the conversion of operations which are not denominated in euro and the supporting documents for accounting entries, should be laid down. The content of the accounting records should also be specified.
- (36) Finally, it is necessary to lay down the rules relating to the property inventory and to clarify the respective responsibilities in this field of the accounting officers and authorising officers, as well as the rules applicable to the resale of property entered in the inventory.
- (37) As regards the Structural Funds, it should be specified that the repayment of payments on account in respect of a given operation does not have the effect of reducing the contribution from the Fund to that operation.
- (38) The types of action, direct and indirect, which may be financed in the research sector should be specified.
- (39) For external actions, the implementing rules, like the Financial Regulation itself, aim to make provision for exceptions which reflect the specific operational features of that sector, mainly as regards procurement and the award of grants.
- (40) As regards procurement, these implementing rules take over the substance of the provisions of the Commission Decision of 10 November 1999 on the simplification of the management systems for the award of contracts in the framework of the cooperation programmes implemented by the Directorates-General for external relations,<sup>(1)</sup> resulting in procurement rules which differ from the standard rules by virtue of the different thresholds set and the management procedures, which have been adapted to external actions.
- (41) As for grants, it is necessary to list the types of action for which derogation is possible from the principle of co-financing referred to in Article 109 of the Financial Regulation. This applies in particular to humanitarian aid and aid in crisis situations and actions for the protection of the health or fundamental rights of peoples.
- (42) To guarantee the sound management of Community appropriations, it is also necessary to specify the pre-conditions and the rules to be contained in the agreements when the management of appropriations is decentralised or if use is made of imprest accounts.
- (43) The provisions of the Financial Regulation relating to European Offices should be supplemented by specific rules for the Office for Official Publications of the European Communities and by provisions authorising the Commission's accounting officer to delegate some of his tasks to staff in those Offices. Operational procedures should also be laid down for the bank accounts which the European Offices may be authorised to open in the Commission's name.
- (44) As regards administrative appropriations, each institution should inform the budgetary authority of significant building projects which are under way, that is to say, of those increasing the building stock.
- (45) It is necessary to identify the bodies which may receive grants charged to the budget and which have to be given a set of rules in accordance with the conditions laid down in Article 185 of the Financial Regulation.
- (46) The various thresholds and amounts referred to in this Regulation should be regularly updated by linking them with the inflation recorded in the Community, with the exception of the thresholds applicable to procurement,

HAS ADOPTED THIS REGULATION:

PART ONE

**COMMON PROVISIONS**

TITLE I

**SUBJECT**

*Article 1*

**Subject**

(Article 1 of the Financial Regulation)

This Regulation sets out the rules for implementing the provisions of Regulation (EC, Euratom) No 1605/2002 (hereinafter 'the Financial Regulation').

The institutions concerned by this Regulation are the institutions within the meaning of the Financial Regulation.

*Article 2*

**Inventory of legislative acts concerning the implementation of the budget**

TITLE II

**BUDGETARY PRINCIPLES**

CHAPTER 1

***Principles of unity and budget accuracy***

*Article 3*

**Scope of pre-financing remaining the property of the Communities**

(Article 5(4) of the Financial Regulation)

1. Pre-financing within the meaning of Article 105 shall remain the property of the Communities, unless the basic act, within the meaning of Article 49(1) of the Financial Regulation, provides otherwise. That provision shall not concern pre-financing paid under a contract within the meaning of Article 88 of the Financial Regulation, or to Member States, or under the pre-accession aid, or the advances referred to in Article 265. It shall not apply to joint management within the meaning of Article 53 of the Financial Regulation.

2. In the case of direct centralised management within the meaning of Article 53 of the Financial Regulation involving a number of partners, the rule referred to in paragraph 1 of this Article shall apply solely to the principal contractor.

3. In the case of decentralised management and in the case of indirect centralised management within the meaning of Article 53 of the Financial Regulation, the rule referred to in paragraph 1 of this Article shall apply only to the entity receiving pre-financing direct from the Commission.

4. The rule referred to in paragraph 1 shall apply to pre-financing paid under contracts or agreements concluded after the entry into force of this Regulation.

5. Paragraphs 1 to 4 shall be without prejudice to the entry of pre-financing on the assets side of the financial statements, as will be laid down in the accounting rules provided for in Article 133 of the Financial Regulation.

The authorising officers shall provide the accounting officer with details enabling him to identify pre-financing which remains the property of the Communities.

*Article 4*

**Entry in the budget of interest yielded by Community funds**

(Article 5(4) of the Financial Regulation)

1. Where pre-financing which remains the property of the Communities in accordance with Article 3 yields interest or equivalent benefits, these shall be paid to the general budget of the European Communities (hereinafter 'the budget') as miscellaneous revenue.

2. Authorising officers shall ensure that, under contracts and agreements concluded with beneficiaries:

- (a) such pre-financing is paid to accounts which allow the funds paid by the Communities to be identified; and
- (b) the beneficiaries inform the authorising officer responsible of the amount of any interest or equivalent benefits yielded by those funds at least once a year if such interest represents significant amounts and in any event whenever requests are made for interim payments or payments of balances that clear the pre-financing.

3. In accordance with Chapter 5 of Title IV, the authorising officer responsible shall, upon payment of the pre-financing, draw up an estimate of amounts receivable covering any interest or equivalent benefits yielded by the pre-financing.

The authorising officer responsible shall, in accordance with the timetable referred to in point (b) of paragraph 2, draw up a recovery order for the amount of interest referred to in paragraph 1.

4. Where pre-financing is paid from the same budget line, under the same basic act and to beneficiaries covered by the same award procedure, the authorising officer may draw up a single estimate of amounts receivable for a number of debtors.

#### CHAPTER 2

### **Principle of annuality**

#### Article 5

### **Appropriations for the financial year**

(Article 8(3) of the Financial Regulation)

The commitment appropriations and payment appropriations entered in the budget for a financial year and which have to be used during that year shall consist of the appropriations authorised for that financial year. The appropriations authorised for the financial year are:

- (a) appropriations provided in the budget, including by amending budgets;
- (b) appropriations carried over;
- (c) appropriations made available again in accordance with Articles 157 and 181(5) of the Financial Regulation;
- (d) appropriations arising from payments on account which have been repaid in accordance with Article 228;
- (e) appropriations provided following the receipt of revenue assigned during the financial year or during previous financial years and not used.

#### Article 6

### **Carryover of appropriations**

(Article 9(2) of the Financial Regulation)

1. The commitment appropriations referred to in Article 9(2)(a) of the Financial Regulation may be carried over only if the commitments could not be made before 31 December of the financial year for reasons not attributable to the authorising officer and if the preparatory stages are sufficiently advanced to make it reasonable to surmise that the commitment will be made by no later than 31 March of the following year.

2. The preparatory stages referred to in Article 9(2)(a) of the Financial Regulation, which should be completed by 31 December of the financial year in order to allow a carryover to the following year, are in particular:

- (a) for global commitments within the meaning of Article 76 of the Financial Regulation, the adoption of a financing decision or the closing by that date of the consultation of the departments concerned within each institution for the adoption of the decision;

- (b) for individual commitments within the meaning of Article 76 of the Financial Regulation, the advanced stage of preparation of the contracts or agreements. This advanced stage of preparation of the contracts or agreements shall mean the completion of the selection of potential contractors or beneficiaries.

3. Appropriations carried over in accordance with Article 9(2)(a) of the Financial Regulation which have not been committed by 31 March of the following financial year shall be automatically cancelled.

The Commission shall inform the budgetary authority by 15 April of the appropriations cancelled in this way.

4. Appropriations carried over in accordance with Article 9(2)(b) of the Financial Regulation may be used until 31 December of the following financial year.

5. The accounts shall identify appropriations carried over in this way.

6. The appropriations for staff expenditure referred to in Article 9(6) of the Financial Regulation are those for remuneration and allowances for members and staff of the institutions.

#### CHAPTER 3

### **(Chapter 4 of the Financial Regulation)**

### **Principle of unit of account**

#### Article 7

### **Rate of conversion between the euro and other currencies**

(Article 16 of the Financial Regulation)

1. Without prejudice to specific provisions arising from the application of sectoral regulations, conversion between the euro and another currency shall be made using the daily euro rate published in the C series of the *Official Journal of the European Communities*.

2. If no daily euro rate is published in the *Official Journal of the European Communities* for the currency in question, the Commission shall use the accounting rate referred to in paragraph 3.

3. For the purposes of the accounts provided for in Articles 132 to 137 of the Financial Regulation and subject to Article 213, conversion between the euro and another currency shall be made using the monthly accounting rate of the euro. That accounting rate shall be established by the Commission by means of any source of information it regards as reliable, on the basis of the rate on the penultimate working day of the month preceding that for which the rate is established.

*Article 8***Rate to be used for conversion between the euro and other currencies***(Article 16 of the Financial Regulation)*

1. Without prejudice to specific provisions deriving from the application of sectoral regulations, the rate to be used for conversion between the euro and other currencies shall be that of the day on which the payment order or recovery order is drawn up by the authorising department.
2. In the case of euro imprest accounts, the rate to be used shall be determined by the date of the payment by the bank.
3. In the case of imprest accounts in national currencies, referred to in Article 16 of the Financial Regulation, the rate to be used shall be that of the month of the expenditure from the imprest account.
4. For expenditure financed by the European Agricultural Guidance and Guarantee Fund (EAGGF), Guarantee Section, the rate to be used for month 'n' in respect of which such expenditure has been declared in accordance with Article 3 of Commission Regulation (EC) No 296/96<sup>(1)</sup> shall be that for the tenth day of month 'n+1' or for the first preceding day for which a rate is quoted.

That rate shall also be used for the corresponding advances provided for in Articles 4 and 5 of Regulation (EC) No 296/96.

*Article 9***Information on cash transfers by the Commission between different currencies***(Article 16 of the Financial Regulation)*

Each quarter the Commission shall send the Member States a statement of transfers carried out between different currencies.

## CHAPTER 4

**(Chapter 5 of the Financial Regulation)****Principle of universality***Article 10***Structure to accommodate assigned revenue and provision of corresponding appropriations***(Article 18 of the Financial Regulation)*

1. Without prejudice to Articles 12 and 13, the structure to accommodate assigned revenue in the budget shall comprise:
  - (a) in the statement of revenue of each institution's section, a budget line to receive the revenue;
  - (b) in the statement of expenditure, the remarks shall show which lines may receive the appropriations corresponding to the assigned revenue which are made available.

<sup>(1)</sup> OJ L 39, 17.2.1996, p. 5.

In the case referred to in point (a) of the first subparagraph, if the amount of such revenue is foreseeable, it shall be entered on the line. If it is not foreseeable, a token entry (p.m.) shall be made and the estimated revenue shall be shown for information in the remarks.

2. The appropriations corresponding to assigned revenue may be made available, both as commitment appropriations and as payment appropriations, when the revenue has been received by the institution, save in the case provided for in Article 161(2) of the Financial Regulation. They shall be made available automatically save in the case of repayments of payments on account, referred to in Article 156 of the Financial Regulation, and in the case of financial corrections in connection with the Structural Funds.

*Article 11***Contributions from Member States to research programmes***(Article 18(1)(a) of the Financial Regulation)*

1. The Member States' contributions to the financing of certain supplementary research programmes, provided for in Article 5 of Regulation (EC, Euratom) No 1150/2000, shall be paid as follows:

- (a) seven twelfths of the sum entered in the budget shall be paid by no later than 31 January of the current financial year;
- (b) the remaining five twelfths shall be paid by no later than 15 July of the current financial year.

2. Where the budget has not been finally adopted before the start of a financial year, the contributions provided for in paragraph 1 shall be based on the sum entered in the budget for the previous financial year.

3. Any contribution or additional payment owed by the Member States to the budget shall be entered in the Commission's account or accounts within thirty calendar days of the call for funds.

4. Payments made shall be entered in the account provided for in Regulation (EC, Euratom) No 1150/2000 and shall be subject to the conditions laid down by that Regulation.

*Article 12***Assigned revenue resulting from the participation of EFTA States in certain Community programmes***(Article 18(1)(d) of the Financial Regulation)*

1. The budget structure to accommodate the participation of the EFTA States in certain Community programmes shall be as follows:

- (a) in the statement of revenue, a line with a token entry (p.m.) shall be entered to accommodate the full amount of the EFTA States' contribution for the financial year in question. The estimated amount shall be shown in the budget remarks;

- (b) in the statement of expenditure:
- (i) the remarks for each line relating to the Community activities in which the EFTA States participate shall show 'for information' the estimated amount of the participation;
  - (ii) an annex, forming an integral part of the budget, shall set out all the lines covering the Community activities in which the EFTA States participate.

The annex referred to in point (b)(ii) of the first subparagraph reflects and is part of the structure to accommodate the appropriations corresponding to such participation, as provided for in paragraph 2, and to allow the expenditure to be implemented.

2. Under Article 82 of the Agreement on the European Economic Area (EEA), the amounts of the annual participation of the EFTA States, as confirmed to the Commission by the EEA Joint Committee in accordance with Article 1(5) of Protocol 32 annexed to that Agreement, shall give rise to the provision, at the start of the financial year, of the full amounts of the corresponding appropriations for commitments and appropriations for payments.

3. If, in the course of the financial year, additional appropriations are provided on the budget lines with EFTA State participation without the EFTA States being able, during that year, to adjust their contributions accordingly in order to comply with the 'proportionality factor' provided for in Article 82 of the Agreement on the European Economic Area, the Commission may, as a provisional and exceptional measure, use its cash resources to pre-finance the share of the EFTA States. Whenever such additional appropriations are provided, the Commission shall, as soon as possible, call in the corresponding contributions from the EFTA States. The Commission shall inform the budgetary authority each year of any such decisions taken.

The pre-financing shall be regularised as soon as possible in the budget for the following financial year.

4. In accordance with Article 18(1)(d) of the Financial Regulation, the financial contributions of the EFTA States shall constitute assigned revenue. The accounting officer shall adopt appropriate measures to ensure that use of the revenue arising from those contributions and of the corresponding appropriations is monitored separately.

In the report provided for in Article 131(2) of the Financial Regulation, the Commission shall show separately the stage of implementation, in both revenue and expenditure, corresponding to EFTA State participation.

<sup>(1)</sup> OJ L 209, 2.8.1997, p. 6.

- (b) at the same time, and without prejudice to Article 74 of the Financial Regulation, entry of those amounts in the statement of revenue shall give rise to the provision, in the statement of expenditure, of commitment appropriations and payment appropriations. 1. Pre-financing, including in cases where it is split into a number of payments, shall be paid either on the basis of the contract, the agreement or the basic act, or on the basis of supporting documents which make it possible to check the conformity of the actions financed with the terms of the contract or agreement in question. Interim payments and payments of balances shall be based on supporting documents which make it possible to check that the action financed has been carried out in accordance with the terms of the contract or agreement concluded with the beneficiary or of the basic act.
2. The authorising officer responsible shall lay down, in compliance with the principle of sound financial management, the nature of the supporting documents referred to in paragraph 1 in accordance with the basic act and the contracts and agreements concluded with the beneficiary. Interim and final technical and financial implementation reports, shall constitute supporting documents for the purposes of paragraph 1.

2. An interim payment, which may be repeated, is intended to reimburse expenditure incurred by the beneficiary on the basis of a statement of expenditure when the action is in progress. It may clear pre-financing in whole or in part, without prejudice to the provisions of the basic act.
3. The closure of the expenditure shall take the form of the payment of the balance, which may not be repeated and clears all preceding payments, or a recovery order.

*Section 5***Time limits for expenditure operations***Article 106***Payment time limits and default interest***(Article 83 of the Financial Regulation)*

Sums due shall be paid within no more than forty-five calendar days from the date on which an admissible payment request is registered by the authorised department of the authorising officer responsible; the date of payment shall be understood to mean the date on which the institution's account is debited.

The payment request is not admissible if at least one essential requirement is not met.

2. The payment period referred to in paragraph 1 shall be thirty calendar days for payments relating to service or supply contracts, save where the contract provides otherwise.
3. For contracts or agreements under which payment depends on approval of a report, time for the purposes of the payment periods referred to in paragraphs 1 and 2 shall not begin to run until the report in question has been approved, either explicitly with the beneficiary being informed, or implicitly because the time allowed by the contract for approval has expired without being suspended by means of a formal document sent to the beneficiary.

The time allowed for approval may not exceed:

- (a) 20 calendar days for straightforward contracts relating to the supply of goods and services;
- (b) 45 calendar days for other contracts and grant agreements;
- (c) 60 calendar days for contracts involving technical services which are particularly complex to evaluate.

4. The authorising officer responsible may suspend the time limit for payment by informing creditors, at any time during the period referred to in paragraph 1, that the payment request cannot be met, either because the amount is not due or because the appropriate supporting documents have not been produced. If information comes to the notice of the authorising officer responsible which puts in doubt the eligibility of expenditure appearing in a payment request, the authorising officer may suspend the time limit for payment for the purpose of further verification, including an on-the-spot check, in order to ascertain, prior to payment, that the expenditure is indeed eligible. The authorising officer shall inform the beneficiary in question as soon as possible.

Time for the purposes of the remainder of the payment period shall begin to run again from the date on which the properly formulated payment request is first registered.

5. On expiry of the time limits laid down in paragraphs 1 and 2, the creditor may, within two months of receiving late payment, demand interest in accordance with the following provisions:

- (a) the interest rates shall be those referred to in the first subparagraph of Article 86(2);

## TITLE V

## PROCUREMENT

## CHAPTER 1

**General provisions**

## Section 1

**Scope and award principles***Article 116***Definitions and scope**

(Article 88 of the Financial Regulation)

1. Building contracts cover the purchase, long lease, leasing, rental or hire purchase, with or without option to buy, of land, existing buildings or other real estate.

2. Supply contracts cover the purchase, leasing, rental or hire purchase, with or without option to buy, of products. The

delivery of products may in addition include siting, installation and maintenance.

3. Works contracts cover either the execution, or both the execution and design, of works or the realisation, by whatever means, of a work corresponding to the requirements specified by the contracting authority. A 'work' means the outcome of building or civil engineering works taken as a whole that is sufficient of itself to fulfil an economic or technical function.

4. Service contracts cover all intellectual and non-intellectual services other than those covered by supply contracts, works contracts and building contracts. These services are listed in Annexes IA and IB to Council Directive 92/50/EEC.

5. A contract covering both products and services shall be considered a service contract where the value of the services in question exceeds that of the products included in the contract.

6. The terms 'supplier', 'contractor' and 'service provider' refer to three categories of economic operator, natural or legal persons, who supply products, execute works and provide services respectively. Economic operators who have submitted a tender are referred to as 'tenderers'. Those who have asked to be allowed to take part in a restricted or negotiated procedure are referred to as 'candidates'.

7. Departments of the Community institutions shall be considered to be contracting authorities.

#### Article 117

### Framework contracts and specific contracts

(Article 88 of the Financial Regulation)

1. A framework contract is a contract concluded between a contracting authority and an economic operator for the purpose of laying down the essential terms governing a series of specific contracts to be awarded during a given period, in particular as regards the duration, subject, prices, conditions of performance and the quantities envisaged.

The contracting authority may also conclude multiple framework contracts, which are separate contracts with identical terms awarded to a number of suppliers or service providers. The specifications referred to in Article 130 shall then specify the maximum number of operators with whom the contracting authority will conclude contracts.

The duration of framework contracts may not exceed four years, save in exceptional cases justified in particular by the subject of the framework contract.

Contracting authorities may not make undue use of framework contracts or use them in such a way that the purpose or effect is to prevent, restrict or distort competition.

2. Specific contracts based on the framework contracts referred to in paragraph 1 shall be awarded in accordance with the terms laid down in the framework contract.

3. Only specific contracts concluded under framework contracts shall be preceded by a budget commitment.

#### Section 2

### Publication

#### Article 118

### Advertising of contracts covered by the public procurement directives

(Article 90 of the Financial Regulation)

1. Publication shall consist in a pre-information notice, a contract notice and an award notice.

2. The pre-information notice shall be the notice by which the contracting authorities make known, by way of indication, the estimated total value of contracts, by category of service or groups of products, and the essential characteristics of works contracts which they intend to award during a budgetary year, where the estimated total value is equal to or greater than the thresholds laid down in Article 157.

The pre-information notice shall be sent to the Office for Official Publications of the European Communities as soon as possible and by no later than 31 March of each budgetary year in the case of supply and service contracts and, in the case of works contracts, as soon as possible after the decision approving the programme for those contracts.

3. The contract notice shall be the means by which the contracting authorities make known their intention to launch a procurement procedure. It shall be compulsory for contracts of an estimated value equal to or greater than the thresholds laid down in points (a) and (c) of Article 158(1).

In an open procedure the contract notice shall specify the date, time and place of the meeting of the opening committee, which shall be open to the tenderers.

Contracting authorities wishing to organise a contest shall issue a notice announcing their intention.

4. The award notice shall give the outcome of the procurement procedure. In the case of contracts the value of which is equal to or greater than the thresholds laid down in Article 158, the award notice shall be compulsory. It shall not be compulsory for specific contracts awarded under a framework contract.

The award notice shall be sent to the Office for Official Publications of the European Communities no later than forty-eight calendar days after the procedure is closed, that is to say, from the date on which the contract is signed.

5. The notices shall be drawn up in accordance with the models annexed to Directive 2001/78/EC.

#### Article 119

### Advertising of contracts not covered by the public procurement directives

(Article 90 of the Financial Regulation)

1. Contracts with a value below the thresholds provided for in Articles 157 and 158 and the service contracts referred to in Annex IB to Council Directive 92/50/EEC shall be advertised by appropriate means in order to ensure competitive tendering and impartiality of the procurement procedure. Such advertising shall involve:

(a) if no contract notice as referred to in Article 118(3) has been published, notice of a call for expressions of interest for contracts covering a similar subject with a value equal to or greater than the amount referred to in Article 128(1);

(b) the annual publication of a list of contractors, specifying the subject and the value of the contract awarded.

2. A list of contractors to whom building contracts are awarded shall be published annually, with an indication of the subject and value of the contracts awarded. That list shall be sent to the budgetary authority; in the case of the Commission, it shall be annexed to the summary of the annual activity reports referred to in Article 60(7) of the Financial Regulation.

3. Information relating to contracts with a value equal to or greater than the amount referred to in Article 128(1) shall be sent to the Office for Official Publications of the European Communities; the annual lists of contractors shall be sent by no later than 31 March following the end of the financial year.

*Ex ante* advertising and the annual publication of the list of contractors for the other contracts shall be on the Internet site of the institutions; *ex post* publication shall take place by no later than 31 March of the following financial year. Publication may also be in the *Official Journal of the European Communities*.

#### Article 120

##### Publication of notices

(Article 90 of the Financial Regulation)

1. The Office for Official Publications of the European Communities shall publish the notices referred to in Articles 118 and 119 in the *Official Journal of the European Communities* no later than twelve calendar days after their dispatch.

That period shall be reduced to five calendar days in the case of the fast-track procedures referred to in Article 142 and if the notices have been prepared and sent electronically.

2. The contracting authorities must be able to provide evidence of the date of dispatch.

#### Article 121

##### Other forms of advertising

(Article 90 of the Financial Regulation)

In addition to the advertising provided for in Articles 118, 119 and 120, contracts may be advertised in any other way, notably in electronic form. Any such advertising shall refer to the notice published in the *Official Journal of the European Communities*, as provided for in Article 120, if one has been published, and may not precede the publication of that notice, which alone is authentic.

Such advertising may not introduce any discrimination between candidates or tenderers nor contain details other than those contained in the contract notice, if one has been published.

## Section 3

### Procurement procedures

#### Article 122

##### Types of procurement procedure

(Article 91 of the Financial Regulation)

1. Contracts shall be awarded by call for tender, using the open, restricted or negotiated procedure after publication of a contract notice or by negotiated procedure without prior publication of a contract notice, where appropriate following a contest.

2. Calls for tender shall be open where all interested economic operators may submit a tender.

Calls for tender are restricted where all economic operators may ask to take part but only candidates satisfying the selection criteria referred to in Article 135 and invited simultaneously and in writing by the contracting authorities may submit a tender.

The selection phase may be repeated for each individual contract or may involve drawing up a list of potential candidates under the procedure referred to in Article 128.

3. In a negotiated procedure, the contracting authorities shall consult tenderers of their choice who satisfy the selection criteria laid down in Article 135, and negotiate the terms of the contract with one or more of them.

In negotiated procedures where a contract notice is published, as referred to in Article 127, the contracting authorities shall simultaneously and in writing invite the selected candidates to negotiate.

4. Contests are procedures which enable the contracting authority to acquire, mainly in the fields of architecture and civil engineering or data processing, a plan or design proposed by a selection board after being put out to competitive tender with or without the award of prizes.

#### Article 123

##### Number of candidates in restricted or negotiated procedures

(Article 91 of the Financial Regulation)

1. In a restricted procedure, including the procedure referred to in Article 128, the number of candidates invited to submit a tender may not be less than five, provided that a sufficient number of candidates satisfy the selection criteria.

The contracting authority may also provide for a maximum number of twenty candidates, depending on the subject of the contract and on the basis of objective and non-discriminatory selection criteria. In such cases, the range and criteria shall be indicated in the contract notice or the call for expressions of interest referred to in Articles 118 and 119.

In any event, the number of candidates invited to tender must be sufficient to ensure genuine competition.

2. In negotiated procedures the number of candidates invited to negotiate may not be less than three, provided that a sufficient number of candidates satisfy the selection criteria.

In any event, the number of candidates invited to tender must be sufficient to ensure genuine competition.

The second subparagraph shall not apply to contracts involving very small amounts, as referred to in Article 129(3).

#### Article 124

### Arrangements for negotiated procedures

(Article 91 of the Financial Regulation)

Contracting authorities shall negotiate with tenderers the tenders they have submitted in order to adapt them to the requirements set out in the contract notice referred to in Article 118 or in the specifications and in any additional documents and in order to find the tender offering best value for money.

During the negotiation, the contracting authorities shall ensure equal treatment for all tenderers.

#### Article 125

### Contests

(Article 91 of the Financial Regulation)

1. The rules for the organisation of a contest shall be communicated to those interested in taking part.

The number of candidates invited to take part must be sufficient to ensure genuine competition.

2. The selection board shall be appointed by the authorising officer responsible. It shall be made up exclusively of natural persons who are independent of participants in the contest. Where a particular professional qualification is required for participation in a contest, at least one third of the members of the selection board must have the same or an equivalent qualification.

The selection board shall be autonomous in its opinions. Its opinions shall be adopted on the basis of projects submitted to it anonymously by the candidates and solely in the light of the criteria set out in the contest notice.

3. The proposals of the selection board, based on the merits of each project, and its observations, shall be recorded in a report signed by its members.

Candidates shall remain anonymous until the selection board has given its opinion.

4. The contracting authority shall then take a decision giving the name and address of the candidate selected and the reasons for the choice by reference to the criteria announced in the contest notice, especially if it departs from the proposals made in the selection board's opinion.

#### Article 126

### Use of a negotiated procedure without prior publication of a contract notice

(Article 91 of the Financial Regulation)

1. Contracting authorities may use the negotiated procedure without prior publication of a contract notice in the following cases:

- (a) where no tenders or no suitable tenders have been submitted in response to an open procedure or restricted procedure after the initial procedure has been completed, provided that the original terms of the contract as specified in the documents relating to the invitation to tender referred to in Article 130 are not substantially altered;
- (b) where, for technical or artistic reasons, or for reasons connected with the protection of exclusive rights, the contract can be awarded only to a particular economic operator;
- (c) in so far as is strictly necessary where, for reasons of extreme urgency brought about by unforeseeable events not attributable to the contracting authorities and likely to jeopardise the Communities' interests, it is impossible to comply with the time-limits set for the other procedures and laid down in Articles 140, 141 and 142;
- (d) where a service contract follows a contest and must, under the rules applying, be awarded to the successful candidate or to one of the successful candidates; in the latter case, all successful candidates shall be invited to participate in the negotiations;
- (e) for additional services and works not included in the project initially considered nor in the contract first concluded but which, through unforeseen circumstances independent of the contracting authority, have become necessary for the performance of the services or works, subject to the conditions set out in paragraph 2;
- (f) for additional contracts consisting in the repetition of similar services or works entrusted to the contractor awarded an earlier contract by the same contracting authorities, provided that the subject of the contract conforms to a basic project and that the first contract was awarded under the open or restricted procedure;

- (g) for supply contracts:
- (i) in the case of additional deliveries which are intended either as a partial replacement of normal supplies or installations or as the extension of existing supplies or installations, where a change of supplier would oblige the contracting authority to acquire equipment having different technical characteristics which would result in incompatibility or disproportionate technical difficulties in operation and maintenance; the length of such contracts may not exceed three years;
  - (ii) where the products are manufactured purely for the purpose of research, experiment, study or development, with the exception of commercial viability tests and large-scale production aimed at recovering research and development costs;
- (h) for building contracts, after prospecting the local market;
- (i) for contracts with a value below the threshold laid down in Article 129(2).

2. For the additional services and works referred to in point (e) of paragraph 1, the contracting authority may make use of the negotiated procedure without prior publication of a contract notice on condition that the award is made to the contractor performing the contract:

- (a) where such additional contracts cannot be technically or economically separated from the main contract without serious inconvenience for the contracting authority; or
- (b) where such services or works, although separable from the performance of the original contract, are strictly necessary for its completion.

The aggregate value of additional contracts may not exceed 50 % of the amount of the initial contract.

3. In the cases referred to in point (f) of paragraph 1, the option of using the negotiated procedure shall be pointed out as soon as the first contract is put out to competitive tender, and the total estimated cost of the additional contracts shall be taken into consideration in calculating the thresholds referred to in Article 158. That procedure may be used only during the three years following conclusion of the original contract.

#### Article 127

#### Use of a negotiated procedure after prior publication of a contract notice

(Article 91 of the Financial Regulation)

1. Contracting authorities may use the negotiated procedure after having published a contract notice in the following cases:
- (a) in the event of the submission of tenders which are irregular or unacceptable, by reference in particular to the selection or award criteria, in response to an open or

restricted procedure which has been completed, provided that the original terms of the contract as specified in the documents relating to the invitation to tender referred to in Article 130 are not substantially altered;

- (b) for service and works contracts, in exceptional cases where the nature of the services or works or the risks attaching thereto do not permit prior overall pricing by the tenderer;
- (c) where the nature of the service to be procured, in particular in the case of financial services and intellectual services, is such that contract specifications cannot be established with sufficient precision to permit the award of the contract by selecting the best tender in accordance with the rules governing open or restricted procedures;
- (d) for works contracts, where the works are performed solely for purposes of research, testing or development and not with the aim of ensuring profitability or recovering research and development costs;
- (e) for the service contracts referred to in Annex 1B to Council Directive 92/50/EEC, subject to point (i) of Article 126(1).

2. In the cases referred to in point (a) of paragraph 1, contracting authorities may refrain from publishing a contract notice if they include in the negotiated procedure all the tenderers who satisfy the selection criteria and who, during the previous procedure, submitted tenders in accordance with the formal requirements of the procurement procedure.

#### Article 128

#### Restricted procedure involving a call for expressions of interest

(Article 91 of the Financial Regulation)

1. A call for expressions of interest shall constitute a means of preselecting candidates who will be invited to submit tenders in response to future restricted invitations to tender for contracts of a value of EUR 50 000 or more, subject to Articles 126 and 127.

2. The list drawn up following a call for expressions of interest shall be valid for no more than three years from the date on which the notice referred to in point (a) of Article 119(1) is sent to the Office for Official Publications of the European Communities.

Any interested person may submit an application at any time during the period of validity of the list, with the exception of the last three months of that period.

3. Where a specific contract is to be awarded, the contracting authority shall invite either all candidates entered on the list or only some of them, on the basis of objective and non-discriminatory selection criteria specific to that contract, to submit a tender.

*Article 129***Low-value contracts**

(Article 91 of the Financial Regulation)

1. A restricted procedure with at least five candidates being consulted but without a call for expressions of interest may be used for contracts with a value of less than EUR 50 000, subject to Articles 126 and 127.
2. The negotiated procedure with at least three candidates may be used for contracts with a value of less than EUR 13 800.
3. Contracts with a value of less than EUR 1 050 may be awarded on the basis of a single tender by a negotiated procedure.
4. Payments made from imprest accounts or for expenditure related to communications activities engaged in by the institutions for the coverage of Community events may consist simply in the payment of costs against invoices, without prior acceptance of a tender, where the expenditure is less than EUR 200.

*Article 130***Documents relating to the invitation to tender**

(Article 92 of the Financial Regulation)

1. The documents relating to the invitation to tender shall include at least:
  - (a) the invitation to submit a tender or to negotiate;
  - (b) the attached specifications, to which shall be annexed the general terms and conditions applicable to contracts;
  - (c) the model contract.

The documents relating to the invitation to tender shall contain a reference to the advertising measures taken under Articles 118 to 121.

2. The invitation to tender shall at least:
  - (a) specify the rules governing the lodging and presentation of tenders, including in particular the closing date and time for submission, any requirement as to the use of a standard reply form, the documents to be attached, including those in evidence of financial, economic, technical and professional capacity referred to in Article 135, and the address to which they must be sent;
  - (b) state that submission of the tender implies acceptance of the specifications and of the general terms and conditions referred to in paragraph 1 to which the tender relates and that this submission binds the contractor to whom the contract is awarded during performance of the contract;
  - (c) specify the period during which a tender will remain valid and may not be varied in any respect;

- (d) forbid any contact between the contracting authority and the tenderer during the procedure, save, exceptionally, under the conditions laid down in Article 148, and, where provision is made for an on-the-spot visit, specify the arrangements for such a visit.

3. The specifications shall at least:

- (a) specify the exclusion and selection criteria applying to the contract, save in the restricted procedure and in the negotiated procedures following publication of a notice referred to in Article 127; in such cases those criteria shall appear solely in the contract notice or the call for expressions of interest;
- (b) specify the award criteria and their relative weighting, if this is not specified in the contract notice;
- (c) set out the technical specifications referred to in Article 131;
- (d) state the minimum requirements which variants must meet in the procedures provided for in Article 138(2) under which the contract is awarded to the tender offering best value for money, where the contracting authority has not stated in the contract notice that such variants are not permitted;
- (e) state that the Protocol on Privileges and Immunities or, where appropriate, the Vienna Convention on Diplomatic Relations or Consular Relations applies;
- (f) specify the evidence of access to contracts, as set out in Article 159.

4. The model contract shall in particular:

- (a) specify the penalties for failure to comply with its clauses;
- (b) specify the details which must be contained in invoices or in the relevant supporting documents in accordance with Article 98;
- (c) specify the law applicable to the contract and the competent court for hearing disputes.

5. The contracting authorities may demand information from the tenderer on any part of the contract that the tenderer may intend to subcontract to third parties and on the identity of any subcontractors.

*Article 131***Technical specifications**

(Article 92 of the Financial Regulation)

1. Technical specifications must afford equal access for candidates and tenderers and not have the effect of creating unjustified obstacles to competitive tendering.

They shall define the characteristics required of a product, service or material or work with regard to the purpose for which they are intended by the contracting authority.

2. The characteristics referred to in paragraph 1 shall include:

- (a) the quality levels;
- (b) environmental performance;
- (c) design for all requirements (including accessibility for disabled people);
- (d) the levels and procedures of conformity assessment;
- (e) fitness for use;
- (f) safety or dimensions, including, for supplies, the sales name and user instructions, and, for all contracts, terminology, symbols, testing and test methods, packaging, marking and labelling, production procedures and methods;
- (g) for works contracts, the procedures relating to quality assurance and the rules relating to design and costing, the test, inspection and acceptance conditions for works and methods or techniques of construction and all the other technical conditions which the contracting authority may impose under general or specific regulations in relation to the finished works and to the materials or parts which they involve.

3. The technical specifications shall be formulated as follows:

- (a) by reference to European standards, or to European technical approvals or common technical specifications, where such exist, to international standards or to other technical reference material produced by European standards bodies or, failing this, their national equivalents. Every reference shall be followed by the expression 'or equivalent'; or
- (b) in terms of performance or of functional requirements; they shall be sufficiently detailed to enable tenderers to determine the purpose of the contract and the contracting authorities to award the contract; or
- (c) by a mixture of those two formulation methods.

4. Where the contracting authorities make use of the possibility of referring to the specifications referred to in point (a) of paragraph 3, they may not reject a tender on the grounds that it does not comply with those specifications if the tenderer or candidate proves, to the satisfaction of the contracting authority, by any appropriate means, that the tender meets in equivalent manner the requirements set.

5. Where the contracting authorities make use of the possibility provided for in point (b) of paragraph 3, of prescribing specifications in terms of performance or of functional requirements, they may not reject a tender which complies with a national standard transposing a European standard, a European technical approval or common technical specifications, an international standard or technical reference material produced by a European standards body, if those specifications relate to the necessary performance or functional requirements.

6. Save in exceptional cases, duly warranted by the subject of the contract, those specifications may not refer to a specific make or source, or a particular process, or to trade marks,

patents, types or a specific origin or production which would have the effect of favouring or eliminating certain products or economic operators.

Where it is not possible to provide a sufficiently detailed and intelligible description of the subject of the contract, the reference shall be followed by the expression 'or equivalent'.

#### Article 132

#### Price revision

(Article 92 of the Financial Regulation)

1. The documents relating to the invitation to tender shall clearly state whether a firm, non-revisable price must be quoted.

2. If that is not the case, the documents relating to the invitation to tender shall lay down the conditions and/or formulas for revision of prices during the lifetime of the contract. In such cases the contracting authority shall take particular account of:

- (a) the object of the procurement procedure and the economic situation in which it is taking place;
- (b) the type of tasks and contract and their duration;
- (c) its financial interests.

#### Article 133

#### Administrative and financial penalties

(Articles 93 to 96 and 114 of the Financial Regulation)

1. Without prejudice to the application of penalties laid down in the contract, candidates or tenderers and contractors who have been guilty of making false declarations or have been found to have seriously failed to meet their contractual obligations in an earlier procurement procedure shall be excluded from all contracts and grants financed by the Community budget for a maximum of two years from the time when the infringement is established, as confirmed after an adversarial procedure with the contractor.

That period may be extended to three years in the event of a repeat offence within five years of the first infringement.

Tenderers or candidates who have been guilty of making false declarations shall also receive financial penalties representing 2 % to 10 % of the total value of the contract being awarded.

Contractors who have been found to have seriously failed to meet their contractual obligations shall receive financial penalties representing 2 % to 10 % of the total value of the contract in question.

That rate may be increased to 4 % to 20 % in the event of a repeat offence within five years of the first infringement.

2. In the cases referred to in points (a), (c) and (d) of Article 93(1) of the Financial Regulation, the candidates or tenderers shall be excluded from all contracts and grants for a maximum of two years from the time when the infringement is established, as confirmed after an adversarial procedure with the contractor.

In the cases referred to in points (b) and (e) of Article 93(1) of the Financial Regulation, the candidates or tenderers shall be excluded from all contracts and grants for a minimum of one year and a maximum of four years from the date of notification of the judgment.

Those periods may be extended to five years in the event of a repeat offence within five years of the first infringement or the first judgment.

3. The cases referred to in point (e) of Article 93(1) of the Financial Regulation shall be the following:

- (a) cases of fraud as referred to in Article 1 of the Convention on the protection of the European Communities' financial interests drawn up by the Council Act of 26 July 1995 <sup>(1)</sup>;
- (b) cases of corruption as referred to in Article 3 of the Convention on the fight against corruption involving officials of the European Communities or officials of Member States of the European Union, drawn up by the Council Act of 26 May 1997 <sup>(2)</sup>;
- (c) cases of participation in a criminal organisation, as defined in Article 2(1) of Joint Action 98/733/JHA of the Council <sup>(3)</sup>;
- (d) cases of money laundering as defined in Article 1 of Council Directive 91/308/EEC <sup>(4)</sup>.

#### Article 134

##### Evidence

(Article 96 of the Financial Regulation)

1. The contracting authority shall accept, as satisfactory evidence that the candidate or tenderer is not in one of the situations described in point (a), (b) or (e) of Article 93(1) of the Financial Regulation, production of a recent extract from the judicial record or, failing that, a recent equivalent document issued by a judicial or administrative authority in the country of origin or provenance showing that those requirements are satisfied.

2. The contracting authority shall accept, as satisfactory evidence that the candidate or tenderer is not in the situation described in point (d) of Article 93(1) of the Financial Regulation, a recent certificate issued by the competent authority of the State concerned.

Where no such certificate is issued in the country concerned, it may be replaced by a sworn or, failing that, a solemn statement made by the interested party before a judicial or administrative authority, a notary or a qualified professional body in his country of origin or provenance.

<sup>(1)</sup> OJ C 316, 27.11.1995, p. 48.

<sup>(2)</sup> OJ C 195, 25.6.1997, p. 1.

<sup>(3)</sup> OJ L 315, 29.12.1998, p. 1.

<sup>(4)</sup> OJ L 166, 28.6.1991, p. 77.

3. Depending on the national legislation of the country in which the tenderer or candidate is established, the documents referred to in paragraphs 1 and 2 shall relate to legal persons and/or natural persons including, where considered necessary by the contracting authority, company directors or any person with powers of representation, decision-making or control in relation to the candidate or tenderer.

#### Article 135

##### Selection criteria

(Article 97(1) of the Financial Regulation)

1. The contracting authorities shall draw up clear and non-discriminatory selection criteria.

2. The following selection criteria shall apply in every procurement procedure:

- (a) the eligibility of the tenderer or candidate to take part in the procedure, checks having been carried out on the possible grounds for exclusion referred to in Articles 93 and 94 of the Financial Regulation;
- (b) criteria for assessing his financial, economic, technical and professional capacity.

The contracting authority may lay down minimum capacity levels below which it cannot select candidates.

3. Any tenderer or candidate may be asked to prove that he is authorised to perform the contract under national law, as evidenced by inclusion in a trade or professional register, or a sworn declaration or certificate, membership of a specific organisation, express authorisation, or entry in the VAT register.

4. The contracting authorities shall specify in the contract notice or in the call for expressions of interest or the invitation to submit a tender, the references chosen to test the status and the legal capacity of tenderers or candidates.

5. The information requested by the contracting authority as proof of the financial, economic, technical and professional capacity of the candidate or tenderer may not go beyond the subject of the contract and shall take account of the legitimate interests of the economic operators as regards in particular the protection of the firm's technical and business secrets.

#### Article 136

##### Economic and financial capacity

(Article 97(1) of the Financial Regulation)

1. Proof of economic and financial capacity may be furnished by one or more of the following documents:

- (a) appropriate statements from banks or evidence of professional risk indemnity insurance;

- (b) the presentation of balance sheets or extracts from balance sheets for at least the last two years for which accounts have been closed, where publication of the balance sheet is required under the company law of the country in which the economic operator is established;
- (c) a statement of overall turnover and turnover concerning the works, supplies or services covered by the contract during a period which may be no more than the last three financial years.

2. If, for some exceptional reason which the contracting authority considers justified, the tenderer or candidate is unable to provide the references requested by the contracting authority, he may prove his economic and financial capacity by any other means which the contracting authority considers appropriate.

3. An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal.

#### Article 137

### Technical and professional capacity

(Article 97(1) of the Financial Regulation)

1. Technical and professional capacity of economic operators shall be evaluated and verified in accordance with paragraphs 2 and 3. In procurement procedures for supplies requiring siting or installation operations, services and/or works, such capacity shall be assessed with regard in particular to their know-how, efficiency, experience and reliability.

2. Evidence of the technical and professional capacity of economic operators may, depending on the nature, quantity or scale and purpose of the supplies, services or works to be provided, be furnished on the basis of the following documents:

- (a) the educational and professional qualifications of the service provider or contractor and/or those of the firm's managerial staff and, in particular, those of the person or persons responsible for providing the services or carrying out the works;
- (b) a list:
- (i) of the principal services provided and supplies delivered in the past three years, with the sums, dates and recipients, public or private;
- (ii) of the works carried out in the last five years, with the sums, dates and place. The list of the most important works shall be accompanied by certificates of satisfactory execution, specifying whether they have been carried out in a professional manner and have been fully completed;

- (c) a description of the technical equipment, tools and plant to be employed by the firm for performing a service or works contract;
- (d) a description of the measures employed to ensure the quality of supplies and services, and a description of the firm's study and research facilities;
- (e) an indication of the technicians or technical bodies involved, whether or not belonging directly to the firm, especially those responsible for quality control;
- (f) in respect of supplies: samples, descriptions and/or authentic photographs and/or certificates drawn up by official quality control institutes or agencies of recognised competence attesting the conformity of the products with the specifications or standards in force;
- (g) a statement of the average annual manpower and the number of managerial staff of the service provider or contractor in the last three years;
- (h) an indication of the proportion of the contract which the service provider may intend to subcontract.

Where the services or supplies referred to in point (b)(i) of the first subparagraph are provided to contracting authorities, evidence of performance shall be in the form of certificates issued or countersigned by the competent authority.

3. Where the services or products to be supplied are complex or, exceptionally, are required for a special purpose, evidence of technical and professional capacity may be secured by means of a check carried out by the contracting authority or on its behalf by a competent official body of the country in which the service provider or supplier is established, subject to that body's agreement. Such checks shall concern the supplier's technical capacity and production capacity and, if necessary, its study and research facilities and quality control measures.

4. An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal.

#### Article 138

### Award arrangements and criteria

(Article 97(2) of the Financial Regulation)

1. Contracts shall be awarded in one of the following two ways:
- (a) under the automatic award procedure, in which case the contract is awarded to the tender which, while being in order and satisfying the conditions laid down, quotes the lowest price;
- (b) under the best-value-for-money procedure.

2. The tender offering the best value for money shall be the one with the best price-quality ratio, taking into account criteria justified by the subject of the contract such as the price quoted, technical merit, aesthetic and functional characteristics, environmental characteristics, running costs, profitability completion or delivery times, after-sales service and technical assistance.

3. The contracting authority shall specify, in the contract notice or in the specifications, the weighting it will apply to each of the criteria for determining best value for money.

The weighting applied to price in relation to the other criteria must not result in the neutralisation of price in the choice of contractor.

If, in exceptional cases, weighting is technically impossible, particularly on account of the subject of the contract, the contracting authority shall merely specify the decreasing order of importance in which the criteria are to be applied.

#### Article 139

### Abnormally low tenders

(Article 97(2) of the Financial Regulation)

1. If, for a given contract, tenders appear to be abnormally low, the contracting authority shall, before rejecting such tenders on that ground alone, request in writing details of the constituent elements of the tender which it considers relevant and shall verify those constituent elements, after due hearing of the parties, taking account of the explanations received.

The contracting authority may, in particular, take into consideration explanations relating to:

- (a) the economics of the manufacturing process, of the provision of services or of the construction method;
- (b) the technical solutions chosen or the exceptionally favourable conditions available to the tenderer;
- (c) the originality of the tender.

2. Where the contracting authority establishes that a tender is abnormally low as a result of State aid provided, it may reject the tender on that ground alone only if the tenderer is unable to prove, within a reasonable time determined by the contracting authority, that the aid in question has been awarded definitively and in accordance with the procedures and decisions specified in the Community rules on State aid.

#### Article 140

### Time limits for receipt of tenders and requests to participate

(Article 98(1) of the Financial Regulation)

1. The time limits for the receipt of tenders and requests to participate, laid down in calendar days by the contracting authorities, shall be long enough to allow interested parties a

reasonable and appropriate period to prepare and submit their tenders, taking particular account of the complexity of the contract or the need to visit the site or consult on the spot the documents annexed to the specifications.

2. In open procedures, the time limit for receipt of tenders shall be no less than fifty-two days from the date on which the contract notice is dispatched.

3. In restricted and negotiated procedures where a contract notice is published, the time limit for receipt of requests to participate shall be no less than thirty-seven days from the date on which the contract notice is dispatched.

In restricted procedures for contracts above the thresholds set in Article 158, the time limit for receipt of tenders shall be no less than forty days from the date on which the invitation to tender is dispatched.

In the restricted procedures referred to in Article 128, the time-limit for receipt of tenders shall be no less than twenty-one days from the date on which the invitation to tender is dispatched.

4. Where the contracting authorities, in accordance with Article 118, have sent for publication a pre-information notice containing all the information required in the contract notice no less than fifty-two days and no more than twelve months before the date on which the contract notice is dispatched, the time-limit for the receipt of tenders may generally be reduced to thirty-six days but shall in no circumstances be less than twenty-two days from the date of dispatch of the contract notice, in the case of open procedures, or may be reduced to twenty-six days from the date of dispatch of the invitation to submit a tender, in the case of restricted procedures.

#### Article 141

### Time allowed for access to invitation to tender documents

(Article 98(1) of the Financial Regulation)

1. Provided that the request was made in good time before the deadline for submission of tenders, the specifications and additional documents shall be sent, within six calendar days of the receipt of the request, to all economic operators who have requested the specifications or expressed interest in submitting a tender.

2. Provided it has been requested in good time, additional information relating to the specifications shall be supplied simultaneously to all economic operators who have requested the specifications or expressed interest in submitting a tender no later than six days before the deadline for the receipt of tenders or, in the case of requests for information received less than eight calendar days before the deadline for receipt of tenders, as soon as possible after receipt of the request.

3. If, for whatever reason, the specifications and the additional documents or information cannot be supplied within the time-limits set in paragraphs 1 and 2, or where tenders can be made only after a visit to the site or after on-the-spot consultation of the documents annexed to the specifications, the time-limits for receipt of tenders referred to in Article 140 shall be extended to enable all economic operators to acquaint themselves with all the requisite information for preparing tenders, subject to the provisions of Article 240. That extension shall be advertised in appropriate manner, in accordance with the arrangements set out in Articles 118 to 121.

4. If all the invitation to tender documents are freely, fully and directly accessible by electronic means, the contract notice referred to in Article 118(3) shall give the Internet address at which those documents can be consulted.

In such cases any additional documents and information shall also be made freely, fully and directly accessible as soon as they are supplied to all the economic operators who have requested the specifications or expressed interest in submitting a tender.

#### Article 142

##### Time limits in urgent cases

(Article 98(1) of the Financial Regulation)

1. Where duly substantiated urgency renders impracticable the time-limits laid down in Article 140(3), contracting authorities may set the following time limits, expressed in calendar days:

- (a) a time limit for the receipt of requests to participate which may not be less than fifteen days from the date on which the contract notice was dispatched;
- (b) a time limit for the receipt of tenders which may not be less than ten days from the date of the invitation to tender.

2. Provided it has been requested in good time, additional information on the specifications shall be communicated to all candidates no later than four calendar days before the deadline for receipt of tenders.

#### Article 143

##### Methods of communication

(Article 98(1) of the Financial Regulation)

1. Requests to participate shall be submitted by letter, fax or electronic mail; requests submitted by fax or electronic mail shall be confirmed by letter before expiry of the time-limits set in Articles 140 and 251.

2. Tenderers may submit tenders:

- (a) by post, for which purposes the invitation to tender documents shall specify that the relevant date is to be the date of despatch by registered post, as evidenced by the post-mark; or

- (b) by hand-delivery to the premises of the institution by the tenderer in person or by an agent, including courier service; for which purposes the invitation to tender documents shall specify, in addition to the information referred to in point (a) of Article 130(2), the department to which tenders are to be delivered against a signed and dated receipt.

3. In order to maintain secrecy and to avoid any difficulties where tenders are sent by letter, the invitation to tender must include the following provision:

'Tenders must be submitted in a sealed envelope itself enclosed within a second sealed envelope. The inner envelope must bear, in addition to the name of the department to which it is addressed, as indicated in the invitation to tender, the words Invitation to tender — Not to be opened by the mail service. If self-adhesive envelopes are used, they must be sealed with adhesive tape and the sender must sign across that tape.'

#### Article 144

##### Tender guarantees

(Article 98(2) of the Financial Regulation)

The contracting authority may require a tender guarantee, lodged in accordance with Article 150, representing 1 % to 2 % of the total value of the contract.

A tender guarantee shall be released when the contract is awarded. If no tender is submitted by the deadline set or if the tender is subsequently withdrawn, the guarantee shall be retained.

#### Article 145

##### Opening of tenders and requests to participate

(Article 98(3) of the Financial Regulation)

1. All requests to participate and tenders that satisfy the requirements of Article 143(1) and (2) shall be opened.

2. Where the value of a contract exceeds the threshold laid down in Article 129(2), the authorising officer responsible shall appoint a committee to open the tenders.

The committee shall be made up of at least three persons representing at least two organisational entities of the institution concerned with no hierarchical link between them. To avoid any conflict of interests, those persons shall be subject to the obligations laid down in Article 52 of the Financial Regulation.

In the representations and local units referred to in Article 252, if there are no separate entities, the requirement of organisational entities with no hierarchical link between them shall not apply.

3. One or more members of the opening committee shall initial the documents proving the date and time of despatch of each tender.

They shall also initial:

- (a) either each page of each tender; or
- (b) the cover page and the pages containing the financial details of each tender, the integrity of the initial tender being guaranteed by any appropriate technique employed by a department that is independent of the authorising department, save in the cases referred to in the third subparagraph of paragraph 2.

Where the contract is awarded under the automatic award procedure in accordance with point (a) of Article 138(1), the prices quoted in tenders satisfying the requirements shall be made public.

The members of the committee shall sign the written record of the opening of the tenders received, which shall identify those tenders which satisfy the requirements and those which do not, and which shall give the grounds on which tenders were rejected for non-compliance, by reference to the methods of submitting tenders referred to in Article 143.

#### Article 146

#### **Committee for the evaluation of tenders and requests to participate**

(Article 98(4) of the Financial Regulation)

1. All requests to participate and tenders declared as satisfying the requirements shall be evaluated and ranked by an evaluation committee on the basis of the exclusion, selection and award criteria announced in advance.

That committee shall be appointed by the authorising officer responsible to give an advisory opinion for contracts with a value above the threshold referred to in Article 129(2).

2. The evaluation committee shall be made up of at least three persons representing at least two organisational entities of the institution concerned with no hierarchical link between them. To avoid any conflict of interests, those persons shall be subject to the obligations laid down in Article 52 of the Financial Regulation.

In the representations and local units referred to in Article 254, if there are no separate entities, the requirement of organisational entities with no hierarchical link between them shall not apply.

The evaluation committee may be composed of the same members as the committee opening the tenders.

3. Requests to participate and tenders which do not satisfy all the essential requirements set out in the supporting documentation for invitations to tender or the specific requirements laid down therein shall be eliminated.

However, the evaluation committee may ask candidates or tenderers to supply additional material or to clarify the supporting documents submitted in connection with the exclusion and selection criteria, within a specified time-limit.

4. In the case of abnormally low tenders as referred to in Article 139 of this Regulation, the evaluation committee shall request any relevant information concerning the composition of the tender.

#### Article 147

#### **Results of the evaluation**

(Articles 99 and 100 of the Financial Regulation)

1. A written record of the evaluation and ranking of requests to participate and tenders declared to satisfy the requirements shall be drawn up and dated. It shall be signed by all the members of the evaluation committee. It shall be kept for future reference.

2. That written record shall contain at least the following:

- (a) the name and address of the contracting authority, and the subject and value of the contract or of the framework contract;
- (b) the names of the candidates or tenderers rejected and the reasons for their rejection;
- (c) the names of the candidates or tenderers to be examined and the reasons for their selection;
- (d) the reasons for the rejection of tenders found to be abnormally low;
- (e) the names of the candidates or contractor proposed and the reasons for that choice and, if known, the proportion of the contract or the framework contract which the contractor intends to subcontract to third parties.

3. The contracting authority shall then take its decision giving at least the following:

- (a) the name and address of the contracting authority, and the subject and value of the contract or of the framework contract;
- (b) the names of the candidates or tenderers rejected and the reasons for their rejection;
- (c) the names of the candidates or tenderers to be examined and the reasons for their selection;
- (d) the reasons for the rejection of tenders found to be abnormally low;
- (e) the names of the candidates or contractor selected and the reasons for that choice by reference to the selection and award criteria announced in advance and, if known, the proportion of the contract or the framework contract which the contractor intends to subcontract to third parties;
- (f) in the case of negotiated procedures, the circumstances referred to in Articles 126, 127, 242, 244, 246 and 247 which justify their use;
- (g) where appropriate, the reasons why the contracting authority has decided not to award a contract.

#### Article 148

#### **Contacts between contracting authorities and tenderers**

(Article 99 of the Financial Regulation)

1. Contact between the contracting authority and tenderers during the contract award procedure may take place, by way of exception, under the conditions set out in paragraphs 2 and 3.

2. Before the closing date for the submission of tenders, in respect of the additional documents and information referred to in Article 141, the contracting authority may:

#### *Article 178*

### **Evaluation of applications and award**

(Article 116 of the Financial Regulation)

1. The authorising officer responsible shall appoint a committee to evaluate the proposals, save in the case of a Commission decision on a specific sectoral programme.

The committee shall be made up of at least three persons representing at least two organisational entities of the Commission with no hierarchical link between them. In the representations and local units referred to in Article 254 and the delegated bodies referred to in Article 160(1), if there are no separate entities, the requirement of organisational entities with no hierarchical link between them shall not apply.

Outside experts may assist the committee by decision of the authorising officer responsible.

#### CHAPTER 4

### Payment and control

#### Article 180

### Supporting documents for requests for payments

(Article 117 of the Financial Regulation)

1. For each grant, where pre-financing is split, each new payment shall be subject to consumption of at least 70 % of the total amount of any earlier pre-financing. The statement of the beneficiary's outlay shall be produced in support of any request for a new payment.

2. An external audit of the accounts produced by an approved auditor may be demanded by the authorising officer responsible in support of any payment on the basis of his analysis of management risks. In the case of a grant for an action or of an operating grant, the audit report shall be attached to the request for payment. Its purpose is to certify that the submitted accounts are sincere, reliable and substantiated by adequate supporting documents.

An external audit shall be compulsory:

- (a) in the case of grants for an action, in respect of the following payments:
  - (i) pre-financing or interim payments the sum of which exceeds EUR 750 000 per financial year and per agreement;
  - (ii) payments, of balances, which exceed EUR 150 000;
- (b) in the case of operating grants, in respect of payments which exceed EUR 75 000 per financial year.

However, in the cases referred to in points (a) and (b), an audit shall not be necessary in respect of the first pre-financing payment.

Depending on his analysis of management risks, the authorising officer responsible may waive the audit obligation in the case of:

- (a) public bodies and the international organisations referred to in Article 43;
- (b) the beneficiaries of grants in connection with humanitarian aid and the management of crisis situations, save in respect of payments of balances.

In the case of an agreement linking the Commission and a number of beneficiaries, the thresholds referred to in points (a) and (b) of the second subparagraph shall apply to each beneficiary.

#### Article 181

### Flat-rate financing

(Article 117 of the Financial Regulation)

1. In addition to cases of scholarships and prizes, the basic act may authorise flat-rate financing for contributions of less than EUR 5 000 or the use of scales of unit costs.

In order to ensure compliance with the principles of co-financing, no-profit and sound financial management, those flat-rate amounts and scales shall be reviewed at least every two years by the authorising officer responsible. The amounts shall be approved by the Commission.

2. The grant agreement may authorise flat-rate cover:
- (a) of the beneficiary's overheads up to a maximum of 7 % of total eligible costs for the action, save where the beneficiary is in receipt of an operating grant financed from the Community budget;
  - (b) of certain mission expenses on the basis of a per diem scale approved annually by the Commission.

The ceiling provided for in point (a) of the first subparagraph may be exceeded by reasoned decision of the Commission.

#### Article 182

### Advance guarantee

(Article 118 of the Financial Regulation)

1. The authorising officer responsible may require the beneficiary to lodge a guarantee in advance in order to limit the financial risks connected with the payment of pre-financing.
2. Where pre-financing represents over 80 % of the total amount of the grant, payment may not be made until after the beneficiary has lodged a guarantee subject to the assessment and acceptance of the authorising officer responsible.

For NGOs operating in the field of external action, that guarantee shall be demanded in respect of pre-financing exceeding EUR 1 000 000 or representing over 90 % of the total amount of the grant.

The guarantee shall be valid for a period sufficiently long to allow it to be activated.

3. The guarantee shall be provided by an approved bank or financial institution established in one of the Member States.

The guarantee may be replaced by a joint and several guarantee by a third party or by the joint guarantee of the beneficiaries of an action who are parties to the same grant agreement.

The guarantee shall be denominated in euro.

It shall have the effect of making the bank or financial institution, third party or the other beneficiaries stand as irrevocable collateral security, or first-call guarantor of the grant beneficiary's obligations.

## Article 241

**Thresholds and procedures for awarding service contracts**

(Article 167 of the Financial Regulation)

1. The thresholds and procedures referred to in Article 167 of the Financial Regulation shall be as follows for service contracts:

- (a) for contracts with a value of EUR 200 000 or more: an international restricted invitation to tender within the meaning of point (b) of Article 122(2) and point (a) of Article 240(2);
- (b) for contracts with a value of less than EUR 200 000: competitive negotiated procedure within the meaning of paragraph 3, provided that the use of an existing framework contract is impossible or has been unsuccessful.

Contracts with a value of less than EUR 5 000 may be awarded on the basis of a single tender.

2. In the international restricted procedure referred to in point (a) of paragraph 1, the contract notice shall state the number of candidates who will be invited to submit tenders. For service contracts the number of tenderers shall be within a range of four to eight. The number of candidates allowed to submit tenders must be sufficient to ensure genuine competition.

The list of selected candidates shall be published on the Commission's Internet site.

3. Under the negotiated procedure referred to in point (b) of paragraph 1, the contracting authority shall draw up a list of at least three suppliers of its choice. The procedure involves limited competitive tendering, without publication of a notice and shall be known as a competitive negotiated procedure not covered by Article 124.

Tenders shall be opened and evaluated by a selection board with the necessary technical and administrative expertise. The members of the selection board must sign a declaration of impartiality.

If the contracting authority does not receive at least three valid tenders, the procedure must be cancelled and started again.

4. The bids shall be sent in a package or outer envelope containing two separate sealed envelopes, one bearing the words Envelope A — Technical bid and the other the words Envelope B — Financial bid. The outer envelope shall bear:

- (a) the address indicated in the tender documents for the submission of tenders;
- (b) the reference to the call for tenders to which the tenderer is responding;
- (c) where appropriate, the numbers of the lots for which a tender is being submitted;

- (d) the phrase 'Not to be opened before the tender-opening session', in the language of the tender documents.

If interviews were envisaged in the tender documents, the selection board may interview the principal members of the team of experts proposed in the technically acceptable bids, after establishing its written provisional conclusions and before definitively concluding the evaluation of the technical bids. In such cases the experts shall be interviewed by the selection board, preferably collectively if they form a team, and at intervals close enough to allow comparisons to be made. Interviews shall be conducted in accordance with a standard model agreed in advance by the selection board and applied to all the experts or teams called for interview. The date and time of the interview must be communicated to the tenderers at least ten calendar days in advance. In cases of *force majeure*, preventing the tenderer from attending the interview, a new date and time must be sent to the tenderer.

5. The contract award criteria shall serve to identify the tender offering best value for money.

The tender offering best value for money shall be selected using an 80/20 weighting distribution between technical quality and price. For that purpose:

- (a) the score awarded to the technical bids shall be multiplied by 0,80;
- (b) the score awarded to the price bids shall be multiplied by 0,20.

## Article 242

**Use of the negotiated procedure for service contracts**

(Article 167 of the Financial Regulation)

- (a) where, for reasons of extreme urgency brought about by events which the contracting authorities could not have foreseen and which can in no way be attributed to them, the time limit for the procedures referred to in points (a), (b) and (c) of Article 91(1) of the Financial Regulation cannot be kept;
- (b) where the services are entrusted to public-sector bodies or to non-profit institutions or associations and relate to activities of an institutional nature or designed to provide assistance to peoples in the social field;
- (c) for services which are an extension of services already started, subject to the conditions laid down in paragraph 2;

- (d) where the tender procedure has been unsuccessful, that is to say, where no qualitatively and/or financially worthwhile tender has been received, in which case, after cancelling the tender procedure, the contracting authority may negotiate with one or more tenderers of its choice, from among those that took part in the invitation to tender, provided that the original terms of the contract are not substantially altered;
- (e) where the contract concerned follows a contest and must, under the rules applying, be awarded to the successful candidate or to one of the successful candidates, in which case, all successful candidates shall be invited to participate in the negotiations;
- (f) where, for technical reasons, or for reasons connected with the protection of exclusive rights, the contract can be awarded only to a particular service provider.

For the purposes of point (a) of the first subparagraph, operations carried out in crisis situations as referred to in Article 168(2) shall be considered to satisfy the test of extreme urgency. The authorising officer by delegation, where appropriate in concertation with the other authorising officers by delegation concerned, shall establish that a situation of extreme urgency exists and shall review his decision regularly with regard to the principle of sound financial management.

2. Services which are an extension of services already started, as referred to in point (c) of paragraph 1, are as follows:

- (a) additional services not covered by the principal contract but which, as a result of unforeseen circumstances, have become necessary for the performance of the contract, provided that the additional service cannot be technically and economically separated from the principal contract without serious inconvenience for the contracting authority and the aggregate amount of additional services does not exceed 50 % of the value of the principal contract;
- (b) additional services consisting in the repetition of similar services entrusted to the contractor providing services under a first contract, provided that a contract notice was published for the supply of the first service and the possibility of using the negotiated procedure for new services for the project and the estimated cost were clearly indicated in the contract notice published for the first service.

A single extension of the contract shall be possible for a value and duration equal to no more than the value and the duration of the initial contract.

#### Article 243

- (b) for contracts with a value of EUR 30 000 or more but less than EUR 150 000: a local open invitation to tender within the meaning of point (a) of Article 122(2) and point (b) of Article 240(2);
- (c) for contracts with a value of less than EUR 30 000: competitive negotiated procedure within the meaning of paragraph 2.

Contracts with a value of less than EUR 5 000 may be awarded on the basis of a single tender.

The procedure involves limited competitive tendering, without publication of a notice, and shall be known as a competitive negotiated procedure not covered by Article 124.

Tenders shall be opened and evaluated by a selection board with the necessary technical and administrative expertise. The members of the selection board must sign a declaration of impartiality.

- (c) where appropriate, the numbers of the lots for which a tender is being submitted;
- (d) the phrase 'Not to be opened before the tender-opening session', in the language of the tender documents.

At the place and time set in the tender documents, the tenders shall be opened in public by the evaluation committee. At the public tender-opening session, the names of the tenderers, the prices quoted, the provision of the necessary tender guarantee and any other formality which the contracting authority considers appropriate must be announced.

4. In the case of a supply contract not involving after-sales service, the sole award criterion shall be price.

Where proposals for after-sales service or for training are particularly significant, the tender offering best value for money shall be chosen, with due account for the technical quality of the service offered and the price quoted.

## Article 244

(Article 167 of the Financial Regulation)

1. Supply contracts may be awarded by negotiated procedure with a single tender, after the Commission has given its agreement if it is not the contracting authority, in the following cases:

  - (b) where warranted by the nature or particular characteristics of the supplies, for example, where performance of the contract is exclusively reserved for the holders of patents or licences to use patents;
  - (c) for additional deliveries by the original supplier intended either as a partial replacement of normal supplies or installations or as the extension of existing supplies or installations, where a change of supplier would oblige the contracting authority to acquire equipment having different technical characteristics which would result in either incompatibility or disproportionate technical difficulties in operation and maintenance;
  - (d) where the tender procedure has been unsuccessful, that is where no qualitatively and/or financially worthwhile tender has been received. In such cases, after cancelling the tender procedure, the contracting authority may negotiate with one or more tenderers of its choice, from among those that took part in the invitation to tender, provided that the original terms of the contract are not substantially altered.
2. For the purposes of point (a) of paragraph 1, operations carried out in crisis situations as referred to in Article 168(2) shall be considered to satisfy the test of extreme urgency. Tenders shall be opened and evaluated by a selection board with the necessary technical and administrative expertise. The members of the selection board must sign a declaration of impartiality.

If the contracting authority does not receive at least three valid tenders, the procedure must be cancelled and started again.

3. The selection criteria shall cover the capacity of the tenderer to carry out similar contracts, in particular by reference to works carried out in recent years. With selection being made in this way and since inadmissible tenders have already been eliminated, the only award criterion shall be the price.

4. Each technical and financial bid must be placed in a single sealed envelope, itself placed in a package or outer envelope. The inner envelope shall bear:
