

SCIENTIFIC COMMITTEE ON CONSUMER SAFETY (SCCS)

Request for a scientific opinion: Submission I on hair dye HC Yellow 16 (Colipa No B123) (T44P2) CAS No. 1184721-10-5.

1. Background

Submission I on hair dye HC Yellow 16 (B123) (T44P2) CAS No. 1184721-10-5 with the chemical name 2-chloro-4-[(1E)-(1-methyl-1H-pyrazol-5-yl)diazenyl]-phenol was transmitted by Cosmetics Europe in October 2014.

The new ingredient HC Yellow 16 (B123) is a non-reactive dye that will be used as a direct hair colouring agent up to 1.5 % in non-oxidative as well as up to on-head concentration of 1% in oxidative hair dye formulations.

2. Terms of reference

- (1) *In light of the data provided, does the SCCS consider HC Yellow 16 (B123) safe when used as a direct hair colouring agent up to 1.5 % in non-oxidative as well as up to on-head concentration of 1% in oxidative hair dye formulations?*
- (2) *Does the SCCS have any further scientific concerns with regard to the use of HC Yellow 16 (B123) in cosmetic products?*

3. Deadline:
