imergo®: some views on WCAG 2.0 implementation

EC Expert Meeting
23 March 2009

Dr. Carlos A Velasco

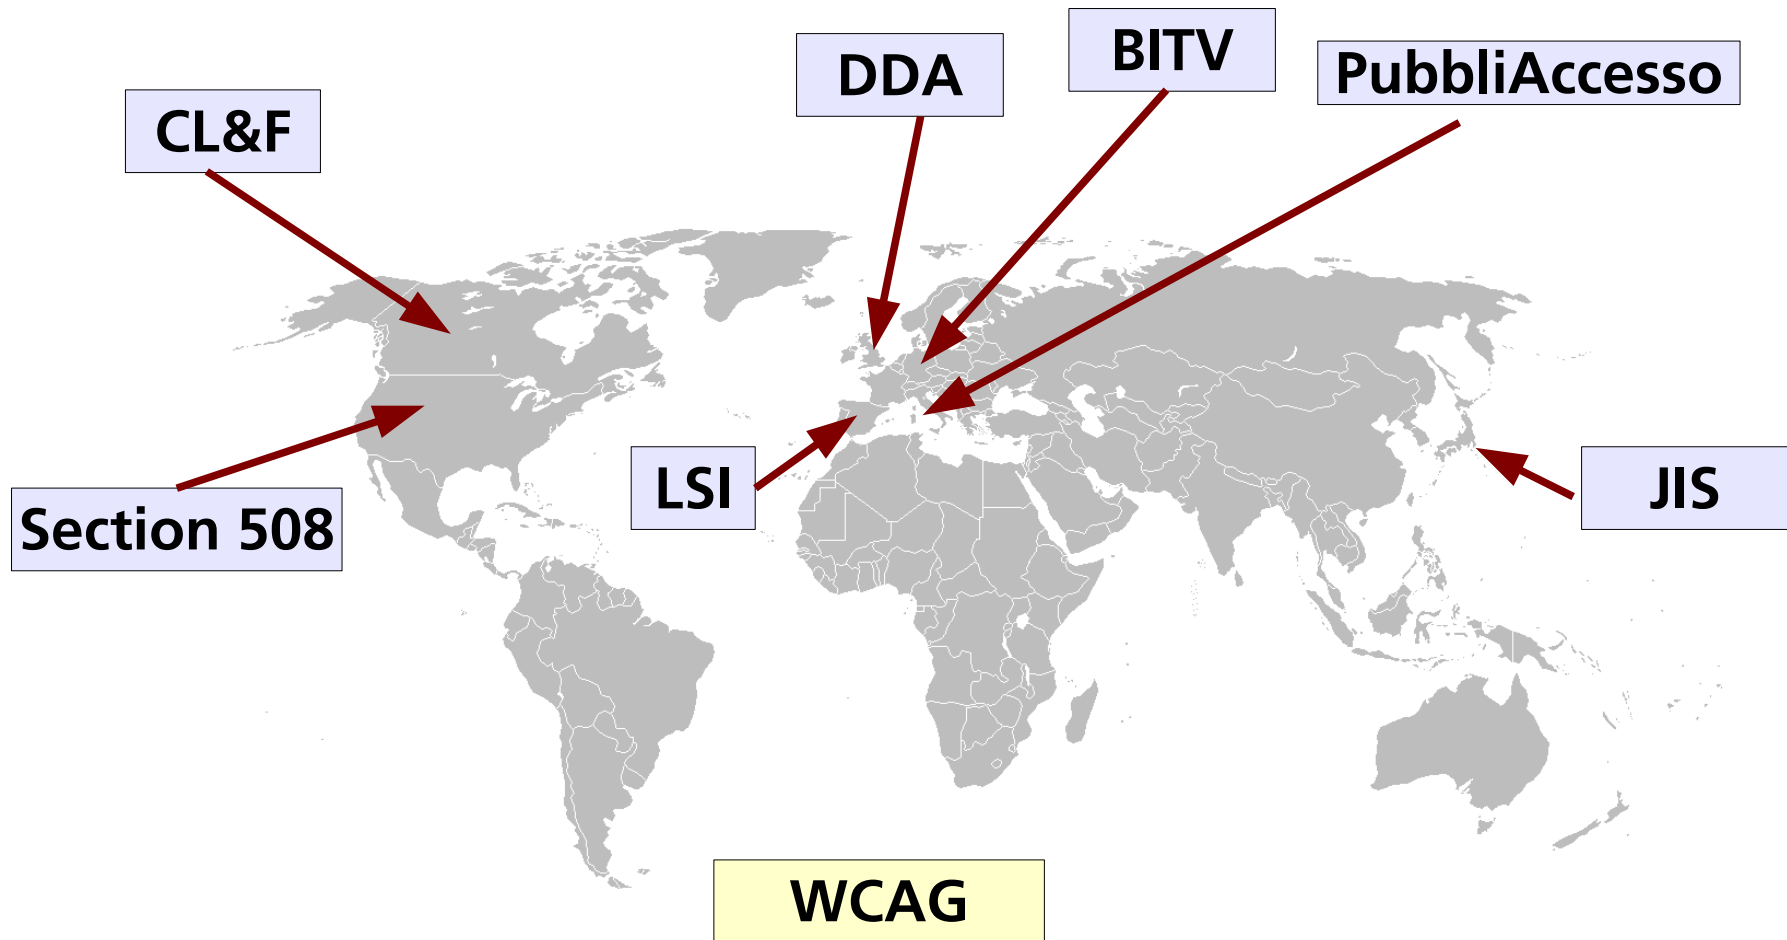

Web Compliance Center

- Fraunhofer Institute for Applied Information Technology FIT
 - Research Area “Life Science Informatics”
- Interdisciplinary team:
 - Computer science
 - Engineering
 - Pedagogics
 - Linguistics

Workareas

- Web Compliance (accessibility/usability) research: Internet services/applications
- Participation to international standards & recommendation bodies (W3C)
- Development and commercialization of software tools
- Consultancy & training: industry/public sector
- Biofeedback/therapeutical intervention systems

Accessibility compliance

Industry/eGovernment views

- Harmonisation
 - Where are the national initiatives leading to?
 - Are we having multiple legislations again?
- Deprecation from WCAG 1.0
 - Web 2.0/RIAs
 - Mobile Web
 - Enterprise 2.0

imergo® implementation experience

- Still missing techniques
- Extension effort needed to different document formats
- WAI-ARIA badly needed
- Real tool benchmarking demanded
