# FIRE Offering

Future Internet PPP

Info Day 12.3.2010

Anri Kivimäki

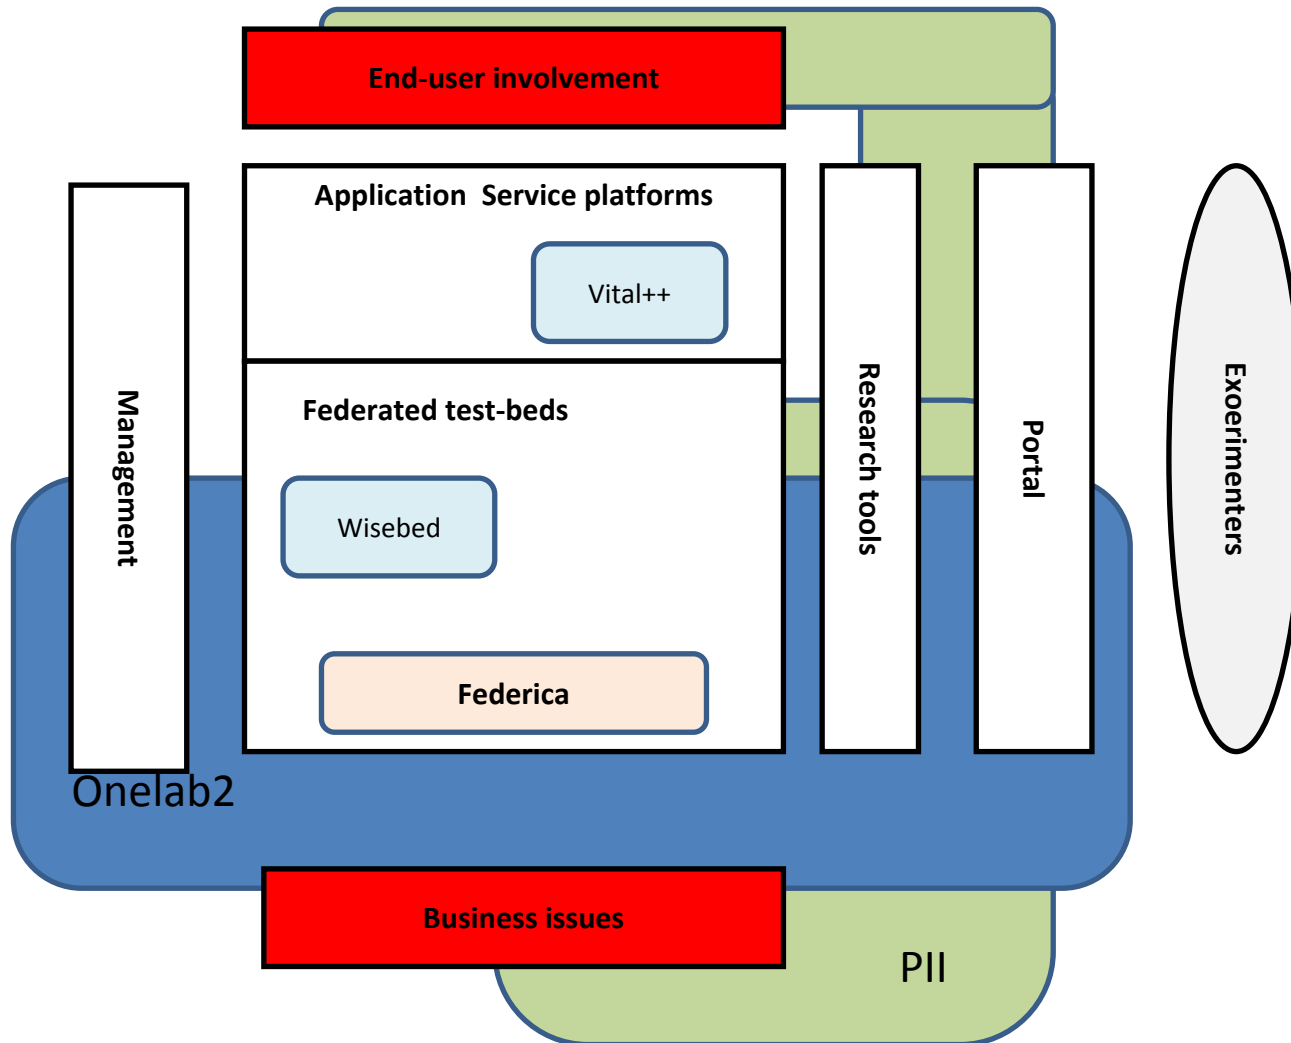

# Evolving experimental facilities

- Wide range of facilities and tools open for FI experimenters [www.ict-fireworks.eu/about-us/fire-offerings.html](http://www.ict-fireworks.eu/about-us/fire-offerings.html)
  - In the large scale
  - Globally connected
  - Ranging from L2-L3 to usability tests...
- First FIRE testbeds in their prototype phase
  - FIRE video [www.ict-fireworks.eu](http://www.ict-fireworks.eu)
  - Testbed repository [www.ict-fireworks.eu/repository.html](http://www.ict-fireworks.eu/repository.html)

FIREWORKS

# FIRE Architecture

# Evolving experimental facilities

- Second wave of projects kicking off
  - Expanding the scope of the facility towards
    - high level service architectures and cloud technologies
    - sensor technologies in a smart city context
    - additional functionality on networking level
  - Projects are currently under negotiation envisaged to start around summer
    - BonFIRE, CREW, Ofelia, SmartSantander, Tefis
    - to be coordinated by FIREStation

FIREWORKS

# FIRE in FIA Valencia

16 April 2010, at 9-11

## FIRE portfolio analysis and new plans

- White paper on experimentally-driven research
- FIRE results and relations
- New FIRE landscape
- Preliminary FIRE 2.0 plans

Welcome!

FIREWORKS

# FIREweek 2010

28 June – 2 July, 2010

Barcelona

hosted by Unversitat Pompeu Fabra

supported by Spanish EU Presidency

- Main seminar on June 30 at Poblenou campus on FIRE research
- Worskshops, demonstrations, review meetings, kick-off meetings, etc.

Welcome!
