Interdisciplinary Research Approach: from demand to technology to deployment

- iLab.o :
 - User selection and management
 - Methodology for usage logging and monitoring
 - Application co-design
 - Strategy & policy tools
 - Gateway to European Network of Living Labs

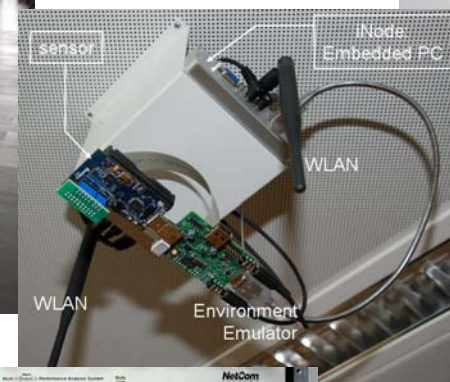

iLab.t facilities

General Lab infrastructure (500 m²)

Media lab

Virtual Wall

Wireless lab (sensor, mesh, cognitive, mobile)

Experience

- Experience with industry (operators, hardware and software vendors, utility companies, ...)
 - EC: 15 running FP7 projects; 10 projects under negotiation (Call 5)
 - National: > 40 running projects with industry (>100 companies)

- *Example of Key Enabler: Empowering mobile users*
 - *Mobile terminals unable to run state-of-the-art (multimedia) applications (e.g. Virtual Reality)*
 - *The development nightmare:*
for which terminal to develop ?
 - *Solution: outsource resource-hungry components to carrier-grade cloud infrastructure*
