

# eHealth Innovation: eHealth Innovation - Scaling up eHealth facilitated personalised health services: Developing a European roadmap for sustained eHealth Innovation

eHealth Innovation TN will develop consensus among stakeholders and produce a roadmap towards making integrated, and therefore interoperable eHealth services operational and de-ployed at large scale in Europe. The focus will be to analyse, achieve consensus on and deliver a detailed roadmap on how to achieve in the medium-term more patient/person-centred health services for an ageing population, supported and facilitated by enabling innovative eHealth solutions and services - in particular electronic patient records, personal health records and personal health systems aimed at supporting patients in managing their health. The resulting requirements for a supportive infrastructure and for further innovation measures are further objectives. 4 thematic areas are addressed (subject to revision after year 1, under guidance by the European Commission): 1) Chronic disease management for an ageing population: identification of good practice and innovative solutions (M1-13) 2) Personalised health services and patient-centred healthcare for an ageing population: Cooperation between patient and health professionals (M14-M18) 3) Patient empowerment systems and solutions for an ageing population: Support for patients in managing their health (M19-M23) 4) EU-wide eHealth infrastructure: Creation of an infrastructure facilitating patient care, public health, health education, (self-)health management (M24-M27) The results will be integrated into a validated Roadmap (M1-M30). Metrics: 5 workshops will be organised around WPs 1-5, with at least 15 to 20 experts attending each, producing validated reports and recommendations on their respective topics. The network involves 22 partners: 20 from 10 Member States and 2 from Switzerland representing a broad range of stakeholders.

## Project ID card

- Funded under: [The Information and Communication Technologies Policy Support Programme](#)
- Area: CIP-ICT-PSP.2010.3.2.A - Scaling up of eHealth services
- Total cost: €0.50m
- EU contribution: €0.50m
- Project reference: 270986
- Execution: From 01/05/2011 to 31/10/2013
- Project status: Closed
- Contract type: The Information and Communication Technologies Policy Support Programme TN Thematic Network
