

BRESAT: Broadband in EU Regions via satellite

Project BRESAT will define guidelines for the successful deployment of high speed broadband via satellite across regions of Europe to assist with the objective of 100% EU broadband coverage. It will support the objectives of the EU Digital Agenda and assist national regional initiatives. Project BRESAT will include following objectives: 1. Leveraging previous experience, it will identify the conditions of success for Satellite broadband deployment in EU regions; 2. Develop recommendations and best practice for the deployment framework of satellite broadband solutions and optimise the cost benefit for key stakeholders; 3. Disseminate information widely to EU regions. 4. Establish an information repository for all EU regions for exploitation during and beyond project life.

Project ID card

- Funded under: [The Information and Communication Technologies Policy Support Programme](#)
- Area: CIP-ICT-PSP.2012.5.3 - Contribution of satellite systems to 100% EU broadband coverage
- Total cost: €0.48m
- EU contribution: €0.48m
- Project reference: 325134
- Execution: From 01/11/2012 to 31/10/2015
- Project status: Running
- Contract type: The Information and Communication Technologies Policy Support Programme TN Thematic Network
