

Safer Internet NL SIC: National Awareness Centre Digivaardig & Digibewust & Hotline Helpline Meldpunt

The Safer Internet Centre in the Netherlands integrates awareness raising, a hotline and a helpline.

This is a combined proposal of the Safer Internet Centre, Hotline and Helpline in the Netherlands. Digivaardig & Digibewust functions as Safer Internet Centre and will continue and improve the work done in the previous years as Awareness Centre. It will combine forces with different national stakeholders and coordinate or initiate national activities in the field of Internet safety, also to bring alignment in national awareness campaigns. Meldpunt Kinderporno operates as Hotline in the Netherlands and deals with complaints regarding illegal content of child abuse images on the Internet and complaints regarding online sexual abuse. Meldpunt is also involved in awareness raising on safe use of the Internet. The Helpline is managed by Meldpunt. Youngsters (or their parents) can report online sexual abuse or get advice by means of a web form and chat. Due to the cooperation with De Kindertelefoon the Helpline will be able, if a child needs urgent help, to get in contact with the crisis service. The Safer Internet Centre, Hotline and Helpline have a joint Advisory Board (also together with EU Kids Online), will organise events together, give cross references to each others websites and activities, and will produce (joint) awareness material. Via monthly work meetings planning, deadlines, activities, responsibilities, and progress will be discussed.

Project ID card

- Funded under: [Safer Internet Programme](#)
- Area: 1.1 + 2.1 + 2.3 - Safer Internet centre with hotline and helpline
- Total cost: €0.90m
- EU contribution: €0.59m
