Question 1			
<i>What measures have been taken (e.g. general procedures published officially, national numbering plan modified, etc)? Please describe.</i>			
<p>On August 29th, 2007 the Rules of Assignment for 116 numbers were published in the Official Gazette of Bundesnetzagentur and on its internet site.</p> <p>After that interested parties were invited to comment on the intended assignment procedure for the number 116 000 (hotline for missing children). As Bundesnetzagentur did not receive any comments, a call for tender was published on October 31st, 2007 in the Official Gazette and the internet site. Interested parties were invited to send their applications until January 7th, 2008. After the expiry of the deadline one institution has indicated that it is interested in an assignment. Therefore, a new call for tender was published on January 30th, 2008 in both the Official Gazette and the internet site. Interested parties were invited to send their applications until April 3rd, 2008.</p>			
Question 2			
<i>Please indicate how and when you have made (will make) known that the number is available. Please give precise references (URL, publication, etc).</i>			
<p>This information was made known after the Rules of Assignment for 116 xyz came into operation on August 29th, 2007 and can be found here: http://www.bundesnetzagentur.de/enid/3399b642ef8d322014e1674acfc7d9f5,0/ssss6xyz/Liste der zur Verfuegung stehenden Nummern fuer HDSW 3y5.html</p>

Question 4			
<i>When has the procedure been (will it be) launched?</i>			
<p>The public consultation was launched on September 26th, 2007. Comments on the criteria of assignment were handed until October 17th, 2007. A first call for tender for the number 116 000 was published on October 31st, 2007 and a second call for tender was published on January 30th, 2008.</p>

Question 2			
<i>Please indicate how and when you have made (will make) known that the number is available. Please give precise references (URL, publication, etc).</i>			
It was announced on the National IT and Telecom Agency's (NITA's) website the 27 th of August 2007 that it was now possible to apply for the number 116 000. This is a link to the announcement: http://www.itst.dk/wimdoc.asp?page=nyhed&objno=224693186 This is a link to more information on NITA's website about the allocation of 116 000: http://itst.dk/static/lt%20og%20tele/Nummerforhold/Offentlig%20annoncering%20om%20at%20der%20kan%20søges%20om%20116000.DOC			
Question 3			
<i>How has the number been (will it be) assigned?</i>			
As far as the procedure of allocating 116-numbers is concerned, the set-up in Denmark is as follows. The approach to the national assignment of 116-numbers is based on a "draw/lottery approach". When a number has been reserved for a particular type of service, NITA will invite applications for that number. If only one applicant for a specific number fulfils the criteria laid down in the annex to the decision, that applicant will be allocated the number. However, if two or more applicants fulfil the criteria, then a draw will decide which applicant gets the number allocated.			
Question 4			
<i>When has the procedure been (will it be) launched?</i>			
The procedure has already been launched as NITA implemented the Commissions decision in the Executive Order on the Overall Danish Numbering Plan the 20th of June 2007.			
Question 5			
<i>When do you expect the number to be assigned to an organisation? Which one?</i>			
The number 116 000 was allocated to TDC A/S on the 3rd of October 2007. The organisation Thora Center is going to use the number for a hotline for missing children.			
Question 6			
<i>Have organisations already expressed their interest in providing the service?</i>			
As above-mentioned, Thora Center applied for the number 116 000 via TDC. Thora Center is a humanitarian organisation and the center mainly works with missing and sexually exploited children. Thora Center is also a member of the organization "Missing Children Europe".			
Question 7			
<i>When do you expect the number to be operational (calls routed to the number, service provided)</i>			
NITA has no information on when to expect the number 116 000 to be operational but NITA is informed that TDC and Thora Center are working on a solution.			
Question 8			
<i>What are the contact details that organisations can use to express their interest?</i>			
For further information about 116 numbers it is possible to contact Maria Schmidt Jensen on e-mail msj@itst.dk .

Question 1			
<i>What measures have been taken (e.g. general procedures published officially, national numbering plan modified, etc)? Please describe.</i>			
The conditions attached to using HESC numbers, listed in the Commissions decision, have been added to the decree of the Minister of Economic Affairs and Communications “Estonian Numbering Plan”. Also, it has been made legally possible to hand out 116 numbers. We’ve updated our webpage with relevant information about HESC numbers, consisting of the Commission decision with the Annex and a list of currently available numbers with detailed information about their requirements and purpose. Furthermore, we plan to update it regularly. We’ve compiled an extra information enquiry form to go with the number booking application, so we could pinpoint the most capable organisation for filling the criteria and purpose of 116 HESC numbers. HESC number assignment procedure does not breach the boundaries of any other number assignment procedure.			
Question 2			
<i>Please indicate how and when you have made (will make) known that the number is available. Please give precise references (URL, publication, etc).</i>			
We updated our webpage on 14.09.2007 and added the Commission decision, plus the list of available numbers, which includes detailed description of the service and its requirements.			
Question 3			
<i>How has the number been (will it be) assigned?</i>			
After receiving an application form for the 116000 number, we send the applicant an extra information enquiry form, with questions about the usage of the number and organisation background. The service, must meet the requirements of the Commission decision, we consider these requirements as “Knock-Out” criteria. In case of several applications we will determine the most suitable organisation for fulfilling the 116 HESC purpose. All things considered, when our NRA reaches a pleasing decision, the number will be assigned to the organisation.			
Question 4			
<i>When has the procedure been (will it be) launched?</i>			
Our NRA is in stand by mode, ready to process any application from an organisation willing to offer the service.			
Question 5			
<i>When do you expect the number to be assigned to an organisation? Which one?</i>			
Until now there has been no interest in providing the service, so it’s hard to make any prognosis.			
Question 6			
<i>Have organisations already expressed their interest in providing the service?</i>			
No they have not			
Question 7			
<i>When do you expect the number to be operational (calls routed to the number, service provided)</i>			
Again, this is difficult to expect, because we have had no interest what-so-ever in booking the HESC number.			
Question 8			
<i>What are the contact details that organisations can use to express their interest?</i>

Ello es así porque el Plan nacional de numeración telefónica, desde su publicación el 30 de diciembre de 2004, ya contemplaba la reserva del rango 11 para servicios armonizados europeos.</p> <p>No obstante, con objeto de favorecer un mayor conocimiento público de la posibilidad de atribución de estos números, y para clarificar los criterios a seguir, se realizaron las publicaciones mencionadas. Question 1			
<i>What measures have been taken (e.g. general procedures published officially, national numbering plan modified, etc)? Please describe.</i>			
<p>The numbering range for the 116 XYZ services has been reserved in Malta's numbering plan. This is reflected in the allocation table on the MCA website. (http://www.mca.org.mt/infocentre/openarticle.asp?id=682&pref=3).</p> <p>A general assignment process applicable to all 116 XYZ numbers has been drawn up and subsequently approved by Cabinet due to the fact that this will involve various government entities. This process envisaged the selection of a 'lead Ministry' for each 116 XXX number. Governmental entities that already provide a comparable service to the one that is being offered would be given the right of first preference in order to facilitate the process. If this is not the case and the entity is not in a position to offer the service in question under the conditions set, the Lead Ministry would have to issue a call for expression of interest and adjudicate the service accordingly. The entity chosen will then have to apply with the Malta Communications Authority (MCA) for the use of such number.</p> <p>In the case of the 116 000 the Ministry for Justice and Home Affairs, that is also responsible for the 112 Emergency Services, has been identified as the lead Ministry to lead this initiative.</p>			
Question 2			
<i>Please indicate how and when you have made (will make) known that the number is available. Please give precise references (URL, publication, etc).</i>			
This will be made known once the process is fully implemented. Responsibility for communications will be devolved to lead ministries and/or service providers depending on the nature of the service.			
Question 3			
<i>How has the number been (will it be) assigned?</i>			
It will be assigned as per the procedure described in (1) above.			
Question 4			
<i>When has the procedure been (will it be) launched?</i>			
The procedure has been launched in December 2007.			
Question 5			
<i>When do you expect the number to be assigned to an organisation? Which one?</i>			
Though an organisation has already shown an interest in providing the service in question, this will depend on whether it will be able to fulfill the conditions set.			
Question 6			
<i>Have organisations already expressed their interest in providing the service?</i>			
A public entity has already shown an interest to provide the service in question.			
Question 7			
<i>When do you expect the number to be operational (calls routed to the number, service provided)</i>			
If the interested entity is assigned the said service we are not envisaging any potential difficulties in making this number operational. However, further discussions with operators still need to take place.			
Question 8			
<i>What are the contact details that organisations can use to express their interest?</i>			
<p>Details will be issued on the Malta Communications Authority (http://www.mca.org.mt) and the lead Ministry's website in the case that there would need to be a call for expression of interest.</p> <p>MCA, Valletta Waterfront, Pinto Wharf, Valletta, FRN1913 Tel: +356 21 336 840 Fax: +356 21 336 846 Email: info@mca.org.mt</p>

Agency shall always be obliged to publish such public calls whenever it receives from party with an interest in the specific numbers an initiative for public tender. Notwithstanding this Agency is obliged to publish public calls at least once in three years.

Question 1			
<i>What measures have been taken (e.g. general procedures published officially, national numbering plan modified, etc)? Please describe.</i>			
In Denmark we modified the national numbering plan so it now includes 116 numbers. We have a general allocation procedure for all numbers in the 116xyz numbering range. You can find further information on the allocation procedures below.			
Question 2			
<i>Please indicate how and when you have made (will make) known that the number is available. Please give precise references (URL, publication, etc).</i>			
It was announced on the National IT and Telecom Agency's (NITA's) website the 13 th of February 2008 that it was now possible to apply for the number 116 111. This is a link to the announcement: http://www.itst.dk/nyheder/nyhedsarkiv/2008/annoncering-af-numrene-116-111-og-116-123 This is a link to more information on NITA's website about the allocation of 116 111 and 116 123: http://www.itst.dk/nummerforhold-og-domaener/nummerforhold/116-serien-til-tjenester-af-samfundsmessig-betydning/offentlig-annoncering-af-numrene-116-111-og-116-123			
Question 3			
<i>How has the number been (will it be) assigned?</i>			
As far as the procedure of allocating 116 numbers is concerned, the set-up in Denmark is as follows. The approach to the national assignment of 116 numbers is based on a "draw/lottery approach". When a number has been reserved for a particular type of service, NITA will invite applications for that number. If only one applicant for a specific number fulfils the criteria laid down in the annex to the decision, that applicant will be allocated the number. However, if two or more applicants fulfil the criteria, then a draw will decide which applicant gets the number allocated.			
Question 4			
<i>When has the procedure been (will it be) launched?</i>			
The procedure has already been launched as NITA implemented the Commissions decision in the Executive Order on the Overall Danish Numbering Plan the 20th of June 2007.			
Question 5			
<i>When do you expect the number to be assigned to an organisation? Which one?</i>			
Denmark assigned 116111 to TDC ("Boerns vilkaar")			
Question 6			
<i>Have organisations already expressed their interest in providing the service?</i>			
Only one organisation has expressed interest in the number 116 111, which is the organisation "Boerns vilkaar".			
Question 7			
<i>When do you expect the number to be operational (calls routed to the number, service provided)</i>			
NITA has no information on when to expect the number 116 111 to be operational.			
Question 8			
<i>What are the contact details that organisations can use to express their interest?</i>			
For further information about 116 numbers it is possible to contact Maria Schmidt Jensen on e-mail msj@itst.dk .

Question 1			
<i>What measures have been taken (e.g. general procedures published officially, national numbering plan modified, etc)? Please describe.</i>			
The conditions attached to using HESC numbers, listed in the Commissions decision, have been added to the decree of the Minister of Economic Affairs and Communications “Estonian Numbering Plan”. Also, it has been made legally possible to hand out 116 numbers. We’ve updated our webpage with relevant information about HESC numbers, consisting of the Commission decision with the Annex and a list of currently available numbers with detailed information about their requirements and purpose. Furthermore, we plan to update it regularly. We’ve compiled an extra information enquiry form to go with the number booking application, so we could pinpoint the most capable organisation for filling the criteria and purpose of 116 HESC numbers. HESC number assignment procedure does not breach the boundaries of any other number assignment procedure.			
Question 2			
<i>Please indicate how and when you have made (will make) known that the number is available. Please give precise references (URL, publication, etc).</i>			
We updated our webpage and added the Commission decision, plus the list of available numbers, which includes detailed description of the service and its requirements.			
Question 3			
<i>How has the number been (will it be) assigned?</i>			
After receiving an application form for the 116111 number, we send the applicant an extra information enquiry form, with questions about the usage of the number and organisation background. The service, must meet the requirements of the Commission decision, we consider these requirements as “Knock-Out” criteria. In case of several applications we will determine the most suitable organisation for fulfilling the 116 HESC purpose. All things considered, when our NRA reaches a pleasing decision, the number will be assigned to the organisation.			
Question 4			
<i>When has the procedure been (will it be) launched?</i>			
Our NRA is in stand by mode, ready to process any application from an organisation willing to offer the service.			
Question 5			
<i>When do you expect the number to be assigned to an organisation? Which one?</i>			
Until now there has been no application in providing the service, so it’s hard to make any prognosis.			
Question 6			
<i>Have organisations already expressed their interest in providing the service?</i>			
1 prospect.			
Question 7			
<i>When do you expect the number to be operational (calls routed to the number, service provided)</i>			
Again, this is difficult to expect, because we have had no interest what-so-ever in booking the HESC number.

Question 1			
<i>What measures have been taken (e.g. general procedures published officially, national numbering plan modified, etc)? Please describe.</i>			
<p>The numbering range for the 116 XYZ services has been reserved in Malta's numbering plan. This is reflected in the allocation table on the MCA website. (http://www.mca.org.mt/infocentre/openarticle.asp?id=682&pref=3). A general assignment process applicable to all 116 XYZ numbers has been drawn up and subsequently approved by Cabinet due to the fact that this will involve various government entities. This process envisaged the selection of a 'lead Ministry' for each 116 XXX number. Governmental entities that already provide a comparable service to the one that is being offered would be given the right of first preference in order to facilitate the process. If this is not the case and the entity is not in a position to offer the service in question under the conditions set, the Lead Ministry would have to issue a call for expression of interest and adjudicate the service accordingly. The entity chosen will then have to apply with the Malta Communications Authority (MCA) for the use of such number.</p> <p>In the case of the 116 111 the Ministry for Social Policy, that is responsible for social policy in Malta, has been identified as the lead Ministry to lead this initiative.</p>			
Question 2			
<i>Please indicate how and when you have made (will make) known that the number is available. Please give precise references (URL, publication, etc).</i>			
This will be made known once the process is fully implemented. Responsibility for communications will be devolved to lead ministry and/or service providers depending on the nature of the service.			
Question 3			
<i>How has the number been (will it be) assigned?</i>			
It will be assigned as per the procedure described in (1) above.			
Question 4			
<i>When has the procedure been (will it be) launched?</i>			
The procedure has been launched in December 2007.			
Question 5			
<i>When do you expect the number to be assigned to an organisation? Which one?</i>			
This will depend on whether any organisation will show interest in this service and whether it will be able to fulfil all the conditions set.			
Question 6			
<i>Have organisations already expressed their interest in providing the service?</i>			
At this stage governmental entities that offer a comparable a similar service have not yet been contacted. If there is no interested public entity a call for expression will then have to be issued by the Lead Ministry.			
Question 7			
<i>When do you expect the number to be operational (calls routed to the number, service provided)</i>			
This will depend upon any entity showing an interest in providing the service. If this will be the case and the service is assigned to this entity, we are not envisaging any potential difficulties in making this number operational. However, further discussions with operators still need to take place.			
Question 8			
<i>What are the contact details that organisations can use to express their interest?</i>			
Details will be issued on the Malta Communications Authority (www.mca.org.mt Valletta Waterfront, Pinto Wharf, Valletta, FRN1913, Tel: +356 21 336 840, Fax: +356 21 336 846; Email: info@mca.org.mt) and the lead Ministry's website in the case that there would need to be a call for expression of interest.

Question 1			
<i>What measures have been taken (e.g. general procedures published officially, national numbering plan modified, etc)? Please describe.</i>			
With enforcement of changes in general act concerning numbering plan numbering range 116xxx was reserved for harmonised services of social value (published in Official Gazette Nr 79, 31 August 2007 and on the Agency web site: www.apek.si).			
Question 2			
<i>Please indicate how and when you have made (will make) known that the number is available. Please give precise references (URL, publication, etc).</i>			
Because Agency (Post and Electronic Communications Agency of the Republic of Slovenia) expected that interest in particular number 116111 could exceed the availability (only one number) public call was published with the intention to acquire opinions of interested parties. In the public call the 30 day time period was laid down for the acquisition of opinions of interested parties. In the prescribed time period there was no interest for the assignment of the number 116111. Public call was published in Official Gazette Nr 112, 7 December 2007 and on the Agency web site: www.apek.si			
Question 3			
<i>How has the number been (will it be) assigned?</i>			
The number will be assigned on the basis of the procedure prescribed in the Electronic Communications Act (Official Gazette no. 13/07 – Official consolidated version - ECA) by a decision of the Agency with or without a prior public tender, depending on the interest expressed in a public call. Relevant articles of ECA are in particular: 38 (obtaining opinions of interested parties), 61 (procedure for issuing decisions on the assignments) and 62 (issuing decisions on the assignment of numbering resources on the basis of the general administrative procedure).			
Question 4			
<i>When has the procedure been (will it be) launched?</i>			
In next months Agency is planning to repeat again a public call procedure. According to the provision of article 38 of ECA if the Agency considers that interest in particular numbers could exceed the availability; it shall publish a public call to obtain the opinions of interested parties concerning the conditions of use of such number. Agency shall always be obliged to publish such public calls whenever it receives from party with an interest in the specific numbers an initiative for public tender. Notwithstanding this Agency is obliged to publish public calls at least once in three years.			
Question 5			
<i>When do you expect the number to be assigned to an organisation? Which one?</i>			
It is impossible to predict when and to which organisation – depending on the interest.			
Question 6			
<i>Have organisations already expressed their interest in providing the service?</i>

<i>Please indicate how and when you have made (will make) known that the number is available. Please give precise references (URL, OJ publication, etc).</i>			
It was announced on the National IT and Telecom Agency's (NITA's) website the 13 th of February 2008 that it was now possible to apply for the number 116 123. This is a link to the announcement: http://www.itst.dk/nyheder/nyhedsarkiv/2008/annoncering-af-numrene-116-111-og-116-123 This is a link to more information on NITA's website about the allocation of 116 111 and 116 123: http://www.itst.dk/nummerforhold-og-domaener/nummerforhold/116-serien-til-tjenester-af-samfundsmessig-betydning/offentlig-annoncering-af-numrene-116-111-og-116-123			
Question 3			
<i>How has the number been (will it be) assigned?</i>			
As far as the procedure of allocating 116 numbers is concerned, the set-up in Denmark is as follows. The approach to the national assignment of 116 numbers is based on a "draw/lottery approach". When a number has been reserved for a particular type of service, NITA will invite applications for that number. If only one applicant for a specific number fulfils the criteria laid down in the annex to the decision, that applicant will be allocated the number. However, if two or more applicants fulfil the criteria, then a draw will decide which applicant gets the number allocated.			
Question 4			
<i>When has the procedure been (will it be) launched?</i>			
The procedure has already been launched as NITA implemented the Commissions decision in the Executive Order on the Overall Danish Numbering Plan the 20th of June 2007.			
Question 5			
<i>When do you expect the number to be assigned to an organisation? Which one?</i>			
Applications for the number 116 123 can be sent to NITA no later than the 1 st of April 2008. NITA will subsequently consider the received applications.			
Question 6			
<i>Have organisations already expressed their interest in providing the service?</i>			
No organisations have expressed interest in providing the service on the number 116 123.

NITA has no information on when to expect the number 116 123 to be operational.

Question 1			
<i>What measures have been taken (e.g. general procedures published officially, national numbering plan modified, etc)? Please describe.</i>			
The conditions attached to using HESC numbers, listed in the Commissions decision, have been added to the decree of the Minister of Economic Affairs and Communications “Estonian Numbering Plan”. Also, it has been made legally possible to hand out 116 numbers. We’ve updated our webpage with relevant information about HESC numbers, consisting of the Commission decision with the Annex and a list of currently available numbers with detailed information about their requirements and purpose. Furthermore, we plan to update it regularly. We’ve compiled an extra information enquiry form to go with the number booking application, so we could pinpoint the most capable organisation for filling the criteria and purpose of 116 HESC numbers. HESC number assignment procedure does not breach the boundaries of any other number assignment procedure.			
Question 2			
<i>Please indicate how and when you have made (will make) known that the number is available. Please give precise references (URL, OJ publication, etc).</i>			
We updated our webpage and added the Commission decision, plus the list of available numbers, which includes detailed description of the service and its requirements.			
Question 3			
<i>How has the number been (will it be) assigned?</i>			
After receiving an application form for the 116123 number, we send the applicant an extra information enquiry form, with questions about the usage of the number and organisation background. The service, must meet the requirements of the Commission decision, we consider these requirements as “Knock-Out” criteria. In case of several applications we will determine the most suitable organisation for fulfilling the 116 HESC purpose. All things considered, when our NRA reaches a pleasing decision, the number will be assigned to the organisation.			
Question 4			
<i>When has the procedure been (will it be) launched?</i>			
Our NRA is in stand by mode, ready to process any application from an organisation willing to offer the service.			
Question 5			
<i>When do you expect the number to be assigned to an organisation? Which one?</i>			
Until now there has been no interest in providing the service, so it’s hard to make any prognosis.			
Question 6			
<i>Have organisations already expressed their interest in providing the service?</i>			
No they have not.			
Question 7			
<i>When do you expect the number to be operational (calls routed to the number, service provided)</i>			
Again, this is difficult to expect, because we have had no interest what-so-ever in booking the HESC number.			
Question 8			
<i>What are the contact details that organisations can use to express their interest?</i>

Question 1

What measures have been taken (e.g. general procedures published officially, national numbering plan modified, etc)? Please describe.

El número 116123 está disponible en España para su atribución al servicio “línea de apoyo emocional”. Las solicitudes contendrán una propuesta descriptiva del servicio a prestar, los datos identificativos de la organización interesada y los medios con los que se cuenta para la prestación.

Las solicitudes que se reciban hasta el día 30 de abril de 2008 se someterán a la consideración de los ministerios con competencias en el contenido del servicio, quienes informarán sobre la idoneidad de las propuestas recibidas y la cualificación de sus solicitantes. En el caso de existir varios solicitantes cualificados que aspiren a prestar el servicio, se convocará un procedimiento de selección competitiva o comparativa.

Se ha publicado un anuncio al respecto en la página Web de la Secretaría de Estado de Telecomunicaciones y para la Sociedad de la Información. La dirección es la siguiente: <http://www.mityc.es/Telecomunicaciones/Secciones/Numeracion/DelInteres/>

El procedimiento general para la atribución de cualquier número del rango 116 se encuentra en el siguiente enlace del Boletín Oficial del Estado (publicado el 8 de noviembre de 2007): <http://www.boe.es/boe/dias/2007/11/08/pdfs/A46042-46043.pdf>

Las organizaciones interesadas en prestar el servicio pueden comunicarlo mediante correo postal a la Subdirección General de Operadores y Tecnologías de la Información.; o bien en la dirección de correo electrónico numeracion@mityc.es

Hasta la fecha, no se ha recibido formalmente ninguna candidatura para prestar en España el servicio “línea de apoyo emocional”, aunque sí existe una manifestación preliminar de interés por parte de una organización sin ánimo de lucro. Esta entidad, no obstante, ha mostrado su preocupación por algunas de las condiciones que debe cumplir el servicio, en particular, la gratuidad de las llamadas.

Question 1			
<i>What measures have been taken (e.g. general procedures published officially, national numbering plan modified, etc)? Please describe.</i>			
<p>The numbering range for the 116 XYZ services has been reserved in Malta's numbering plan. This is reflected in the allocation table on the MCA website. (http://www.mca.org.mt/infocentre/openarticle.asp?id=682&pref=3). A general assignment process applicable to all 116 XYZ numbers has been drawn up and subsequently approved by Cabinet due to the fact that this will involve various government entities. This process envisaged the selection of a 'lead Ministry' for each 116 XXX number. Governmental entities that already provide a comparable service to the one that is being offered would be given the right of first preference in order to facilitate the process. If this is not the case and the entity is not in a position to offer the service in question under the conditions set, the Lead Ministry would have to issue a call for expression of interest and adjudicate the service accordingly. The entity chosen will then have to apply with the Malta Communications Authority (MCA) for the use of such number.</p> <p>In the case of the 116 123 the Ministry for Social Policy, that is responsible for social policy in Malta, has been chosen as the lead Ministry to lead this initiative.</p>			
Question 2			
<i>Please indicate how and when you have made (will make) known that the number is available. Please give precise references (URL, OJ publication, etc).</i>			
This will be made known once the process is fully implemented. Responsibility for communications will be devolved to lead ministry and/or service providers depending on the nature of the service.			
Question 3			
<i>How has the number been (will it be) assigned?</i>			
It will be assigned as per the procedure described in (1) above.			
Question 4			
<i>When has the procedure been (will it be) launched?</i>			
The procedure has been launched in December 2007.			
Question 5			
<i>When do you expect the number to be assigned to an organisation? Which one?</i>			
This will depend on whether any organisation will show interest in this service and whether it will be able to fulfil all the conditions set.			
Question 6			
<i>Have organisations already expressed their interest in providing the service?</i>			
At this stage governmental entities that offer a comparable a similar service have not yet been contacted. If there is no interested public entity a call for expression will then have to be issued by the Lead Ministry.			
Question 7			
<i>When do you expect the number to be operational (calls routed to the number, service provided)</i>			
This will depend upon any entity showing an interest in providing the service. If this will be the case and the service is assigned to this entity, we are not envisaging any potential difficulties in making this number operational. However, further discussions with operators still need to take place.			
Question 8			
<i>What are the contact details that organisations can use to express their interest?</i>
