

PSI Re-use

Effective implementation

Nikolaus Futter

Chairman

PSI Alliance[★]

PSI Alliance today

- Representing companies across Europe
- In different areas of the **information industry**
- Speaking partner for companies, ministries, authorities , organisations.....
- Highlights good and bad re-use practise

PSI Alliance★

The market needs

- Access to re-usable **raw data**
- **No competition** with PSI Holders
- **Less intellectual property rights** connected to public data (=less restrictions for re-use)
- **Fair pricing** , preferable marginal cost pricing

Charging for PSI

- Marginal cost principle is key element
- The commercial reusers need
 - Reliability
 - Long term partnerships
 - Liability
 - Service level agreements

and are willing to pay a fair price for these additional elements

For an effective market

- Charging must be **accountable**
- Charges must be **transparent**
- Effective **redress** is vital
