

FILMOTEKA NARODOWA

edukacja  
filmowa

- Web portal [www.edukacjafilmowa.pl](http://www.edukacjafilmowa.pl) is an initiative of **Filmoteka Narodowa** (National Film Archive) - Arthouse Cinemas Network.
- **First assumption:** to help people from the cinema environment and to improve educational programs at cinemas.
- **For educational partner,** the Association 'Venea Artis' has been chosen, which specializes in the education of children and youth.

[www.edukacjafilmowa.pl](http://www.edukacjafilmowa.pl) website was created within the  
program of Ministry of Culture and National Heritage  
"Education +"

**The main objectives are:**

- 1. To provide film studies knowledge and information about latest trends in education,
- 2. To integrate representatives of various communities and their activities concerning film education,
- 3. To exchange experiences and education needs.

- During the preparations for the project it was noticed that there is a need to **extend its beneficiaries** which resulted in adding film educators as well as students both from high school and universities.
- **The target group** of the Project consists of: students from the second and third year of high school, university students and people interested in cinema and film studies.

- **The aim** of the project is to provide (through the innovative website) a broad and easy access to the film knowledge, needed to properly educate young generation.
- Teachers and educators **can use the website as a tool to conveniently and effortlessly** receive information about films and collect materials they can use on their lessons at school or cinema.
- Attention is paid to prepare materials for all project beneficiaries, but particularly for the **youngest viewers**, who are recognized as those who are not having any film education programs.

- **Materials** are prepared by two teams:
  - 1. Teacher and educators,
  - 2. People from the cinema environment.
- It is highly important, **to adjust the education program in schools or universities with the point of view of the viewers.**
- **Teachers** are using educational paths recommended by the Ministry of Culture and National Heritage, and **cinema owners** exchange currently played films.

[www.edukacjafilmowa.pl](http://www.edukacjafilmowa.pl) is a website others may co-create by adding contents such as:

- exchanging teachers programs and work practices,
- film events and competitions news,
- propositions of film titles that can be used for essay, thesis or other written forms of examination,
- ideas for film lessons,
- own educational programs.

- [www.edukacjafilmowa.pl](http://www.edukacjafilmowa.pl) is constantly working on activities that will increase its **popularity**.
- The website is being widely promoted but its further building up depends on level of available resources.
- A large promotional campaign is planned for next year.

- Teachers working for the website come from various Polish cities. This **diversity** is a very important feature as the education can differ by the regions students come from as well as their attitude to the art of the cinema. Having teachers from different regions allows to have a more individual approach.
- Edukacja Filmowa is taking part in most events and, seminars. Once a year, it actively takes part in the film studies **conference** for educators and teachers which is held in Radziejowice.
- Website **enjoys a great interest**, and its substantive content is rated remarkably highly.
