

FEDERATION INTERNATIONALE DE L'AUTOMOBILE
REGION I - EUROPE, THE MIDDLE EAST AND AFRICA

Data Protection and Cyber Security in Automated Driving

European Commission IoT Privacy & Security Workshop | 13 January 2017 | Olivier Lenz

Section 1 Principles of Data Protection

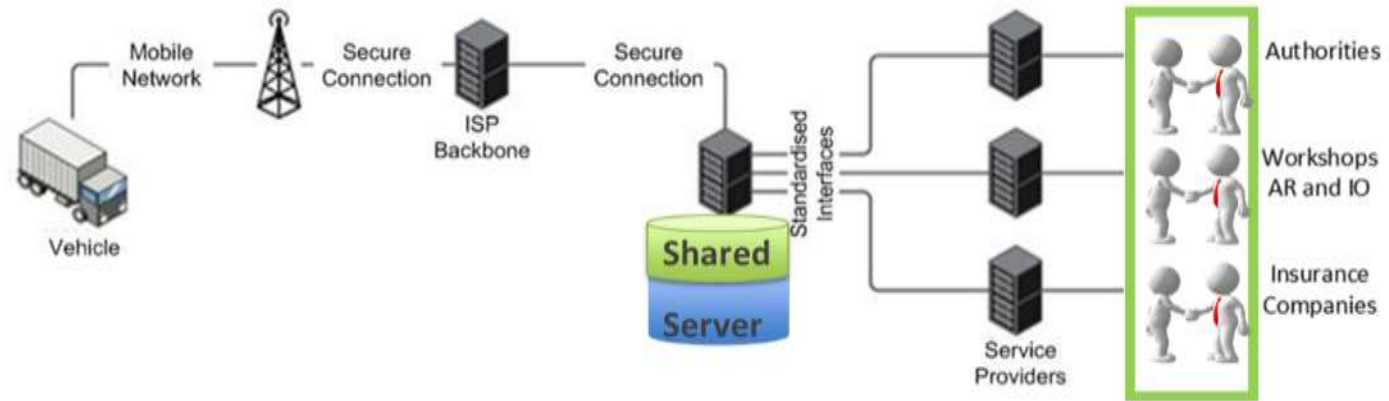

Principles of Data Protection

Principles of data protection

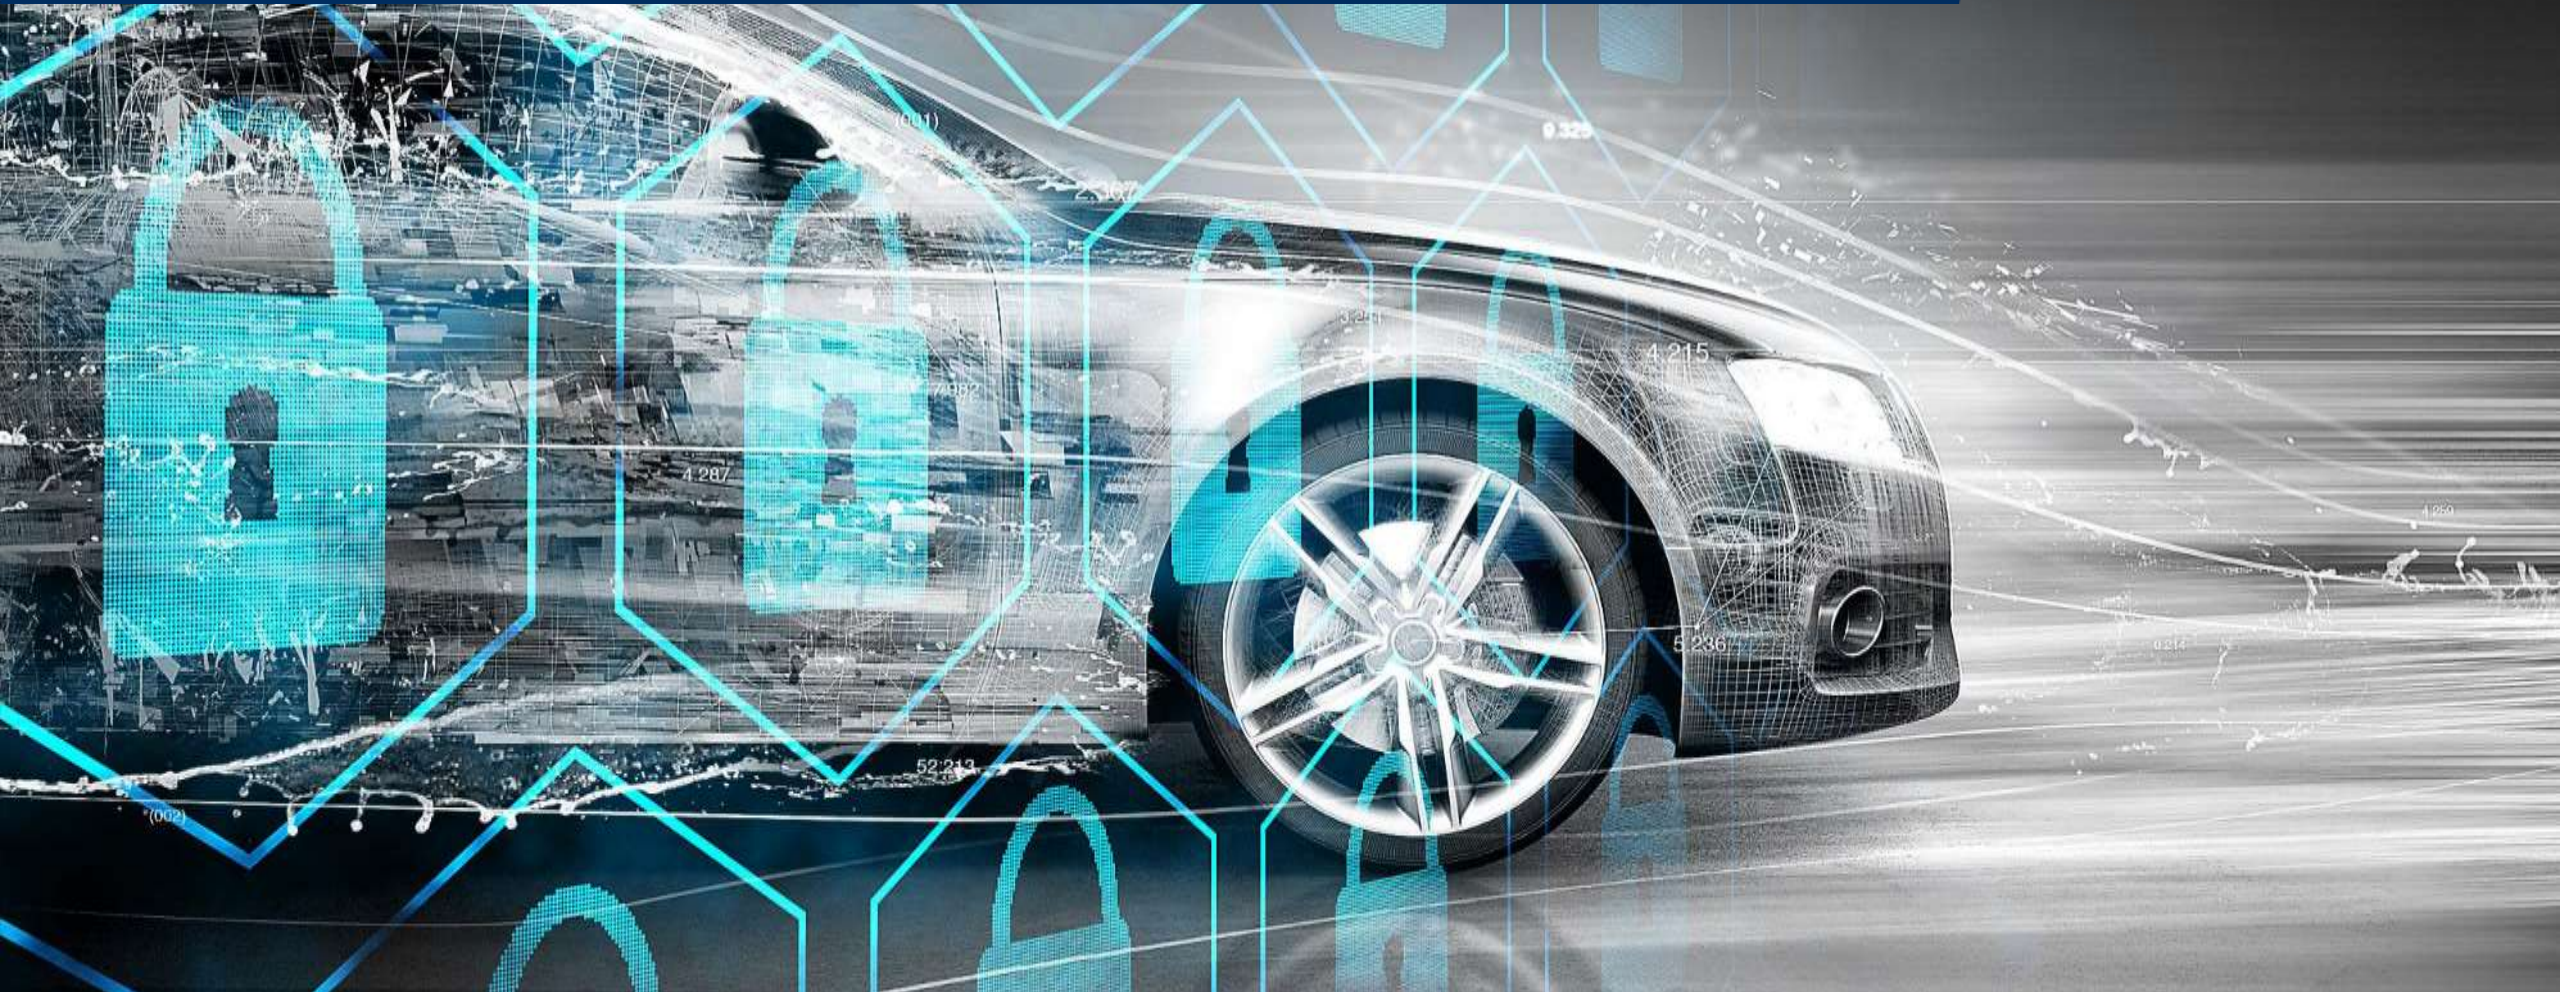

Privacy by design through pseudonymisation of data

Section 2 Cyber Security

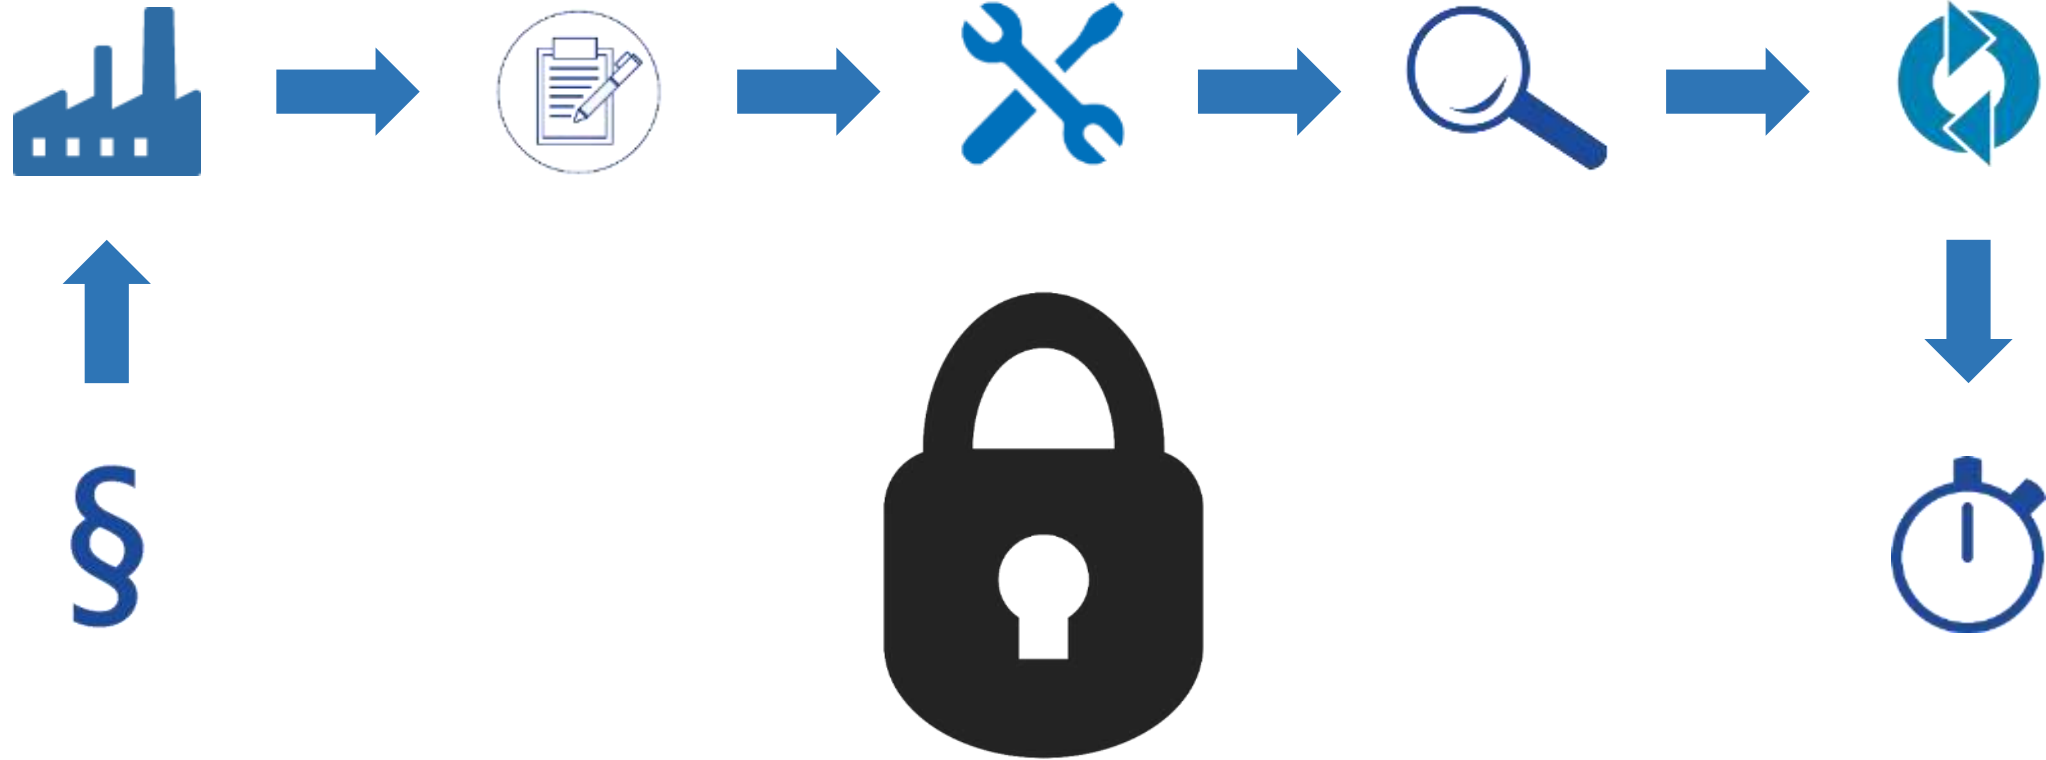

Cyber Security

Holistic security solutions for future vehicles, networks and infrastructure

- Technically complicated to tamper
- Economically unattractive
- Over the vehicle's lifetime

Cyber Security

The image features a background of a white fabric with a complex, dark blue pattern. The pattern consists of thick, irregular, and somewhat jagged lines that create a series of interconnected, organic shapes, resembling a stylized floral or abstract design. The lines vary in thickness and direction, creating a sense of movement and depth. The overall effect is a high-contrast, textured visual.

THANK YOU
