

Paolo DI FRANCESCO

Paolo Di Francesco received his Master's Degree in Electronic Engineering at the University of Palermo, Italy. He collaborated at the IST-SUITED project in 2001 and since 2001 he works as senior researcher and technical coordinator at CRES (Centro per la Ricerca Elettronica in Sicilia) in the TeSys Lab. He participated to the ITEA-POLLENS and he currently works in the IST-ANEMONE project. He also participates to the Italian IPv6 Task Force, he is member of the Directorate (Consiglio Direttivo) of Assoprovider (the association of Italian independent ISPs) and he is also responsible for the wireless network of Teleinform SpA (a regional Sicilian WISP). He is an expert of QoS, IPv6 and middleware solutions and lately he works on 802.11 technologies.
