

Peter Janssen is Technical Manager at EURid, the European Registry for Internet Domain Names. Peter has a masters in Computer Science from the University of Leuven. He joined the Belgian ccTLD, .be, in 2000 in the guise of technical director and was responsible for the domains's liberalisation in December 2000. He fulfills the same role at the .eu registry. As such, he was responsible for the launch of the .eu country-code Top Level Domain, which started with a two phased sunrise period in december 2005, followed by the landrush period in april 2006.
