

IPv6 deployment and Support

IPv6 Launch
Round Table:
Research IPv6 Projects

Martin Potts
Martel GmbH
martin.potts@martel-consulting.ch

Who we are

13 Partners:

1 Industry

6 NRENs

2 Universities

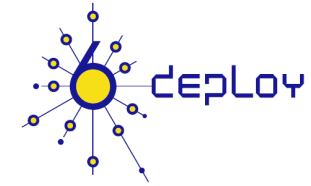

2 SMEs

2 RIRs

Our Objectives

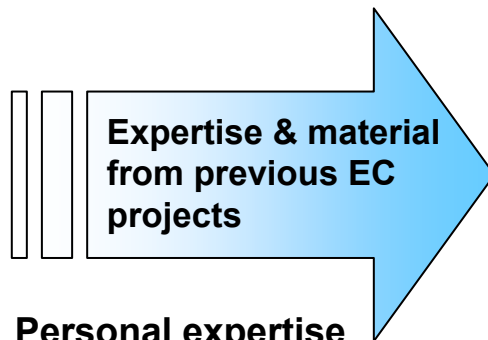

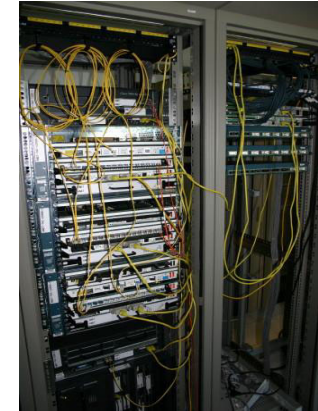

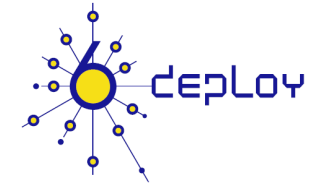

Supporting EU Policy

- The Internet is now the main telecommunications technology that underpins all aspects of business and leisure. It is therefore key to the economic growth of a country. Raising awareness of the need to move to IPv6 is therefore crucial
- “IPv6: The way forward – do it now!”

.... in a practical way

- Providing training and practical support for the introduction of IPv6
- Documenting deployment examples from the research community and commercial organisations

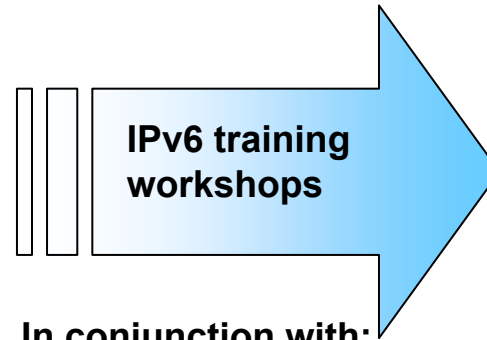

Achieving our Goals

**Expertise & material
from previous EC
projects**

**Personal expertise
& Cookbooks from:**

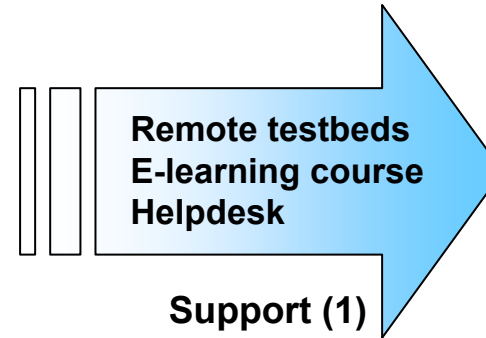

- GÉANT
- 6NET
- Euro6IX
- 6DISS

**IPv6 training
workshops**

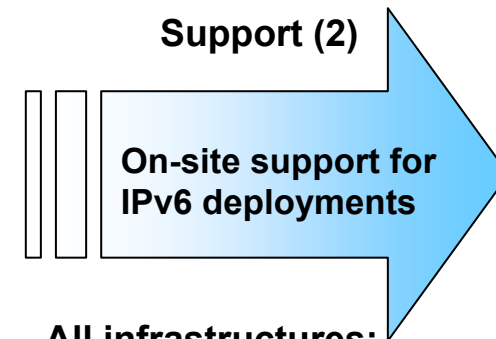

In conjunction with:

- AfriNIC/AfNOG
- LACNIC
- RIPE-NCC
- APNIC
- ARIN

**Remote testbeds
E-learning course
Helpdesk**

Support (1)

**On-site support for
IPv6 deployments**

All infrastructures:

- Research
- Education
- Commercial

+ the “IPv6 Cluster”
