

**« The French Association for  
the RFID community »**

**filrfid.org**

*Le fil rouge de la RFID*

# The objectives of FILRFID

- Promote RFID adoption among companies
- Sustain business growth for the different RFID markets: Passive, Active, NFC and Zigbee, WiFi...
- Become the leader of the French speaking RFID community
- Create and exchange best practices regarding the implementation and utilisation of those technologies

# The objectives of FILRFID

- 
- Organise special events where RFID companies can meet end users
  - Become the representative of French RFID community toward national and international bodies
  - Create an international network of national RFID associations

# The members of the Association

The goal is to have delegates from all the RFID community:
