European Electric Vehicle Congress 2014

The European Electric Vehicle Congress is a platform to foster exchange of views between the actors in R&D, industry, authorities, end-users and NGOs, and develop synergies in the field of eMobility.

- [Events](#) [1]

Date:

From 02/12/2014 to 05/12/2014

Venue:

Diamant Centre, Brussels, Belgium

Organiser:

Electri-City.mobi

EEVC-2014 has the objective to help defining the most promising solutions to be selected, taking into account the research and development progresses, as well as the environmental and economical constraints.

Feedback from past and current experiences will also be discussed and analyzed so that best practices & best ways for a daily introduction of eMobility could be identified.

The venue is again Brussels, so to ensure optimal connection with the representatives of the European Institutions that are considering Battery, Hybrid and Fuel Cell Electric Vehicles to play an important role to lower atmospheric pollution and to reduce oil dependency.

Policy aspects, new mobility concepts, noise and health factors will also be issues to be discussed.

The day prior the Congress, a EU Project day will be organized to provide the audience with a complete overview of the different programs supported by the European Authorities (FP7, Horizon 2020, IEE, EUROSTAR, INTEREG, ...) & related funded projects dealing with eMobility, so to identify possible actions, overlaps, synergies and/or gaps.

The event is divided between a European project day on Tuesday 2 December 2014 and the congress itself from Wednesday to Friday, 3-5 December 2014.
