

Awareness of the CO2 capture and storage technology

TOTAL* Number of interviews: 13.091
 BG Number of interviews: 1.001

Fieldwork: 09/02-08/03/2011
 Fieldwork: 09/02-21/02/2011

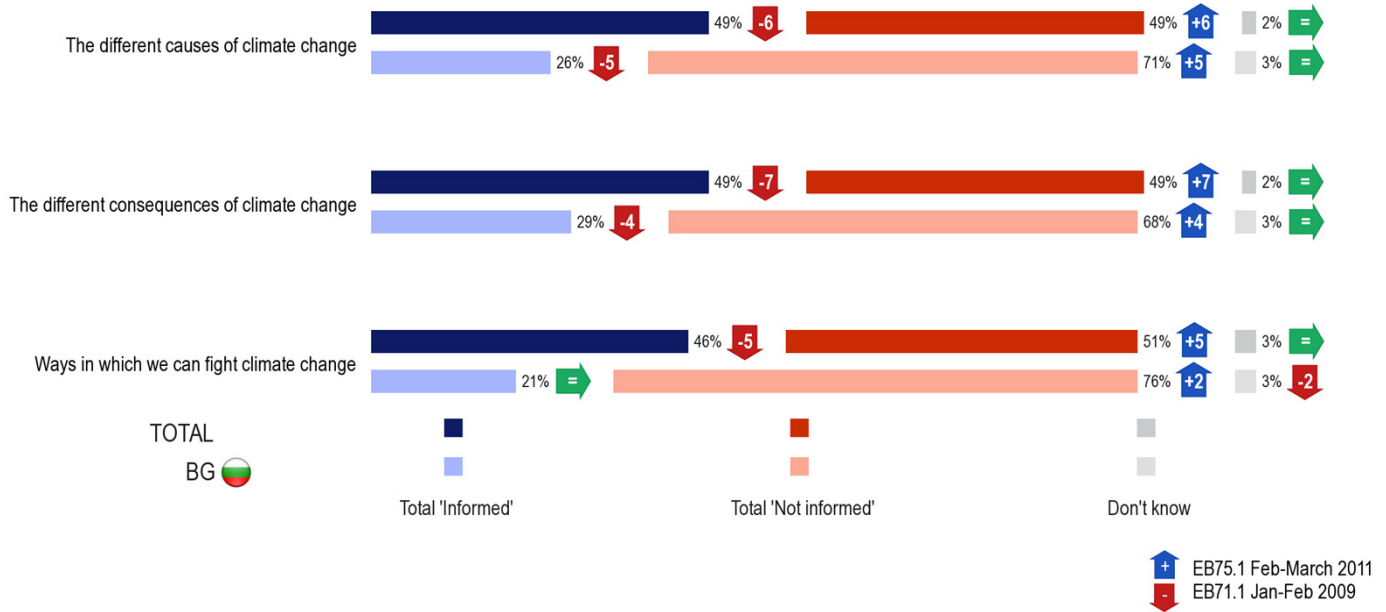

Methodology: face-to-face

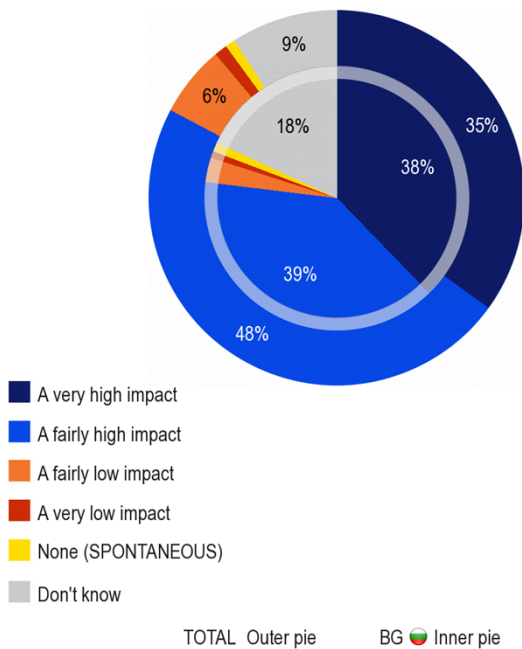

*TOTAL = the average results of all countries surveyed weighted according to their national population size (BG, CZ, DE, EL, ES, FI, FR, IT, NL, PL, RO, UK)

1. Awareness of CCS is low despite high levels of climate change awareness

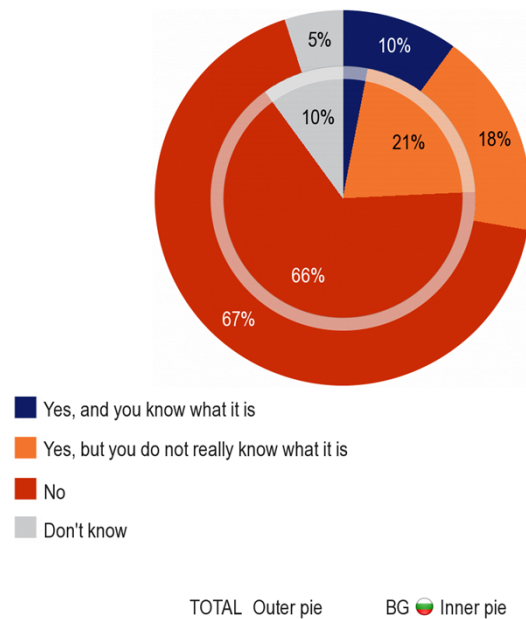

Personally, do you think that you are well informed or not about...?

What impact do you think CO2 emissions have on climate change? Do you think it has ...?

Have you ever heard of CO2 capture and storage, also known as carbon capture and storage or carbon capture and sequestration (CCS)?

Awareness of the CO2 capture and storage technology

2. Looking to the future: fossil fuels and CO2 storage

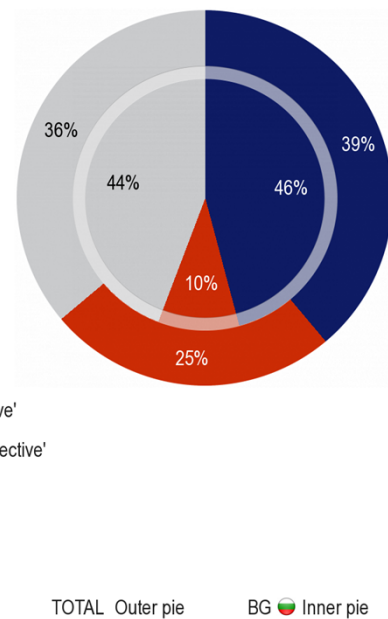

Please tell me whether you totally agree, tend to agree, tend to disagree or totally disagree with each of the following statements.

For future use of CCS in the EU, which of the following options concerning the storage of CO2 would you prefer?

In your opinion, taking into account all you know about CCS or carbon capture and storage, could you tell me whether you think it could be effective or not to fight climate change?

3. Regional use of CCS

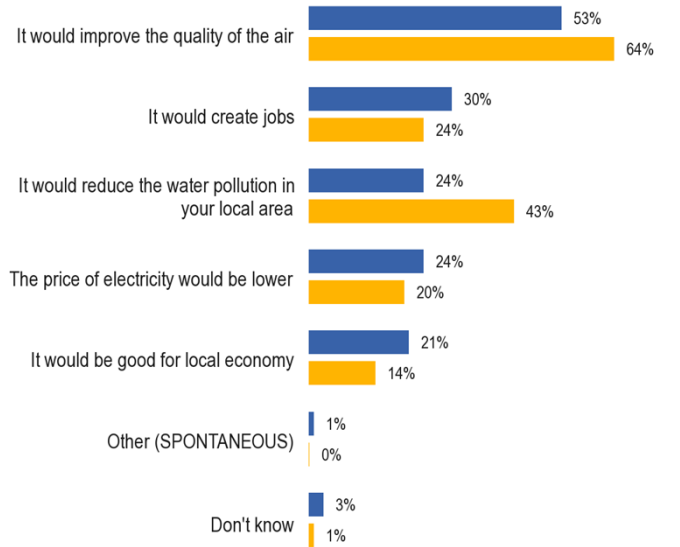

If CCS or carbon capture and storage technology was used in your region, do you think that you would benefit from it or not?

Would benefit
 Would not benefit
 Don't know

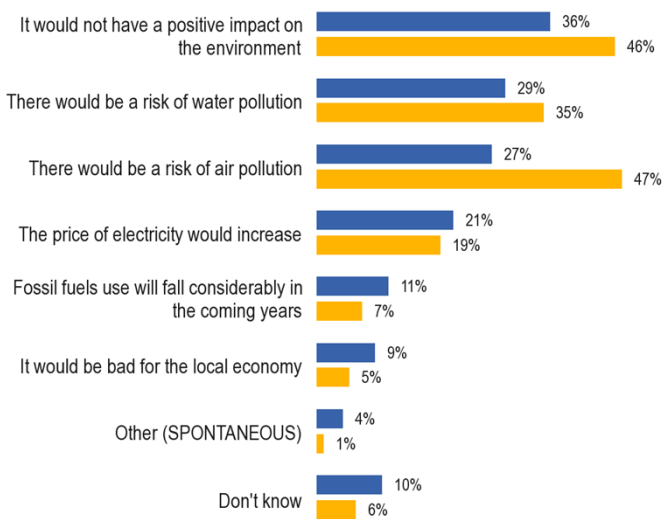

TOTAL Outer pie BG Inner pie

Why do you think that you would benefit from the use of CCS technology in your region?

 BG

Why do you think you would not benefit from the use of CCS technology in your region?

TOTAL
 BG

If a deep underground storage site for CO2 were to be located within 5km of your home, do you think that you would be...?

Very concerned
 Fairly concerned
 Not very concerned
 Not at all concerned
 Don't know

4. People want to be involved in decision making about CCS

If an underground CO2 storage site were to be proposed near your home, which of the following options would you prefer?

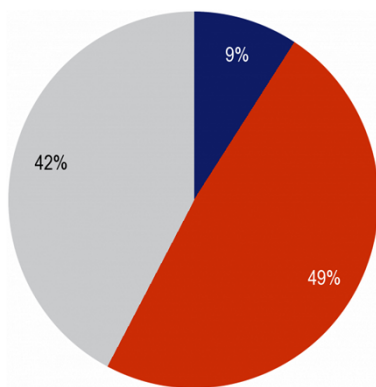

5. Trust depends on the information source

Which three of the following would you trust most to give you information about CCS?

6. Awareness of energy sources

According to you, what proportion of total electricity produced in (OUR COUNTRY) currently comes from coal?

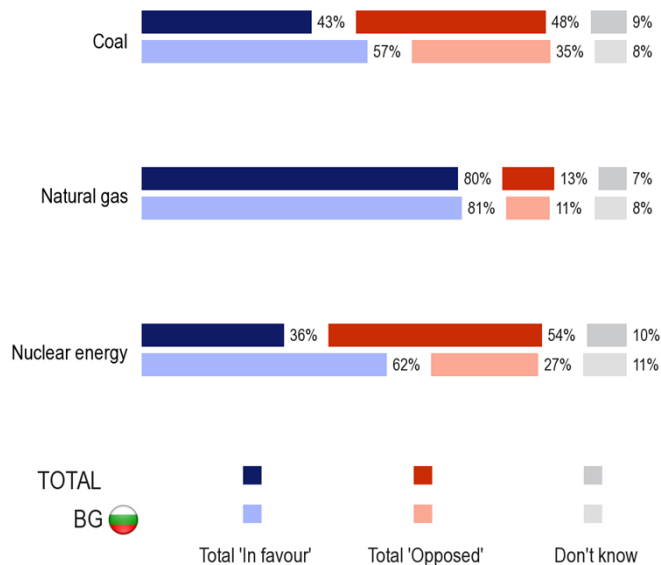

● Total '10% or less'
 ● Total 'More than 10%'
 ● Don't know

*In Bulgaria (2007), 51,73% of electricity was produced from coal and 6,70% from renewable energy sources (Source: EU energy and transport in figures, EC, 2010)

To what extent are you in favour of or opposed to the use of the following sources of energy in (OUR COUNTRY)?
