

Lot 3

Question 1: *in the price list sample under point 3.8 "light equipment: kit 2 (equipped van)" it is written 11 as a weighting factor (p. 95 of the tendering specifications). Could this be a mistake as our understanding is that the maximum weighting factor is 10?*

Answer

This is indeed a typing error. The weighting factor for point 3.8 in the price list ("light equipment: kit 2 (equipped van)") is 10, and not 11.

Question 2: *in the "Estimated Cost" chart for Case Study 1 (p. 87 of the tender specifications) it is our presumption that the "Task 1" corresponds to the following position: "Advising, preparing the project (methodology for reaching target audiences, content, and detailed planning), monitoring the work, coordinating the project throughout its duration and reporting to the client" stipulated on p. 84 of the tender specifications. Would you be so kind to confirm this?*

Answer

Tasks 1 to 7 listed on the "Estimated costs" table on page 87 of the tender specifications correspond to tasks (a) to (g) listed on pages 84 and 85 of the same document. Therefore, "Task 1" on page 87 corresponds to task (a) on page 84:

"Advising, preparing the project (methodology for reaching target audiences, content, detailed planning and budget), monitoring the work and coordinating the project throughout its duration".
