

MasterClass Ocean Governance

Sunil Murlidhar SHASTRI
University of Hull, United Kingdom

The Ocean of Tomorrow Info Day
Brussels: Wednesday, 16 September 2009

“The international regime for the peaceful
uses of the ocean space shall provide a
pattern for the future framework of
international organisations”
Elisabeth Mann Borgese, 1918-2002

“In the end, you will protect what you love;
Love what you understand;
Understand what you are taught”
Sylvia Earle, 1935-

Talking the talk: the seven pillars of ocean governance

- Science and Technology of Resources
- Geopolitical Economy of Resources
- Institutions and Organisations
- Legislation and Implementation
- Role of Civil Society
- Financial Initiatives
- Education and Awareness

Walking the Walk: my active commitment

- Involvement with a range of local, national and international organisations
- Consultancy projects on a variety of environmental amelioration projects
- Advising on significant policy issues within and outside the UK
- Promoting ocean governance through lecturing engagements
- Participation in stakeholder dialogues

Expertise and experience: academic and professional

- Attended Indian Institute of Technology, International Ocean Institute, Aachen Technical University, Dalhousie University, London School of Economics and Harvard University
- Researched in blasting physics, taught mining engineering, worked as ocean engineer, studied marine policy, currently teach marine policy and lecture widely on Ocean Governance

Thank you!
