To converse wood based raw materials to a range of value-added bioproducts
PARTNERS
ACHIEVEMENTS

1. Innovative processes and products were developed

2. 1 postdoctoral program and 5 doctoral programs – 3 PhDs graduated

3. More than 40 scientific publications and conference contributions

4. WOBAMA summer school targeted towards young talents
OBSTACLES

Scaling-up remains challenging

Limited Budgets

SOLUTIONS

Optimal project size

Strong focus on research, administration “at home”

Active researchers

Strong commitments from industrial partners
CONTINUATION

Use established infrastructure between academy and industry to scale-up the project outcomes
