

Ideas for simplifying the implementation of the EU RTD Framework Programmes

► Useful links

In 2010, the European Commission plans to issue a Communication on **possibilities for simplifying the implementation of the EU RTD Framework Programmes**. For gathering ideas, the Commission opens here a first informal consultation.

Ideas are sought under two broad headings:

- Improvements to processes and systems that could be implemented under the current legal basis of the 7th Framework Programme (e.g. better guidance and communication, improved workflows, improved IT systems...).
- More profound changes of the modes of implementation of the EU research budget that would require adaptations to the legal basis (in particular the Framework Programme, Rules for Participation, model grant agreements).

Please provide your suggestions under these two sections in the respective boxes below.

This consultation is subject to a [privacy statement](#).

Personal identification

Your name (compulsory)

Your first name(s) (compulsory)

Your organisation  (compulsory)

Country (compulsory)

Your e-mail address  (optional)

Your involvement with the EU RTD Framework Programme  (compulsory)

- Involved (now or earlier) in a Member of an FP7 Member of an FP7 National Evaluator of

project of the Framework Programme

Programme Committee

Advisory Group
