

NCP Views on FP6

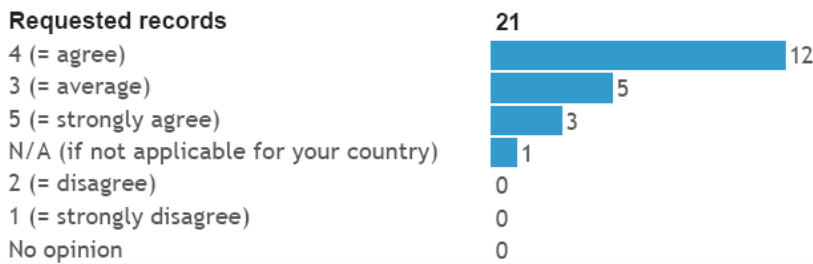

Overview Response charts

21 NCPs (from 19 countries) replied to the survey:

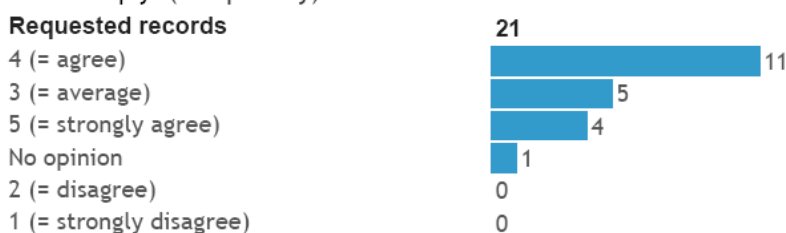

B.1.1 FP6 Scientific Excellence - in your country:

Based on your own observations and the feedback received from researchers and stakeholders in your country, do you think that FP6 - in your country - contributed to achieving scientific excellence? -single choice reply- (compulsory)

B.1.2 FP6 Scientific Excellence - in general:

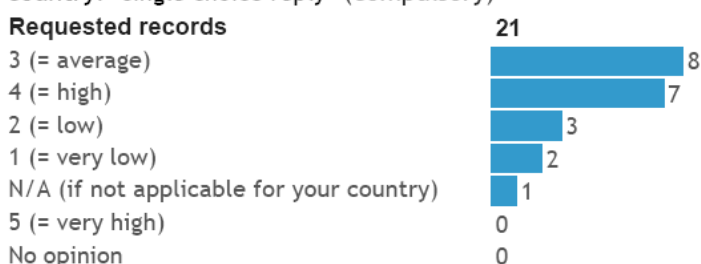

Based on your own observations and the feedback received from researchers and stakeholders in your country, do you think that FP6 - in general - contributed to achieving scientific excellence? -single choice reply- (compulsory)

B.2.1 FP6 Relevance - Strategic Objectives - in your country:

FP6 had to serve two main strategic objectives: Strengthening the scientific and technological bases of industry and encourage its international competitiveness while promoting research activities in support of other EU policies.

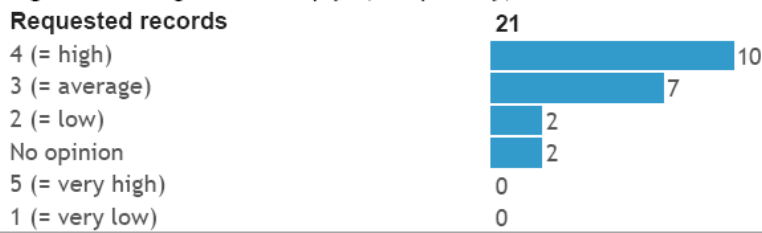

Based on your own observations and the feedback received from researchers and stakeholders in your country, how would you rate the extent of achievement of these FP6 strategic objectives in your country? -single choice reply- (compulsory)

B.2.2 FP6 Relevance - Strategic Objectives - in general:

FP6 had to serve two main strategic objectives: Strengthening the scientific and technological bases of industry and encourage its international competitiveness while promoting research activities in support of other EU policies.

Based on your own observations and the feedback received from researchers and stakeholders in your country, how would you rate the extent of achievement of these FP6 strategic objectives for FP6 in general? -single choice reply- (compulsory)

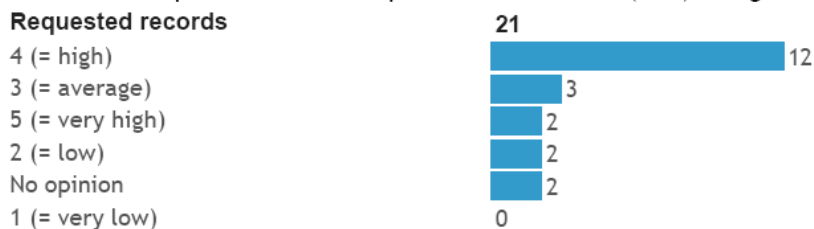

B.3.1 FP6 Relevance - ERA - in your country:

Based on your own observations and the feedback received from researchers and stakeholders in your country, how would you rate the contribution of FP6 research activities - in your country - towards the development of the European Research Area (ERA)? -single choice reply- (compulsory)

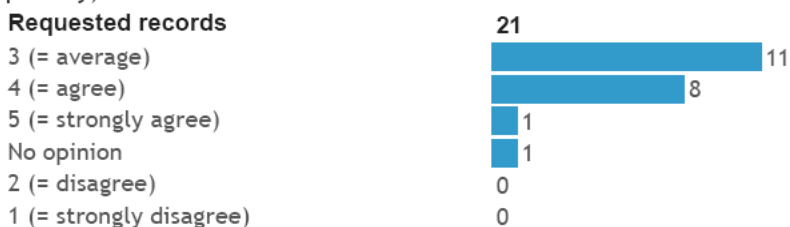

B.3.2 FP6 Relevance - ERA - in general:

Based on your own observations and the feedback received from researchers and stakeholders in your country, how would you rate the contribution of FP6 research activities - for FP6 in general - towards the development of the European Research Area (ERA)? -single choice reply- (compulsory)

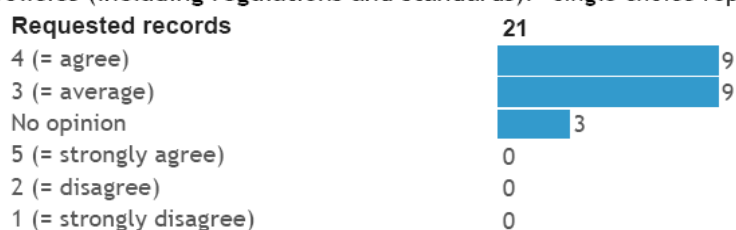

B.4 FP6 Effectiveness:

Based on your own observations and the feedback received from researchers and stakeholders in your country, do you think that the FP6 Work Programmes and the FP6 instruments/funding schemes constituted the best way of achieving the overall objectives of FP6? -single choice reply- (compulsory)

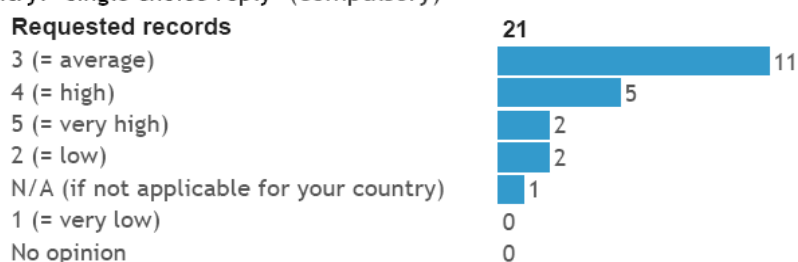

B.5 FP6 Impact - EU level:

Based on your own observations and the feedback received from researchers and stakeholders in your country, do you think that FP6 research activities have or will have an identifiable impact on EU policies (including regulations and standards)? -single choice reply- (compulsory)

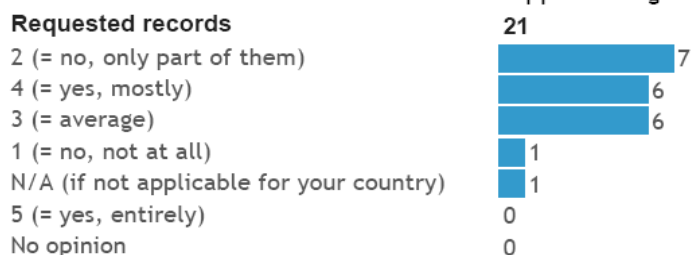

B.6.1 FP6 Impact - in your country (1):

Based on your own observations and the feedback received from researchers and stakeholders in your country, how would you rate the level of sustainable impacts of FP6 research activities in your country? -single choice reply- (compulsory)

B.6.2 FP6 Impact - in your country (2):

Based on your own observations and the feedback received from researchers and stakeholders in your country, do you think that the effects of FP6 research activities in your country are likely to continue in the absence of EU intervention or support? -single choice reply- (compulsory)

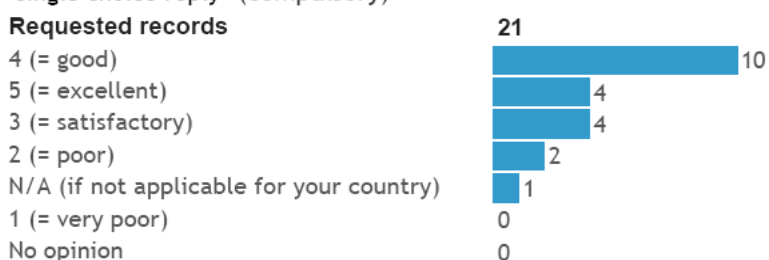

B.7.1 FP6 Implementation - available information:

Based on your own observations and the feedback received from researchers and stakeholders in your country, how would you rate the information received on FP6 calls? -single choice reply- (compulsory)

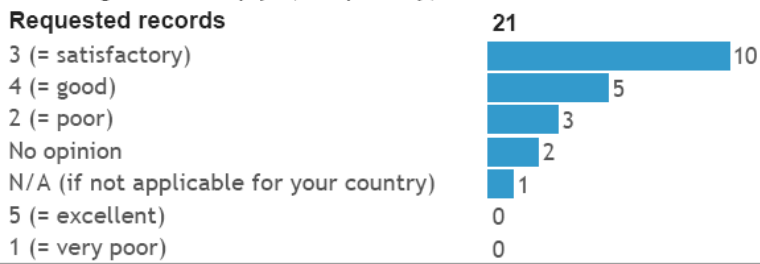

B.7.2 FP6 Implementation - proposal evaluation procedures:

Based on your own observations and the feedback received from researchers and stakeholders in your country, how would you rate the procedures for the evaluation of proposals submitted under FP6? -single choice reply- (compulsory)

B.7.3 FP6 Implementation - contract negotiations:

Based on your own observations and the feedback received from researchers and stakeholders in your country, how would you rate the handling of FP6 contract negotiations by Commission Services? -single choice reply- (compulsory)

B.7.4 FP6 Implementation - project management:

Based on your own observations and the feedback received from researchers and stakeholders in your country, how would you rate the management of FP6 projects by Commission Services? -single choice reply- (compulsory)

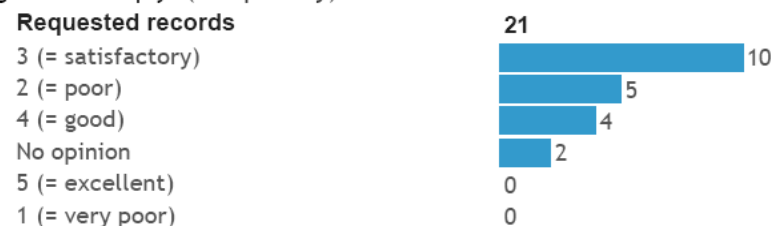

B.7.5 FP6 Implementation - simplification:

Based on your own observations and the feedback received from researchers and stakeholders in your country, do you think that FP6 was/is getting simpler to use in terms of administrative and financial procedures, compared to previous Framework Programmes? -single choice reply- (compulsory)

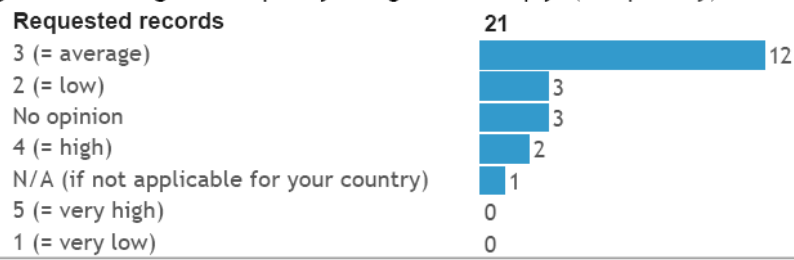

B.7.6 FP6 Implementation - dissemination of project findings:

Based on your own observations and the feedback received from researchers and stakeholders in your country, how would you rate the communication and dissemination of project findings in FP6? -single choice reply- (compulsory)

B.8.1 Gender Equality in FP6 - in your country:

Based on your own observations and the feedback received from researchers and stakeholders in your country, how would you rate the extent of FP6 contribution - in your country - to making progress towards gender equality? -single choice reply- (compulsory)

B.8.2 Gender Equality in FP6 - in general:

Based on your own observations and the feedback received from researchers and stakeholders in your country, how would you rate the extent of FP6 contribution - for FP6 in general - to making progress towards gender equality? -single choice reply- (compulsory)
