

The European Network of Mobility Centres

Launched in 2004, the ERA-MORE network counts about 200 Mobility Centres and numerous local contact points in 32 different countries, providing personalised assistance to mobile researchers from inside and outside Europe.

Are you a researcher interested in working abroad?
Want to return home following a period in another country?
Need practical advice and information?

What the Mobility Centres can offer you:

- *Career development* – Information on job and funding opportunities abroad, or advice on reintegration as a researcher in your home country.
- *Legal issues* – Help with visas and other legal requirements.
- *Social security, health and taxes* – Information and advice on how to ensure adequate social security, health and pension coverage. Assistance in understanding taxation issues.
- *Everyday life* – Information and assistance on all matters related to settling down in a host country.
- *Family support* – Practical and legal assistance for researchers with accompanying family on matters such as schooling and child care.

Find career opportunities and practical information on the European Researchers Mobility Portal:
