Infrastructures & Airports Unit
Cesare Barnabei**

Airport Research Activities in support of Policy

Airport Package presented by DG-TREN

➤ Including :

- ✓ Airport Charges Directives
- ✓ Airport Capacity Communication
- ✓ Report on Ground Handling Directive Implementation

Has been adopted by the EC on 24.01.2007

Airport Research Activities in support of Policy

The Airport Capacity Communication

Includes proposals for enhancing the throughput of passengers and aircraft at European airports while maintaining the highest level of safety, both for operations at the airside and the landside.

Airport Research Activities in support of Policy

Cooperation Theme 7

- **Activity: 7.1.4 Improving Cost Efficiency**
 - ❖ **Area: 7.1.4.3 Air transport system
Operational Cost**
 - **AAT.2007.4.3.3. Airports**

Airport Research Activities in support of Policy

- **AAT.2007.4.3.3. Airports**

- 1. Advanced fleet management concepts and techniques for fast turnaround at the apron area and its relation with terminal operations**

Airport Research Activities in support of Policy

- **AAT.2007.4.3.3. Airports**

2. Advanced concepts and techniques for cost efficient passenger and luggage flow in the terminal area

Airport Research Activities in support of Policy

- **AAT.2007.4.3.3. Airports**

3. Development of advanced concepts and techniques for improved airport operations specific to freighters

Airport Research Activities in support of Policy

Call Title:

FP7-Aeronautics and Air Transport (AAT) 2007– TREN-1

- **Published: 22/12/2006**
- **Deadline: 3/05/2007 at 17:00 (Brussels)**
- **Indicative Budget: 4 M€**
