

# Research Fund for Coal and Steel

## Priorities of the RFCS Programme for 2017

### COAL

Draft Version

May 2017

## **Priorities of the RFCS Programme for 2017**

### **COAL**

- 1.1 Addressing health or environmental risks during OR after mine operation;
- 1.2 Improved monitoring of coke oven conditions;
- 1.3 Innovative energy conversion cycles to increase revenue streams from coal power generation or steel industry while reducing carbon footprint;
- 1.4 Pilot projects validation of emerging AND innovating technologies leading to efficiency improvements AND CO2 emission reduction.
- 1.5 Pilot/Demonstration projects improving the competitiveness of coal excavating techniques worldwide
