

European Innovation Partnership

Prof George Crooks OBE

**Medical Director NHS 24
Director Scottish Centre for Telehealth and Telecare**

OUR VISION IS THAT BY 2020:

Everyone is able to **live longer healthier lives at home**, or in a homely setting. We will have a healthcare system where we have **integrated health and social care**, a focus on **prevention, anticipation and supported self management**. When hospital treatment is required, and cannot be provided in a community setting, day case treatment will be the norm. Whatever the setting, **care will be provided to the highest standards of quality and safety, with the person at the centre of all decisions**. There will be a focus on ensuring that people get back into their home or community environment as soon as appropriate, with minimal risk of re-admission

The Key to Success for SCOTLAND

Integration of Health and Social Care
Reshaping Care

Education and Training in Telehealth and Telecare

Supportive Self Management Delivering Active and
Healthy Productive Lives
