2. A European Prize for Innovation in Public Administration

The public sector accounts for half of GDP in the EU¹. Therefore, in order to excel and stay competitive, Europe needs to mobilise innovation and modernisation in its public administrations. Awards have a strong potential to drive innovation through the public recognition of achievements and the provision of role models.

The Commission plans to award prizes to successful, already running, and innovative public initiatives. The initiatives, managed by the national, regional or local public administrations, will have made significant improvements in citizens' lives. With this Prize the Commission wants to reward excellence and innovation in strategies, services, networks, processes and infrastructure. All public administrations from EU Member States or Associated Countries of the Research Framework Programme are invited to submit their innovative initiatives or programmes.

The awarded money will be used by the winning public administration to scale up and expand their initiative thereby leveraging and inducing further excellence and innovation in public administration. The Commission will remain in close contact with the winners and ensure follow-up for the implementation of the subsequent stages of their initiatives.

Implementation and management:

The Commission wants to recognise the outstanding achievements of public administrations in the following three categories:

1. Initiatives for **citizens**
(e.g. special assistance for the elderly; eco-friendly public transport; participatory budgeting)²
2. Initiatives for **firms**
(e.g. providing networking platforms for start-ups; supporting rural entrepreneurs with e-trade tools)³
3. Initiatives for **education and research**
(e.g. new approaches to vocational training; fostering a better learning environment for primary schools; facilitating entrepreneurship of researchers⁴)

The High Level Jury evaluating submissions will consist of a group of independent experts from public administration, business and academia appointed by the Commission. The High Level Jury will submit to the Commission a shortlist of up to six initiatives in each category. In each of the three categories, monetary prizes of EUR 0.1 million will be awarded to each of the three best initiatives.
