

## How to submit a ERC- 2018-PoC proposal using html 5

**!! Warning:** Due to the change from pdf to html 5 in the submission administrative forms, we strongly recommend potential applicants to start getting familiar with the application form well ahead the deadline.

Proposals that fail to be submitted by the deadline will not be evaluated.

It is highly recommended to submit your proposal as early as possible and at least 48 hours prior to the deadline of this call. This will avoid being confronted with incompatible local IT configuration settings shortly before the call deadline, when insufficient time would be left to handle it. There is no reason in delaying the submission for confidentiality concerns as the system does not allow any access to the proposals before call deadline or cut-off (other than to selected data that is part of the Submission and Evaluation of Proposals Assent Disclaimer).

You can submit the proposal as many times as you wish up to the deadline. Every submitted version will replace the previously submitted one.

Frontier research often generates unexpected or new opportunities for commercial or societal application. The ERC Proof of Concept Grants aim to maximise the value of the excellent research that the ERC funds, by funding further work (i.e. activities which were not scheduled to be funded by the original ERC frontier research grant) to verify the innovation potential of ideas arising from ERC funded projects. Proof of Concept Grants are therefore on offer only to Principal Investigators whose proposals draw substantially on their ERC funded research.

## Good to know:

Add Partner ?

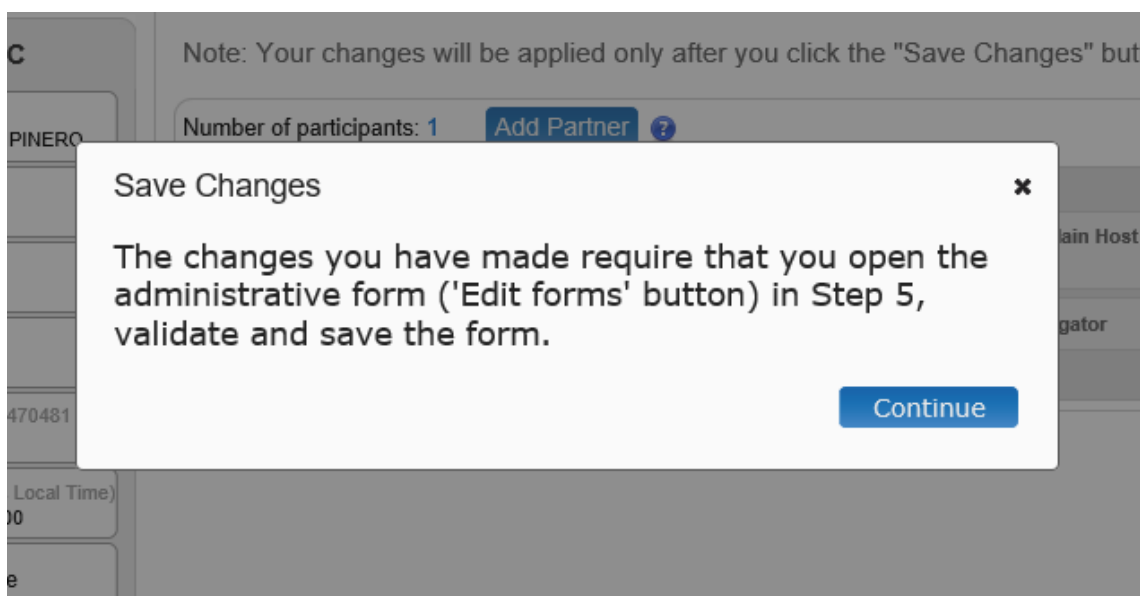

### Add contact (where applicable):

- You can manage the list of organisations and access right of persons at Step 4. You may identify and give access to as many contact persons of the selected organisations as you wish. The identification is based upon the e-mail address of the person. When you add a contact person, you will be prompted to supply the contact details: name, e-mail, phone.
- **Main contact person:** Each organisation needs to have one main contact person identified; the main contact person will have to fill in full contact details in the administrative form. The 'Main Contact Person' for the coordinating organisation (Participant no. 1) will become the primary contact person for the Services. Other contact persons may also be identified and may receive read-only or full access rights. Contact persons with full access rights of the coordinator (Participant no. 1) will be called 'Coordinator contacts' in the Participant Portal, while for the other participants 'Participant Contacts'; contact persons with read-only rights will be called 'Team Members'. Other contact persons are listed with basic details in the administrative form.
- **Access rights:** The main contact person and contact persons of the coordinator with full access rights have the same level of rights: they can manage the list of participants and contacts, edit any part of the administrative part of the proposal and upload any attachments (eg. technical annex), and submit the proposal. Contact persons with read-only rights can only view/download the information. Participant contacts with full access rights can only edit their section of the administrative form and view all proposal data.
- Access rights can be revoked by the Coordinating Organisation contacts. The person who created the proposal cannot be deleted.
- **Invitation:** All contacts will receive an e-mail and a notification to the Portal about the invitation to the proposal upon saving the data at Step 4.

### Add partner

- For the primary coordinator contact and the first participant contact, the information supplied here is pushed into the administrative forms
- In the forms it is read only, you must return here if you wish to edit it (press "back" on Step 5)
- The email address is mandatory; it is used to both grant access via the ECAS system and to send an email invitation
- You cannot change the email address – please delete the contact and re-add if necessary
- Please ask the contact if they have an existing ECAS account and use the corresponding email where possible
- If they don't have an ECAS account then use the email they supply to you, an ECAS account will be created and an email sent to the contact with details on how to validate

4. **!!** Due to HTML5 configuration, in order to save the changes made in step 4 you will have to further validate the information on the administrative forms in Step 5.- Please do not submit a proposal in the last minute to avoid this kind of surprises.

## STEP 5: Edit Proposal

1. Please download the templates to submit a proposal in rtf in Step 5. **!!** Please note Part B templates have been modified from last year, so make sure the applicant uses the correct templates.

The screenshot shows a vertical list of proposal details in a light grey box. Each item has an icon on the left and text on the right. The items are: 'TOPIC ERC-2018-PoC' with a cloud icon; 'TYPE OF ACTION ERC-POC' with a hand icon; 'ACRONYM test' with 'A.B.C.' and a grid icon; 'DRAFT ID | SEP-210470481' with a person icon; 'DEADLINE (Brussels Local Time) January 2018 17:00:00' with a calendar icon showing 'TUE 16'; and '124 days left until closure' with a green box containing '124'. Below this is a 'Configuration OK' status with a green checkmark. A prominent blue button says 'Download Part B Templates' with a download icon. Two links are at the bottom: 'Visit our 'How to' user guide' and 'Visit our 'H2020 Online Manual'', both with external link icons.
