B. Standard admissibility conditions, page limits and supporting documents

1. For all actions under this Work Programme, proposals/prize applications must comply with the admissibility conditions set out in this Annex, unless they are supplemented or modified in the call conditions or rules of contest.

To be considered **admissible**, a proposal/application must be:

(a) submitted in the electronic submission system before the deadline given in the call conditions or rules of contest;

(b) readable, accessible and printable;

(c) **complete** and include the requested administrative data, the proposal description, and any obligatory supporting documents specified in the call/contest;

(d) include a **draft plan for the exploitation and dissemination** of the results, unless otherwise specified in the call conditions. The draft plan is not required for proposals at the first stage of two-stage procedures.

2. In addition to the above admissibility conditions, **page limits** will apply to parts of proposals/applications. The page limits and sections subject to limits, will be clearly shown in the proposal templates in the Participant Portal electronic submission system. Unless stated otherwise in the call conditions, the limit for a full proposal is 70 pages, except for:

Coordination and support actions (CSA) and ERA-NET Cofund actions, where the limit is 50 pages and European Joint Programme Cofund actions (EJP), where the limit is 100 pages.

The limit for a first-stage proposal is 10 pages.

For prize applications, any specific limits will be set in the Rules of Contest.

If a proposal/application exceeds the limits, the applicant will receive an automatic warning, and will be advised to re-submit a version that conforms.

After the call deadline, excess pages (in over-long proposals/applications) will be automatically made invisible, and will not be taken into consideration by the experts.

Proposals must be written in a legible font, further guidance on the use of fonts, margins and other page formatting will be included in the proposal templates.

The structure of proposals must correspond to the requirements specified under each section of the proposal template.

3. The following supporting documents will be required to determine the **operational capacity** of each applicant in grant proposals, unless otherwise specified in the call:

- A curriculum vitae or description of the profile of the persons who will be primarily responsible for carrying out the proposed research and/or innovation activities;

- A list of up to five relevant publications, and/or products, services (including widely-used datasets or software), or other achievements relevant to the call content;

- A list of up to five relevant previous projects or activities, connected to the subject of this proposal;

- A description of any significant infrastructure and/or any major items of technical equipment, relevant to the proposed work;

- A description of any third parties that are not represented as project partners, but who will nonetheless be contributing towards the work (e.g. providing facilities, computing resources).

This scrutiny will be carried out by the evaluators during the evaluation process under the selection criteria, in particular the award criterion 'Quality and efficiency of the implementation'. Please refer to General Annex H "Evaluation rules".
