The Consumer Programme is intended to complement, support and monitor the policies of the Member States and to contribute to protecting the health, safety and economic and legal interests of consumers, as well as to promote their right to information, to education and to organise themselves in order to safeguard their interests, supporting the integration of such consumer interests into other policy areas.

Its specific objectives are:

1.3. Consumers, Health, Agriculture and Food Executive Agency

Consumers, Health, Agriculture and Food Executive Agency (hereafter Chafea) replaces and supersedes, from 1st January 2014 the Executive Agency for Health and Consumers (EAHC). Chafea is, inter alia, entrusted by the European Commission with the implementation of parts of the Consumer programme and will be in charge of this invitation.

1.4. The present call for proposals

The applicants must have stable and sufficient sources of funding as well as the necessary professional resources, skills and experience required in order to carry out the proposed actions. The verification of the financial capacity will not apply to public bodies.

In case co-funding will be awarded, the financial viability of all beneficiaries will be assessed, except if:

- a) the EU-contribution for the coordinator / other beneficiary is \leq EUR 60 000
- b) the beneficiary is a public body

The documents that will be requested when assessing the financial viability include:

- The annual accounts (including the balance sheet and the profit and loss statement) for the past financial year for which the accounts were closed (for newly created entities, the business plan shall be submitted to replace the closed accounts);

- (4) Balanced and fair distribution of tasks and activities between the participants in joint actions **(15 points)**;
- (5) Clarity and quality of the objectives, work plan including communication activities, organisation and description of the results and benefits expected **(30 points)**.

10. LEGAL COMMITMENTS

Following the evaluation, Chafea establishes a list of proposals recommended for funding, ranked according to the total number of points awarded. Depending on budget available, the highest ranked proposal(s) will be awarded co-funding.

In the event of a grant awarded, the coordinator is invited to enter in an adaptation period via an electronic submission system. If successful, this should result in a grant agreement, drawn up in euro and detailing the conditions and level of funding.

Grant agreement: must be signed electronically first by the coordinator on behalf of the consortium and then by Chafea. All co-beneficiaries must accede to the grant agreement by signing it electronically.

11. FINANCIAL PROVISIONS

Applicants need to conform to the principles and rules as set out by the EU Financial Regulation, i.e. the financial rules applicable to the general budget of the Union and the related rules of application of the financial regulation and most importantly provisions under Title VI (Grants).

This section provides information on the general aspects of financial management of a grant in order to have a better understanding of the applicable principles and rules that need to be taken into account within the context of preparing and submitting your application

As already stated earlier, the EC contribution will, in principle, be up to 50% and in no event exceed 70% of the total cost of the action in the case of exceptional utility.

Financial contributions of up to 50% are permitted for joint actions with the participation of bodies from at least 5 Member States.

The effective implementation of the General Product Safety Directive will be reinforced if a large number of eligible bodies from different Member States are involved in the action. Actions which involve a large number of Member States are considered of **exceptional utility**.

Actions shall be considered as of exceptional utility where they involve at least 10 Member States taking part in the European network of Member States' competent authorities for product safety referred to in Article 10 of Directive 2001/95/EC or they contribute to the implementation of market surveillance activities in the field of product safety that have been provided for in a Union legal act.

11.1. General Principles applicable to grants providing EU-co-funding

Grants awarded under the Consumer programme must comply with the following principles:

a) Principle of non-cumulative award

An action may only receive one grant from the EU budget.

In no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate the sources and amounts of Union funding received or applied for the same action or part of the action or for their functioning during the same financial year as well as any other funding received or applied for the same action.

b) Principle of non-retroactivity

No grant may be awarded retrospectively for actions already completed.

A grant may be awarded for an action, which has already begun only where the applicant can demonstrate the need to start the action before the grant agreement is signed.

In such cases, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

c) Principle of co-financing

Co-financing means that the resources which are necessary to carry out the action may not be entirely provided by the EU grant.

Co-financing of the action may take the form of:

- the beneficiary's own resources,
- income generated by the action,
- financial contributions from third parties.

d) No-profit principle

Grants shall not have the purpose or effect of producing profit. Profit is defined as surplus of the receipts over eligible costs incurred by the beneficiary at the time of payment request.

Other principles:

- Balanced budget

The estimated budget of the action is to be attached to the application form. It must have revenue and expenditure in balance. The budget must be drawn up in euros.

- Implementation contracts/subcontracting

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the beneficiary must award the contract to the bid offering best value for money or the lowest price (as appropriate), avoiding conflicts of interests and retain the documentation for the event of an audit.

For public bodies: entities acting in their capacity of contracting authorities in the meaning of **Directive 2014/24/EU of the European Parliament and of the Council of 26 February 2014 on public procurement and repealing Directive 2004/18/EC** or contracting entities in the meaning of **Directive 2014/25/EU of the European Parliament and of the Council of 26 February 2014 on procurement by entities operating in the water, energy, transport and postal services sectors and repealing Directive 2004/17/EC Text with EEA relevance** shall abide by the applicable national public procurement rules.

Sub-contracting, i.e. the externalisation of specific tasks or activities which form part of the action as described in the technical proposal must satisfy the conditions applicable to any implementation contract (as specified above) and in addition to them the following conditions:

- it may only cover the implementation of a limited part of the action;
- it must be justified having regard to the nature of the action and what is necessary for its implementation;
- it must be clearly stated in the proposal.

11.2. Form of the grant

The grant is a partial reimbursement of the action's total eligible costs at the reimbursement rate defined above. The grant is expressed both as a maximum amount and also as a pre-defined percentage of the eligible costs.

In other words, the grant has a double ceiling: the maximum amount and the reimbursement rate are applied on the total eligible cost.

➤ Definitions of Eligible and Ineligible costs

Eligible costs are actually incurred by the beneficiary of a grant and meet all the criteria indicated in Article 6 of the grant agreement.

- Eligible (direct and indirect) costs are indicated in the grant agreement (see Articles 6.1., 6.2. and 6.3.);
- Ineligible costs are indicated in the grant agreement (see Article 6.4.).

Please note that contributions in kind are not considered eligible costs.

➤ Determination of the final grant amount

Chafea establishes the final amount of the grant to the coordinator and the other beneficiaries after completion of the action, and upon approval of the final technical and financial reports containing the documents indicated in the grant agreement.

The final grant amount is calculated as indicated in the grant agreement (see Article 5).

EU grants may not have the purpose or effect of producing a profit. **Profit shall be defined as a surplus of the receipts over the eligible costs incurred by the beneficiary**, when the request is made for payment of the balance. In this respect, where a profit is made, Chafea shall be entitled to recover the percentage of the profit corresponding to the final rate of reimbursement of eligible actual costs approved by the Agency.

11.3. Payment scheme

Payments will be made to the coordinator. The coordinator must distribute the payments between the beneficiaries without unjustified delay.

Chafea will transfer a pre-financing payment (see Article 16.2) to the coordinator within 30 days either from the entry into force of the Agreement (see Article 42) or from 10 days before the starting date of the action (see Article 3), provided all requested guarantees have been received, whichever is the latest. All other beneficiaries have to sign the accession forms before the coordinator distribute the pre-financing.

Chafea will make an interim payment (see Article 16.3) to reimburse the actual eligible costs incurred to implement the action during a given reporting period. The number of interim payments will be set in the grant agreement. Interim payments are subject to the approval of the periodic report with the corresponding deliverables and the declaration of actual costs incurred by the beneficiaries. The maximum amount of the interim payments

(including the amount of pre-financing) is limited to the 90% of the maximum grant amount as set out in the grant agreement.

Chafea will establish the amount of the final payment to be made to the coordinator on the basis of the calculation of the final grant amount (see section 11.2 above). If the total amount of earlier payments is greater than the final grant amount, the payment of the balance takes the form of a recovery.

If the total amount of earlier payments is lower than the final grant amount, the Agency will pay the balance. Payment is subject to the approval of the final report.

For more details, please see Article 16 of the grant agreement.

11.4. Pre-financing guarantee

In the event that the applicant's financial capacity is not satisfactory, measures may be taken in order to limit the financial risks linked to the pre-financing payment. These may include requesting for a pre-financing guarantee for up to the same amount as the pre-financing or split the payment into several instalments.

If requested, the financial guarantee, in euro, shall be provided by an approved bank or financial institution established in one of the Member State of the European Union. When the beneficiary is established in a third country, the authorising officer responsible may agree that a bank or financial institution established in that third country may provide the guarantee if he considers that the bank or financial institution offers equivalent security and characteristics as those offered by a bank or financial institution established in a Member State. Amounts blocked in bank accounts shall not be accepted as financial guarantees.

The guarantee may be replaced by a joint and several guarantees by a third party or by the irrevocable and unconditional joint guarantee of the beneficiaries of an action who are parties to the same grant agreement.

The guarantee shall be released as the pre-financing is cleared against payments of balances to the beneficiary, in accordance with the conditions laid down in the grant agreement (Article 16.2).

No financial guarantee will be requested for a beneficiary receiving an EU contribution of EUR ≤60. 000 (low value grants).

12. PUBLICITY

12.1. By the beneficiaries

Beneficiaries must clearly acknowledge the European Union's contribution in all publications or in conjunction with activities for which the grant is used in line with Article 22 of the grant agreement.

In this respect, beneficiaries are required to give prominence to the name and emblem of the European Union on all their publications, posters, programmes and other products realised under the co-financed project.

To do this they must use the text, the emblem and the disclaimer available at http://ec.europa.eu/eahc/management/visual_identity.html .

If this requirement is not fully complied with, the beneficiary's grant may be reduced in accordance with the provisions of the grant agreement.

12.2. By the Executive Agency / the Commission

With the exception of scholarships paid to natural persons and other direct support paid to natural persons in most need, all information relating to grants awarded in the course of a financial year shall be published on an internet site of the European Union institutions no later than the 30 June of the year following the financial year in which the grants were awarded.

The following information will be published:

- name of the beneficiary;
- address of the beneficiary when the latter is a legal person, region where the beneficiary is a natural person, as defined on NUTS 2 level⁴ if he/she is domiciled within EU or equivalent if domiciled outside EU;
- subject of the grant;
- amount awarded.

Upon a reasoned and duly substantiated request by the beneficiary, the publication shall be waived if such disclosure risks threatening the rights and freedoms of individuals concerned as protected by the Charter of Fundamental Rights of the European Union or harm the commercial interests of the beneficiaries.

13. DATA PROTECTION

The reply to any call for proposals involves the recording and processing of personal data (such as name, address and CV). Such data will be processed pursuant to Regulation (EC) No 45/2001 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data.
