### **Work Programme for 2019 for Regulation (EU) No 1382/2013 of the European Parliament and of the Council of 17 December 2013 establishing a Justice Programme for the period 2014 to 2020**

#### **1. INTRODUCTION**

The Justice programme is the Union's programme having as general objective to contribute to the further development of a European area of justice based on mutual recognition and mutual trust, in particular by promoting judicial cooperation in civil and criminal matters. As set out in the Justice Programme legal base<sup>1</sup>, to achieve this objective the programme shall have to:

- (a) facilitate and support judicial cooperation in civil and criminal matters;
- (b) support and promote judicial training, including language training on legal terminology, with a view to fostering a common legal and judicial culture;
- (c) facilitate effective access to justice for all, including to promote and support the rights of victims of crime, while respecting the rights of the defence;
- (d) to support initiatives in the field of drugs policy as regards judicial cooperation and crime prevention aspects closely linked to the general objective of the Programme.

Effective justice systems play a crucial role for upholding the rule of law and the values upon which the EU is founded. This was emphasised by the President of the European Commission in his 2017 State of the Union address where he stated '*The rule of law is not optional in the European Union. It is a must. The rule of law means that law and justice are upheld by an independent judiciary*'<sup>2</sup>. Moreover, well functioning justice systems are key for the implementation of EU law and for the strengthening of mutual trust, which is a prerequisite for well-functioning judicial cooperation; they contribute to building an investment-friendly environment and maintaining sustainable growth. The Annual Growth Survey 2018<sup>3</sup>, recognises the link between a business-friendly environment on the one hand and the rule of law and improvement in the independence, quality and efficiency of justice systems on the other.

The Annual Work Programme (AWP) for 2019 under the Justice programme closely reflects the priorities established in the Commission's work programme for 2019<sup>4</sup> and will contribute to the Commission's priority "*An area of Justice and Fundamental Rights Based on Mutual Trust*". Many of the training activities and most of the activities in the field of judicial cooperation in criminal matters can be linked to the European Security Agenda<sup>5</sup> and the judicial response to terrorism. The year 2019 will be the year of consolidation of results, mostly investing in recurrent activities, and to a smaller extent in new ones.

#### *Judicial cooperation*

Ensuring the correct application and enforcement of the considerable existing EU acquis relating to judicial cooperation in civil and criminal matters is key. In the area of civil justice, some of this EU acquis has now been revised in order to increase efficiency and better respond to the needs of citizens and practitioners. This requires a particular focus on the implementation and evaluation, both through specific Commission actions and support to key actors via action and operating grants. As shown by the Commission Report of March 2016<sup>6</sup>, the European Judicial Network in civil and commercial matters is a very useful tool in this regard and plays a fundamental function when it comes to the implementation and effective application of available Union instruments in the area of civil justice.

Following a first call launched in 2018 for national networks dealing with civil justice cooperation, continuity of the funding is assured in order to allow the Member States (and candidate countries) to firmly establish and fully develop national judicial cooperation networks. The objective of the funding for such networks is twofold – the organisation of national judicial cooperation networks for Member States who do not have them and the strengthening of functioning of existing networks. Various activities according to national needs are considered.

In the area of judicial cooperation in criminal matters, there is a need to ensure the proper application of the instruments implementing the principle of mutual recognition in criminal matters, particularly with regard the European Arrest Warrant, the three Framework Decisions on detention and alternative measures to detention<sup>7</sup> and Directive 2014/41/EU<sup>12</sup> regarding the European Investigation Order. There are still many obstacles that prevent the smooth functioning of judicial cooperation procedures under the existing Union instruments which first need to be identified before they can be addressed. The developing jurisprudence of the ECJ also has an important impact on the functioning of judicial cooperation instruments. Furthermore, in the digital age, judicial cooperation needs to make full use of electronic tools. As criminals also increasingly rely on electronic means of communication, access to electronic evidence in the framework of criminal investigations needs to be improved<sup>8</sup>. Follow-up work on detention issues needs to continue, including on radicalisation in prisons.

The AWP will also continue supporting the operational set-up of the European Public Prosecutor's Office (EPPO)<sup>9</sup>.

### *Judicial training*

As in the previous years, significant resources will be devoted to the training of judges, prosecutors and other justice professionals on civil and criminal law instruments and on fundamental rights. Training is key for the correct application of the already adopted

<sup>8</sup> The Commission proposed on 17 April 2018 new rules in the form of a [Regulation](#) and a [Directive](#), which will: create a European Production Order, a European Preservation Order, include strong safeguards, oblige service providers to designate a legal representative in the Union, provide legal certainty for businesses and service providers.

instruments and building bridges between different justice systems. Moreover, judicial training is a component of the 2018 Commission Work Programme<sup>10</sup> both regarding the priority "*An Area of Justice and Fundamental Rights Based on Mutual Trust*" and the priority "*a Union of democratic change*":

- it is a tool to build the European area of justice, where EU law is applied correctly and coherently across the EU and where mutual trust allows smooth cross-border judicial cooperation;
- it is also a tool of the "more democratic Union" and of "delivering better on the ground – better regulation, implementation and enforcement", in line with the 2016 Communication on "*EU law: better results through better application*"<sup>11</sup>.

The European Training Platform will be rolled-out in 2019 as part of the European e-Justice Portal.

### *Access to justice*

As far as the area of criminal justice is concerned, there is a need to continue ensuring the implementation of the EU directives adopted in the field of procedural rights of suspects and accused persons and to raise awareness about the legislation adopted in this area; to continue monitoring the correct transposition of instruments in the field of procedural rights, notably Directive (EU) 2016/1919<sup>12</sup> on legal aid for suspects and accused persons in criminal proceedings and for requested persons in European arrest warrant proceedings and Directive (EU) 2016/800<sup>12</sup> on procedural safeguards for children who are suspects or accused persons in criminal proceedings, which need to be transposed by 5 May and 11 June 2019 respectively. It is also necessary to explore possible further developments in the area of procedural rights.

Similarly, in the field of victims' rights, there is a need to continue ensuring the implementation of the EU rules in the field of victims' rights and to raise awareness about the legislation in this area, notably Directive 2012/29<sup>12</sup> on victims' rights, the Council Directive 2004/80<sup>12</sup> on compensation and the EU rules on protection orders.

The Commission also intends to pursue an information collection exercise through the EU Justice Scoreboard.

Work will also continue on the creation of more effective and efficient justice systems and the facilitation of citizens' access to justice by digital means. The European e-Justice Portal has been in operation since July 2010 and since its launch, has been built upon with new dynamic functionalities (e.g. 1<sup>st</sup> interconnection of national insolvency registers, Find a lawyer, Find a notary, ECLI search engine, Competent Court Database, Business Registers Interconnection System Access Point, etc.). Activities related to the evolutive and corrective maintenance of the e-Justice Portal will continue in 2019. The general objective for 2019 is to tackle new initiatives which will be identified in the European e-Justice Strategy and Action Plan 2019-2023. This will be accomplished by supporting the implementation of e-Justice projects, insofar as project initiatives have a European dimension. In 2019, work on e-Justice will be complementary to the Connecting Europe Facility (CEF) programme which closely relates to the establishment of the Digital Single Market<sup>13</sup>. As part of the CEF e-Justice Digital Service

<sup>13</sup> DG CONNECT manages the CEF programme.

Infrastructure (DSI), co-funding opportunities are provided for select e-Justice projects which are in a mature state and re-use the so called "CEF building blocks".

*EU drugs policy.*

The AWP will continue supporting in 2019 initiatives in the field of drugs policy as regards judicial cooperation and crime prevention aspects closely linked to the general objective of the Programme. Priority will be given to supporting: (a) activities in the area of epidemiology of use of new psychoactive substances as well as emerging drug problems and technological developments, including online trade of drugs; (b) key stakeholders and the civil society organisations active in the area; and (c) the practical application of drug-related research, and, in particular, addiction research with a view of addressing current challenges and new threats.

**OVERVIEW FOR 2019**

The initial financial envelope of € 377 604 000 for the Justice programme implementation for the period 2014-2020 has been recently reduced entailing for 2019 a budget reduction of roughly 9 million (or 20%) as compared to the initial financial programming allocation. To address this important cut, the budget available is concentrated on the most important priorities and necessary recurrent activities. This AWP thus strives to focus the funding, identify economies of scale and ensure a realistic and effective approach in planning. The allocation per specific objective is as follows:

<b>Specific objectives – Budget lines</b>	<b>Total Amount</b>	<b>% of the 2019 Programme funds</b>
Judicial cooperation – Budget line 33 03 02	€ 11 600 000	26.56 %
Judicial training – Budget line 33 03 01	€ 17 570 000	40.23 %
Access to justice – Budget line 33 03 01	€ 11 630 000	26.63 %
EU drugs policy – Budget line 18 06 01	€ 2 875 000	6.58 %
<b>TOTAL</b>	<b>€ 43 675 000</b>	<b>100.00 %</b>

About 78% of the 2019 budget or € 33 990 000, will be used to fund activities via grants while the remaining 22% or € 9 685 000 will fund activities via procurement.

In total five calls for proposals for action grants are planned to support transnational projects in:

1. judicial cooperation in civil and criminal matters;
2. judicial training covering civil law, criminal law or fundamental rights;
3. the area of e-Justice;
4. enhancing the rights of persons suspected or accused of crime and the rights of victims of crime;
5. the area of EU drugs policy.

Moreover, three types of operating grants for 2020 are planned for:

1. Framework Partnership Agreements in the area of facilitating and supporting judicial cooperation in civil and/or criminal matters;
2. the European Judicial Training Network (beneficiary identified in the legal base);
3. Framework Partnership Agreements in the area of access to justice.

The actions referred to in the present work programme, in particular grants, may benefit from the use of simplified cost options (lump sums, reimbursement on the basis of unit costs, flat rate financing etc.) and simpler rules for in kind contributions by beneficiaries.

At present, the countries participating in the Programme are all EU Member States with the exception of the United Kingdom and Denmark as well as Albania and Montenegro<sup>14</sup>. Should third countries, i.e. EFTA States that are party to the EEA, or candidate countries, potential candidates and countries acceding to the Union, conclude an agreement with the Union on their participation in the Programme as of 2019, this will be announced in the relevant call for proposals and/or on the Programme's website.

Activities implemented under this work programme shall ensure consistency, complementarity and synergies with activities supported by other Union instruments including, inter alia: the Rights, Equality and Citizenship Programme; in the area of home affairs, such as the Instrument for financial support for police cooperation, preventing and combating crime, and crisis management, as part of the Internal Security Fund; in the areas of health and consumer protection, such as the third Programme for the Union's action in the field of health (2014-2020); in the areas of education, training, youth and sport, such as the Erasmus+ Programme, Erasmus for Young Entrepreneurs, MobiliseSME; in the areas of information society and research, such as the Connecting Europe Facility and the Horizon 2020 Framework Programme; and enlargement, in particular the Instrument for Pre-accession Assistance (IPA II). Coordination within the EU legal and policy framework on trafficking in human beings, as relevant, shall be ensured.

The Programme shall finance actions with European added value. The European added value of actions, including that of small-scale and national actions, shall be assessed in the light of criteria such as their contribution to the consistent and coherent implementation of Union law, and to wide public awareness about the rights deriving from it, their potential to develop mutual trust among Member States and to improve cross-border cooperation, their transnational impact, their contribution to the elaboration and dissemination of best practices or their potential to create practical tools and solutions that address cross-border or Union-wide challenges.

All activities implemented under this work programme shall respect and shall be implemented in line with the rights and principles enshrined in the Charter of Fundamental Rights of the European Union and promote gender mainstreaming and the rights of the child.

## **ESSENTIAL SELECTION AND AWARD CRITERIA FOR ACTION GRANT CALLS**

---

<sup>14</sup> The Commission adopted on 17 May 2018 a Decision approving an Agreement, in the form of a Memorandum of Understanding (MoU), on the participation of Montenegro in the EU Justice Programme. As of 13 September 2018, date on which this MoU was signed, Montenegro is an eligible country under the Justice programme.

The essential selection and award criteria to be used for all action grant calls are described in section 6 of this Annex.

- other (2.5):	€ 35 000
<b>TOTAL:</b>	<b>€ 11 600 000</b>

### **2.2. Action Grants**

#### **2.2.1. Topic 1 – Call for proposals for action grants to support national and transnational projects to promote judicial cooperation in civil and criminal matters**

#### **LEGAL BASIS**

Art. 4 and 6(1) Regulation (EU) No 1382/2013

**Specific objective: to facilitate and support judicial cooperation in civil and criminal matters**

#### **PRIORITIES OF THE YEAR, OBJECTIVES PURSUED**

The main objective is to contribute to the effective and coherent application of the EU acquis relating to judicial cooperation in civil and criminal matters.

There are three priorities for 2019:

#### **1. Judicial cooperation in civil matters**

The aim is to promote judicial cooperation in civil matters and to contribute to the effective and coherent application and enforcement of EU instruments.

Priority shall be given to projects aiming in particular at:

- better enforcement of judicial decisions through better procedures, case-handling and cooperation in cross-border disputes;
- improving the situation of children involved in civil cases, e.g. through better procedures, case-handling and cooperation in the area of family law, in such areas as parental responsibility, international child abduction, protection of children and maintenance;

improving and/or building-up data collection and statistics on the application of EU civil justice instruments.

#### **2. Judicial cooperation in criminal matters**

The aim is to promote judicial cooperation in criminal matters and to contribute to the effective and coherent application of EU mutual recognition instruments in criminal matters.

- a) Priority shall be given to the implementation and practical application of the following mutual recognition instruments:
- Directive 2014/41/EU<sup>15</sup> regarding the European Investigation Order in criminal matters;
  - Council Framework Decision 2002/584/JHA<sup>15</sup> on the European arrest warrant and the surrender procedures between Member States;
  - Council Framework Decision 2008/909/JHA<sup>15</sup> on the application of the principle of mutual recognition to judgments in criminal matters imposing custodial sentences or measures involving deprivation of liberty for the purpose of their enforcement in the European Union;
  - Council Framework Decision 2008/947/JHA<sup>15</sup> on the application of the principle of mutual recognition to judgments and probation decisions with a view to the supervision of probation measures and alternative sanctions;
  - Council Framework Decision 2009/829/JHA<sup>15</sup> on the application, between Member States of the European Union, of the principle of mutual recognition to decisions on supervision measures as an alternative to provisional detention;
  - Council Framework Decision 2005/214/JHA<sup>15</sup> on the application of the principle of mutual recognition to financial penalties.

A specific priority regarding any particular instrument(s) listed above may be given in the call for proposals.

- b) Priority shall also be given to:
- the efficient contribution to the European Agenda on Security as regards the judicial responses to terrorism, notably on reinforcing the prevention of radicalisation, especially in prisons;
  - issues related to pre-trial detention, in particular raising awareness of case law of the European Court of Human Rights (ECtHR) in this field;
  - the functioning of Mutual Legal Assistance (MLA) Treaties or other Treaties containing provisions on MLA with third States (e.g. EU-US MLA Agreement, Budapest Cybercrime Convention), including with respect to the exchange of electronic data.

Proposals not in line with priorities 1 and 2 may still be awarded funding if applicants can justify this by the necessity to improve the implementation and application of the civil or criminal justice EU acquis on the basis of an evidence-based needs assessment, showing that more activities are required for the proper application of EU law in the field to be covered.

### **3. Support to the members of the European Judicial Network (EJN) in civil and commercial matters and to the national authorities, courts and professional association**

The main objective is to contribute to the effective and coherent application of the EU acquis relating to judicial cooperation in civil and criminal matters.

---

<sup>15</sup> See section 5. Legislative instrument references.

Priority shall be given to supporting the setting up and strengthening of national networks under the EJM in civil and commercial matters in order to ensure better implementation and case-handling under the civil justice legislation.

The aim of strengthened national networks is to promote better implementation of EU civil justice instruments through cooperation, dialogue, sharing of experience, exchange of information and training activities (where appropriate also in liaison with other national systems). Through these activities the national projects would promote full involvement of all national Network members, ensuring interaction at a national level as well as knowledge sharing and gathering of information. It can be expected that this would contribute to increasing the national substantial input to the Network's activities (in particular the Network meetings) and thereby strengthen the action and visibility of the Network as a whole. As a result, this would deepen EU-wide building bridges and mutual trust between different justice systems.

#### **DESCRIPTION OF THE ACTIVITIES**

This topic will cover the following activities:

- analytical activities, such as data collection, surveys, research activities, etc.;
- mutual learning, identifying and exchange of best practices, development of working methods which may be transferable to other participating countries;
- exchange and provision of information and development of information tools;
- capacity building for professionals;
- facilitating cooperation between competent authorities and agencies, legal practitioners and/or service providers (including multi-disciplinary networks at international, national, regional or local levels);
- dissemination and awareness raising activities;
- training activities can also be funded under this call, as long as they are of ancillary nature and not the main purpose of the project.

#### **ESSENTIAL ELIGIBILITY CRITERIA**

To be **eligible**, grant applications must comply with all of the following criteria:

- (a) for priorities 1 and 2:
  - a. the applicants must be public entities or private organisations, duly established in one of the countries participating in the Programme, or international organisation. Organisations which are profit-oriented must submit applications in partnership with public entities or private non-profit-oriented organisations;
  - b. the applications must be transnational and involve organisations from at least two participating countries;
- (b) for priority 3, the application must be submitted by the officially appointed members of EJM in civil and commercial matters, or by the national authorities, courts and professional associations representing the officially appointed members of EJM in civil and commercial matters. Only one application per participating country will be

accepted. Projects do not need to have a transnational aspect.  
(c) the EU grant applied for cannot be lower than € 75 000.

#### **EXPECTED RESULTS**

- Increased capacity of national practitioners, courts and authorities to address issues related to judicial cooperation in civil and criminal matters, and to the application of the Union instruments on civil and civil procedural law, as well as on criminal and criminal procedural law.

#### DESCRIPTION AND OBJECTIVE OF THE IMPLEMENTING MEASURE

On 5 October 2006 the Council of the European Union (EU) adopted a decision on the accession of the European Union to the Hague Conference on Private International Law ("HCCH"). The purpose of this international intergovernmental organisation is to work for the progressive unification of the rules of private international law in the participating countries. Most of the conventions developed by the Hague Conference fall within exclusive or partial external competence of the EU and are part of the EU acquis. Since 2007, the EU, along with its Member States, is a Member of the Hague and has the obligation to contribute a membership fee, in accordance with Art. 9(2) of the Hague's Statute to cover additional administrative expenses arising out of its membership. The Union pursues its international action in relation to civil justice mainly through this international organisation. This covers both legislative action (in the form of civil judicial cooperation conventions as well as implementation of existing Hague Conventions to the benefit of EU citizens).

### 3.2. Action Grants

#### 3.2.1. Topic 2 – Call for proposals for action grants to support transnational projects on judicial training covering civil law, criminal law or fundamental rights

##### LEGAL BASIS

Art. 4 and 6(1) Regulation (EU) No 1382/2013

**Specific objective: to support and promote judicial training, including language training on legal terminology, with a view to fostering a common legal and judicial culture**

##### PRIORITIES OF THE YEAR, OBJECTIVES PURSUED

The objective is to contribute to the effective and coherent application of EU law in the areas of civil law, criminal law and fundamental rights, judicial ethics and the rule of law, by helping to address the training needs of justice professionals in these fields. It also targets the specific training needs of court staff and bailiffs, as well as prison and probation staff.

The priorities of 2019 will concentrate funding on training activities and tools for training providers, as described below, in order to:

1. tackle gaps in training for:
  - (a) court staff and bailiffs, for example by cross-border training activities or exchanges of good training practices, on all areas of EU civil, criminal and fundamental rights law relevant for their judicial work;
  - (b) prison and probation staff, for example by cross-border training activities or exchanges of good training practices, on EU law and fundamental rights relevant for their work, including on countering radicalisation to violent extremism in prison, on the minimum standards laid down by the Council of Europe, or on rehabilitation programmes;
2. support the training of justice professionals, in particular via:
  - (a) seminars with easy linguistic access (for example, by providing interpretation in the languages of all participants, national breakout groups or linguistic programme components) to attract also legal practitioners to cross-border training activities that are reluctant to participate in a seminar in a foreign legal language and therefore have not been reached by previous cross-border training activities;
  - (b) cross-border training activities for multipliers, such as judicial trainers or EU law court coordinators, where there are guarantees that the multipliers will pass on their knowledge to other legal practitioners in a systematic way;
  - (c) training activities with participants from at least two different justice professions, such as judges/prosecutors, judges/lawyers, lawyers/notaries, courts staff/bailiffs, court experts/court interpreters, prison/probation staff, in order to stimulate discussions across judicial professions about the application of EU law and contribute to a European legal culture across professional boundaries.

##### Topics

For priority area 2), the activities may cover EU civil, criminal and fundamental rights law, legal systems of the Member States, judicial ethics and the rule of law, knowledge of cross-

border IT tools and linguistic skills of legal practitioners in areas with particular added value. An evidenced-based training needs assessment for the topic of the training activity is always required.

Priority will notably be given to training on the following topics:

#### *Civil law*

- Legal instruments in civil and commercial matters, in particular:
  - Regulation (EU) No 655/2014<sup>17</sup> establishing a European Account Preservation Order procedure to facilitate cross-border debt recovery in civil and commercial matters;
  - The Business Registers Interconnection System (BRIS), established in Directive 2012/17/EU<sup>17</sup> as regards the interconnection of central, commercial and companies registers;
  - Regulation (EU) 2015/848<sup>17</sup> of the European Parliament and of the Council on insolvency proceedings (recast);
  - Regulation (EU) 2015/2421<sup>17</sup>, in particular the new provisions on service of documents and on oral hearings;
  - Regulation (EU) 2016/1191<sup>17</sup> on promoting the free movement of citizens by simplifying the requirements for presenting certain public documents in the European Union;
- Legal instruments in family matters, in particular:
  - Council Regulation (EC) No 2201/2003<sup>17</sup> concerning jurisdiction and the recognition and enforcement of judgments in matrimonial matters and the matters of parental responsibility (Brussels IIa);

#### *Criminal law*

- Judicial cooperation instruments in criminal matters:
  - Directive 2014/41/EU regarding the European Investigation Order in criminal matters<sup>17</sup>;
  - Council Framework Decision 2002/584/JHA<sup>17</sup> on the European arrest warrant and the surrender procedures between Member States, including the 2017 European Commission Handbook on the European Arrest Warrant and the evolving case-law of the Court of Justice of the EU;
  - The Council Framework Decisions on detention and transfer of prisoners: Framework Decision 2008/909/JHA<sup>17</sup> on the application of the principle of mutual recognition to judgments in criminal matters imposing custodial sentences or measures involving deprivation of liberty for the purpose of their enforcement in the European Union; Council Framework Decision 2008/947/JHA<sup>17</sup> on the application of the principle of mutual recognition to judgments and probation

<sup>17</sup> See section 5. Legislative instrument references.

decisions with a view to the supervision of probation measures and alternative sanctions and Council Framework Decision 2009/829/JHA<sup>18</sup> on the application, between Member States of the European Union, of the principle of mutual recognition to decisions on supervision measures as an alternative to pre-trial detention; as well as the case-law of the European Court of Human Rights on pre-trial detention;

- Instruments on procedural rights in criminal proceedings:
  - Directive 2012/29/EU<sup>18</sup> establishing minimum standards on the rights, support and protection of victims of crime;
  - Directive 2013/48/EU<sup>18</sup> on the right of access to a lawyer in criminal proceedings and in European arrest warrant proceedings, and on the right to have a third party informed upon deprivation of liberty and to communicate with third persons and with consular authorities while deprived of liberty;
  - Directive (EU) 2016/343<sup>18</sup> on the strengthening of certain aspects of the presumption of innocence and of the right to be present at the trial in criminal proceedings;

#### *Fundamental rights*

- The scope and application of the Charter of Fundamental Rights of the EU;
- Council Framework Decision 2008/913/JHA<sup>18</sup> on combating certain forms and expressions of racism and xenophobia by means of criminal law.

#### *Proposals outside of these priority topics*

Since the assessment of European judicial training needs cannot be solely conducted at EU level and is mainly done nationally and even locally, policy priorities mentioned in the annual work programme are indications of possible topics of supported projects. Proposals not in line with these priorities, may still be awarded funding if applicants can justify the suggested training topics by a convincing evidence-based training needs' assessment, showing that more training is needed for the proper application of EU law in the suggested field.

#### **Target group**

This call supports training of members of the judiciary and judicial staff, meaning judges, prosecutors, court officers, other legal practitioners associated with the judiciary, such as lawyers, notaries, bailiffs, insolvency practitioners and mediators, as well as court interpreters and translators, prison and probation staff.

---

<sup>18</sup> See section 5. Legislative instrument references.

### **Distribution of financial support between different topics**

When deciding on the allocation of grants, a fair balance between topics and/or target audience may be sought. Moreover, priority will be given to projects that do not duplicate existing training material or on-going projects but that act in complementarity or that innovate.

### **DESCRIPTION OF THE ACTIVITIES TO BE FUNDED UNDER THIS TOPIC**

The training activities implemented by each project must include participants (trainees) from different participating countries.

This call will fund training activities such as:

- organisation of interactive, practice-oriented seminars (including implementation of training modules created by the European Commission on EU legislation in civil law<sup>19</sup>);
- multilateral exchanges between legal practitioners (except for judges and prosecutors whose training bodies are members of the European Judicial Training Network (EJTN) and may thus take part in the exchanges organised by the EJTN);
- cross-border initial training activities (face-to-face activities or exchanges), covering as many Member States as possible, to create a common European legal culture from the start of entering a legal profession (except for newly appointed judges and prosecutors for whom the equivalent activity is funded via the operating grant of the EJTN),
- joint study visits to EU courts by legal practitioners (other than judges/prosecutors, already covered by the operating grant of the EJTN) from as many different Member States as possible;
- creation of training material, whether for presential learning, blended learning or e-learning, ready-to-use either by trainers or by practitioners for self-learning;
- tools for training providers (for example: train-the-trainers events, tools to support the organisation of training in other Member States, etc.), including to facilitate their cooperation at EU-level (for justice professions other than judges/prosecutors, who are already covered by the operating grant of the EJTN).

If nothing else is indicated in the priority, the activities can take place in the context of initial training (induction-period) or continuous training of the participants (for example: training activities to familiarise newly appointed legal practitioners with EU legislation and judicial cooperation instruments; or more specialised training activities for practicing legal practitioners).

Projects targeting "legal systems of the Member States" (under priority 2) should cover the legal systems which have particular relevance for the participants and involve experienced legal practitioners who will be able to share experiences and compare practices of application of EU legal instruments.

### **Training methodology**

Applications should notably take into account recommendations from the Advice for training providers of DG Justice and Consumers<sup>20</sup> or expand good practices<sup>21</sup> revealed by

<sup>19</sup> [https://e-justice.europa.eu/content\\_civil\\_law-254-en.do](https://e-justice.europa.eu/content_civil_law-254-en.do)

the EU pilot project on European Judicial Training to other Member States or justice professions.

### **Duration**

The initial project duration should not exceed 30 months.
