## **Proposal template**

# Project Grants (HP-PJ-2018) 3rd EU Health Programme) Topic: \_\_\_\_PJ-02-2018\_\_\_\_\_

Please follow the structure of this template when preparing your proposal. It has been designed to ensure that the important aspects of your planned work are presented in a way that will enable the evaluators to make an effective assessment against the evaluation criteria.

Please be aware that proposals will be evaluated as they were submitted, rather than on their potential if certain changes were to be made. This means that only proposals that successfully address all the required aspects will have a chance of being funded. There will be no possibility for significant changes to content, budget and consortium composition during grant preparation.

**Page limit:** <u>The whole proposal should not be longer than 80 pages.</u> All tables in these sections must be included within this limit (including a table of contents). The minimum font size allowed is 11 points. The page size is A4, and all margins (top, bottom, left and right) should be at least 15 mm (not including any footers or headers).

If you attempt to upload a proposal longer than the specified limit, before the deadline you will receive an automatic warning, and will be advised to shorten and re-upload the proposal. After the deadline, any excess pages will be overprinted with a 'watermark', indicating to evaluators that these pages must be disregarded.

Please do not regard the page limit as a target. It is in your interest to keep your text as concise as possible.

Please read and follow carefully the instructions given in the Guide for applicants, which is outlining in detail the requirements for the below section of your proposal.
