Information & tips

Main shortcomings found in the stage 1 evaluation of **SC5-21-2016-2017**:

- The different expected impacts mentioned in the topic text were not always sufficiently addressed. For example, the benefits of heritage reuse at different levels were not always clearly indicated and, the new market opportunities were not always clearly identified or described.

In your stage 2 proposal, you have a chance to address or clarify these issues.

Please bear in mind that your full proposal will now be evaluated more in-depth and possibly by a new group of outside experts.

⚠ The full proposal must be consistent with your short outline proposal. It may NOT differ substantially. The project must stay the same.
