

**CYPRUS  
CYRQOL**

**Cypriot Researchers contribute to the quality of life**

**Nicosia, Olympic House and Park of the Cyprus Olympic Committee**

**Organised by**

**Research Promotion Foundation** (contact **Elena GABRIEL**, [egabriel@research.org.cy](mailto:egabriel@research.org.cy)) with A. S. Cyprus College Ltd (CYCO), IMCS Intercollege Ltd (INERCOLLEGE), Research Unit in Behaviour and Social Issues (RUBSI), Cyprus Institute of Neurology and Genetics (CING), University of Cyprus (UCY) Centre for the Advancement of Research and Development in Educational Technology (CARDET)

(Olympic House and Olympic Park in Nicosia, The five circles)

**The "five circles":** exhibition, hands on experiments, demonstrations around the themes environment, health, social sciences and humanities, horizontal applications of technology and sports science: how researchers help our quality of life

**Rewarding research:** reward of best contributions to research activities (primary, secondary, undergraduate students, researchers), in the presence of politicians, researchers, journalists...

**Draw a researcher:** drawing competition and rewarding of the best works and exhibition (best works will be used as calendar 2008)

**Interactive games:** *treasure hunt* (who is the researcher?), *using technology to draw a researcher* (PDA), *painting and sculpture* (umbra and jasper, inspired by exhibition of geological survey department), *music games*, *racing with eyes* (unusual interaction with computers), *playing on the research bus*, *building of DNA*....

**Eating research:** chat and tasting with dietiticians in a relaxed atmosphere, discovery of traditional products, traditional recipes, nutritional analysis...

**Singing research:** several participating bands (Pralimni band, rock band, research unit in behaviour and social issues...)
