Hot and Cool Science-Researchers' night 2007 in Mainz

Mainz

Organised by

Institute for Inorganic Chemistry and Analytical Chemistry, Johannes Gutenberg University of Mainz (contact: Prof. **Wolfgang Tremel** / Dipl.-Chem. Irene Bonn bonn@uni-mainz.de), with Max Planck Institut für Chemie, Rheinland-Pfälzisches Ministerium für Bildung, Wissenschaft, Jugend und Kultur
TLV Ritter Veranstaltungstechnik

Celebration of science: *hands-on experiments* (physics, meteorology, chemistry, mathematics, computer science), *lectures for children* (different age groups, conducted by experienced researchers with communication skills), *science as entertainment* (short films, musical sessions, edutainment activities), *party celebration*

Who are researchers and what do they do? Introduction of participants to *exceptional research facilities* (university and Max Planck), *portray of outstanding researchers* active in Mainz (fireside conversations, presentation of the researchers as people) *presentation of projects* (stands, central stage: presentation, explanation, discussions, hands on experiments, films on the results...) , *dedicated advisory stands* (parents and children, students)

Researchers are ordinary people! Researchers will be made immediately recognised (researcher button) and open to conversation on any subject; different *unexpected performances*: researcher with his band, the wizard of maths, tasting wine, cooking in public, perform as entertainers..., all will be constantly available for *fireside conversations*, (researchers interviewed by a professional TV host about career, choice of his/her orientation, hobbies, personal life...)

Hot and cool cafés: musical backdrop to create a real café atmosphere, researchers serving hot café, cool wine, wine coolers, talks on merits of local wine by a researcher oenophile
