

**SLOVENIA
RES-ART**

Researchers by heart

Slomšek square in **Maribor** and Šmartinsko Lake in **Celje**

Organised by

University of Maribor (contact **Brigita Horvat**, brigita.h@uni-mb.si) with Slovenian Science Foundation

(Police criminal investigation, Šmartinsko Lake, Celje, Slomšek square in Maribor, rowing regatta)

Presentation of researchers and round tables: beneficiaries of Marie Curie schemes, women researchers, will talk about their experience and formulate some suggestions for women role improvement;

Researchers at a glance: films on some known researchers, with special attention to pick researchers who had normal life, always presented with humour; theatrical performance by researchers of the university

A crime in Maribor! Participants will be challenged to research crime with forensics from Faculty of Criminal Justice and Security

Presentations of project's results and hands on experiments: covering a very broad variety of research fields: tug of war, games for children, computer games made by young researchers, mobile robots, intelligent washing machine, multimedia presentations, demystification of portals, demonstration of scientific chemical equipment, shows and videos, organic load in water sample, flame emission spectra, sodium and calcium lasts in water; medical experiments prepare by university researchers in medicine, accompanied by exhibitions, philosophy and research: clouds, "ghosts", mix of colours perceived by human eye, liquid crystal...., design of automotive parts using compute techniques, modelling and analysis of automotive parts with the help of researchers, and a playground for very young researchers by heart will be provided;

Rowing regatta: groups of eight, researchers, students, professors and visitors) And the event will be, as is the Maribor tradition, crowned with wonderful fireworks...
