THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2009/65/EC of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) (recast)<sup>1</sup>, and in particular Article 95(2)(a), (b) and (c), Article 101(9) and Article 105 thereof,

Whereas:

- (1) Directive 2009/65/EC provides the Commission with implementing powers to specify and harmonise certain aspects of the new procedure for notification of marketing of units of UCITS in a host Member State. Such harmonisation should provide competent authorities with the necessary certainty as to how the new requirements will work and help to ensure that the new procedure functions smoothly.
- (2) In order to facilitate the notification procedure it is necessary to specify the form and content of the standard model notification letter to be used by a UCITS and the form and content of the attestation to be used by the competent authorities of Member States to confirm that the UCITS fulfils the conditions set out in Directive 2009/65/EC. Member States should be able to communicate both the notification letter and the attestation electronically.
- (3) Given the objective of Directive 2009/65/EC to ensure that a UCITS is able to market its units in other Member States subject to a notification procedure based on improved communication between the competent authorities of the Member States, it is necessary to set out a detailed procedure for the electronic transmission of the notification file between competent authorities.

---

<sup>1</sup> OJ L 302, 17.11.2009, p. 32.

- (4) Directive 2009/65/EC requires the competent authorities of the UCITS home Member State to verify if the notification file is complete before they transmit the complete file to the competent authorities of the Member State in which the UCITS proposes to market its units. It also provides a UCITS with the right to access the market of a host Member State immediately after the complete notification file has been transmitted by the competent authorities of the UCITS home Member State to the competent authorities of a Member State where the UCITS proposes to market its units. In order to ensure legal certainty it is necessary to establish when the transmission of the complete notification file is considered to have taken place. Moreover, the procedure for the use of electronic communication shall require competent authorities of the UCITS home Member State to make sure that transmission of the complete documentation has taken place, before they notify a UCITS about the transmission pursuant to Article 93(3) of Directive 2009/65/EC. It is also necessary to set out procedures for dealing with technical problems that occur in the process of the transmission of the notification file between competent authorities of the UCITS home and host Member State.
- (5) In order to simplify the transmission of the notification file as well as take into account technical innovations and the feasibility of developing more sophisticated systems for electronic communication, competent authorities may implement cooperative arrangements to improve the electronic communication of the notification file in particular in relation to system security and the use of encryptions mechanisms. Competent authorities should also coordinate arrangements for electronic communication within the Committee of European Securities Regulators.
- (6) Directive 2009/65/EC requires that Member States take the necessary administrative and organisational measures to facilitate cooperation. Enhanced co-operation between competent authorities is necessary to ensure that UCITS and management companies managing UCITS comply with Directive 2009/65/EC and to ensure the smooth functioning of the internal market and a high level of investor protection.
- (7) Directive 2009/65/EC provides that the competent authorities of one Member State may request the cooperation of the competent authorities of another Member State in a supervisory activity or for an on-the-spot verification or in an investigation on the territory of the latter. In particular, where a UCITS is managed by a management company situated in another Member State, it is essential to establish mechanisms for cooperation between competent authorities and detailed procedures to be applied when a competent authority needs to carry out an investigation or on-the-spot verification of an entity or person situated in another Member State.
- (8) A competent authority should have a right to request the co-operation of other competent authorities with respect to matters falling within the scope of its supervisory responsibilities. The requested authority should provide assistance even where the conduct under investigation is not considered an infringement in its own jurisdiction. The requested authority may refuse assistance in the cases listed in Article 101(6) of Directive 2009/65/EC.
- (9) Directive 2009/65/EC requires the competent authorities of Member States to immediately provide each other with the information required for the purpose of carrying out their duties. It is therefore appropriate to set out detailed rules on the

routine exchange of information and the exchange of information without prior request.

- (10) In order to ensure that the obligations set out in Directive 2009/65/EC and in this Regulation apply from the same date, this Regulation should apply from the same date as the national measures transposing Directive 2009/65/EC.
- (11) The Committee of European Securities Regulators, established by Commission Decision 2009/77/EC<sup>2</sup> has been consulted for technical advice.
- (12) The measures provided for in this Regulation are in accordance with the opinion of the European Securities Committee,

HAS ADOPTED THIS REGULATION:
