In addition, the Commission may impose penalties or liquidated damages provided for in Article II.16.

The guarantee shall specify that it enters into force at the latest on the date on which the Contractor receives the pre-financing. The Commission shall release the guarantor from its obligations as soon as the Contractor has demonstrated that any pre-financing has been covered by equivalent work. The guarantee shall be retained until the pre-financing has been deducted from interim payments or payment of the balance to the Contractor. It shall be released the following month. The cost of providing such guarantee shall be borne by the Contractor.

II.4.2. Interim payment

- to reject it and request a new report.

If the Commission does not react within this period, the report shall be deemed to have been approved. Approval of the report does not imply recognition either of its regularity or of the authenticity, completeness or correctness of the declarations or information enclosed. Where the Commission requests a new report because the one previously submitted has been rejected, this shall be submitted within the period of time indicated in the Special Conditions. The new report shall likewise be subject to the above provisions.

II.4.3. Payment of the balance

Within sixty days of completion of the tasks referred to in Annex I the Contractor shall submit to the Commission a formal request for payment accompanied by those of the following documents which are provided for in the Special Conditions:

- statements of reimbursable expenses in accordance with Article II.7.

If the report is a condition for payment, on receipt the Commission shall have the period of time indicated in the Special Conditions in which:

- to approve it, with or without comments or reservations, or suspend such period and request additional information; or
- to reject it and request a new report.

If the Commission does not react within this period, the report shall be deemed to have been approved. II.5.2. The payment periods referred to in Article I.4 may be suspended by the Commission at any time if it informs the Contractor that his payment request is not admissible, either because the amount

is not due or because the necessary supporting documents have not been properly produced. In case of doubt on the eligibility of the expenditure indicated in the payment request, the Commission may suspend the time limit for payment for the purpose of further verification, including an on-the-spot check, in order to ascertain, prior to payment, that the expenditure is eligible.

The Commission shall notify the Contractor accordingly by registered letter with acknowledgment of receipt or equivalent. Suspension shall take effect from the date of dispatch of the letter. The remainder of the period referred to in Article I.4 shall begin to run again once the suspension has been lifted.

II.5.3. In the event of late payment the Contractor may claim interest within two months of receiving the payment. Interest shall be calculated at the rate applied by the European Central Bank to its most recent main refinancing operations (*"the reference rate"*) plus seven percentage points (*"the margin"*). The reference rate in force on the first day of the month in which the payment is due shall apply. Such interest rate is published in the C series of the Official Journal of the European Union. Interest shall be payable for the period elapsing from the calendar day following expiry of the time limit for payment up to the day of payment. Suspension of payment by the Commission may not be deemed to constitute late payment.

Article II.6 Recovery

II.6.1. If total payments made exceed the amount actually due under the Contract or if recovery is justified in accordance with the terms of the Contract, the Contractor shall reimburse the appropriate amount in euro on receipt of the debit note, in the manner and within the time limits set by the Commission.

II.6.2. In the event of failure to pay by the deadline specified in the request for reimbursement, the sum due shall bear interest at the rate indicated in Article II.5.3. Interest shall be payable from the calendar day following the due date up to the calendar day on which the debt is repaid in full.

II.6.3. The Commission may, after informing the Contractor, recover amounts established as certain, of a fixed amount and due by offsetting, in cases where the Contractor also has a claim on the Communities that is certain, of a fixed amount and due. The Commission may also claim against the guarantee, where provided for.

- (a) for journeys of less than 200 km (return trip) no subsistence allowance shall be payable;
- (b) daily subsistence allowance shall be payable only on receipt of a supporting document proving that the person concerned was present at the place of destination;
- (c) daily subsistence allowance shall take the form of a flat-rate payment to cover all subsistence expenses, including accommodation, meals, local transport, insurance and sundries;

- (d) daily subsistence allowance, where applicable, shall be reimbursed at the rate specified in Article I.3.3.

II.7.5. The cost of shipment of equipment or unaccompanied luggage shall be reimbursed provided the Commission has given prior written authorisation.

Article II.8 Ownership of the Results – Intellectual and Industrial Property

Any results or rights thereon, including copyright and other intellectual or industrial property rights, obtained in performance of the Contract, shall be owned solely by the Community, which may use, publish, assign or transfer them as it sees fit, without geographical or other limitation, except where industrial or intellectual property rights exist prior to the Contract being entered into.

Article II.9 Confidentiality

II.9.1. The Contractor undertakes to treat in the strictest confidence and not make use of or divulge to third parties any information or documents which are linked to performance of the Contract. The Contractor shall continue to be bound by this undertaking after completion of the tasks.

II.9.2. The Contractor shall obtain from each member of his staff, board and directors an undertaking that they will respect the confidentiality of any information which is linked, directly or indirectly, to execution of the tasks and that they will not divulge to third parties or use for their own benefit or that of any third party any document or information not available publicly, even after completion of the tasks.

Article II.10 Use, Distribution and Publication of Information

II.10.1. The Contractor shall authorise the Commission to process, use, distribute and publish, for whatever purpose, by whatever means and on whatever medium, any data contained in or relating to the Contract, in particular the identity of the Contractor, the subject matter, the duration, the amount paid and the reports. Where personal data is concerned, Article I.8 shall apply.

II.10.2. Unless otherwise provided by the Special Conditions, the Commission shall not be required to distribute or publish documents or information supplied in performance of the Contract. If it decides not to publish the documents or information supplied, the Contractor may not have them distributed or published elsewhere without prior written authorisation from the Commission.

II.10.3. Any distribution or publication of information relating to the Contract by the Contractor shall require prior written authorisation from the Commission and shall mention the amount paid by the Community. It shall state that the opinions expressed are those of the Contractor only and do not represent the Commission's official position.

Defects in equipment or material or delays in making it available, labour disputes, strikes or financial problems cannot be invoked as *force majeure* unless they stem directly from a relevant case of *force majeure*.

II.12.2. Without prejudice to the provisions of Article II.1.8, if either contracting party is faced with *force majeure*, it shall notify the other party without delay by registered letter with acknowledgment of receipt or equivalent, stating the nature, likely duration and foreseeable effects.

Article II.13 Subcontracting

II.13.1. The Contractor shall not subcontract without prior written authorisation from the Commission nor cause the Contract to be performed in fact by third parties.

II.13.2. Even where the Commission authorises the Contractor to subcontract to third parties, he shall none the less remain bound by his obligations to the Commission under the Contract and shall bear exclusive liability for proper performance of the Contract.

II.13.3. The Contractor shall make sure that the subcontract does not affect rights and guarantees to which the Commission is entitled by virtue of the Contract, notably Article II.17.

Article II.14 Assignment

II.14.1. The Contractor shall not assign the rights and obligations arising from the Contract, in whole or in part, without prior written authorisation from the Commission.

II.14.2. In the absence of the authorisation referred to in 1 above, or in the event of failure to observe the terms thereof, assignment by the Contractor shall not be enforceable against and shall have no effect on the Commission.

Article II.15 Termination by the Commission

II.15.1. The Commission may terminate the Contract in the following circumstances:

- (a) where the Contractor is being wound up, is having his affairs administered by the courts, has entered into an arrangement with creditors, has suspended business activities, is the subject of proceedings concerning those matters, or is in any analogous situation arising from a similar procedure provided for in national legislation or regulations;
- (b) where the Contractor has been convicted of an offence concerning his professional conduct by a judgment which has the force of *res judicata*;

Termination shall take effect on the date on which a registered letter with acknowledgment of receipt terminating the Contract is received by the Contractor, or on any other date indicated in the letter of termination.

II.15.4. Consequences of termination

In the event of the Commission terminating the Contract in accordance with this article and without prejudice to any other measures provided for in the Contract, the Contractor shall waive any claim for consequential damages, including any loss of anticipated profits for uncompleted work. On receipt of the letter terminating the Contract, the Contractor shall take all appropriate measures to minimise costs, prevent damage, and cancel or reduce his commitments. The Commission may claim compensation for any damage suffered and recover any sums paid to the Contractor under the Contract.

On termination the Commission may engage any other contractor to complete the services. The Commission shall be entitled to claim from the Contractor all extra costs incurred in making good and completing the services, without prejudice to any other rights or guarantees it has under the Contract.

Article II.16 Liquidated Damages

Should the Contractor fail to perform his obligations under the Contract within the time limits set by the Contract, then, without prejudice to the Contractor's actual or potential liability incurred in relation to the Contract or to the Commission's right to terminate the Contract, the Commission may decide to impose liquidated damages of 0.2% of the amount specified in Article I.3.1 per calendar day of delay. The Contractor may submit arguments against this decision within thirty days of notification by registered letter with acknowledgement of receipt or equivalent. In the absence of reaction on his part or of written withdrawal by the Commission within thirty days of the receipt of such arguments, the

decision imposing the liquidated damages shall become enforceable. These liquidated damages shall not be imposed where there is provision for interest for late completion. The Commission and the Contractor expressly acknowledge and agree that any sums payable under this article are in the nature of liquidated damages and not penalties, and represent a reasonable estimate of fair compensation for the losses that may be reasonably anticipated from such failure to perform obligations.

Article II.17 Checks and Audits

II.17.1. Pursuant to Article 142 of the Financial Regulation applicable to the general budget of the European Communities, the European Court of Auditors shall be empowered to audit the documents held by the natural or legal persons receiving payments from the budget of the European Communities from signature of the Contract up to five years after payment of the balance.

II.17.2. The Commission or an outside body of its choice shall have the same rights as the European Court of Auditors for the purpose of checks and audits limited to compliance with contractual obligations from signature of the Contract up to five years after payment of the balance.

Tender Specifications and Monitoring

ANNEX I

Tender No. VT/2007/037 of

1. Title of the contract

Study on positive action measures in the European Union (VC/2007/270).

2. Background

PROGRESS

In its Social Agenda (2005-2010), the Union has fixed as its overall strategic goal to promote more and better jobs and to offer equal opportunities for all. The realisation of the Social Agenda relies on a combination of instruments comprising EU legislation, the implementation of open methods of coordination in various policy fields and financial incentives such as the European Social Fund.

Until now, the implementation of the open methods of coordination in the employment and social inclusion/social protection fields relied on two distinct Community programmes. Equally the promotion of gender equality and of the non-discrimination principle was at the core of two distinct Community programmes. And lastly promotion of labour law including health and safety regulations were dealt with by separate interventions.

With the view of fostering greater coherence and simplification in the way Community programmes are delivered, the Commission proposed that all these separate programmes be now integrated into one framework programme, PROGRESS.

The Decision n°1672/2006 establishing a Community programme for employment and social solidarity – PROGRESS was adopted by the European Parliament and the Council on 24 October and published in the OJ on 15 November 2006.

PROGRESS overall aim is to financially support the implementation of the objectives of the European Union in the employment and social affairs area, as set out in the Social Agenda, and thereby contribute to the achievement of the Lisbon Strategy goals in these fields.

It aims at supporting the core functions of the European Community towards fulfilling its Treaty-delegated tasks and powers in its respective areas of competence in the employment and social sphere. It will support initiatives aimed at reinforcing the role of the Community in proposing EU strategies; implementing and following-up EU objectives and their translations into national policies; transposing and following-up of EU legislation's application in a coherent way through Europe; promoting the co-operation and co-ordination mechanisms between Member States and cooperating with social partners and organisations that represent civil society.

More specifically, PROGRESS will support:

(1) the implementation of the European Employment Strategy (section 1);

- (2) the implementation of the open method of coordination in the field of social protection and inclusion (section 2);
- (3) the improvement of the working environment and conditions including health and safety at work and reconciling work and family life (section 3);
- (4) the effective implementation of the principle of non-discrimination and promotion of its mainstreaming in all EU policies (section 4);
- (5) the effective implementation of the principle of gender equality and promotion of its mainstreaming in all EU policies (section 5).

It is divided up into five policy sections which are (1) Employment, (2) Social inclusion and social protection, (3) Working conditions, (4) Non-discrimination and (5) Gender Equality.

Against this background, PROGRESS pursues the following general objectives, as set out in article 2.1 of the Decision:

- (1) to improve the knowledge and understanding of the situation prevailing in the Member States (and in other participating countries) through analysis, evaluation and close monitoring of policies;
- (2) to support the development of statistical tools and methods and common indicators, where appropriate broken down by gender and age group, in the areas covered by the programme;
- (3) to support and monitor the implementation of Community law, where applicable, and policy objectives in the Member States, and assess their effectiveness and impact;
- (4) to promote networking, mutual learning, identification and dissemination of good practice and innovative approaches at EU level;
- (5) to enhance the awareness of the stakeholders and the general public about the EU policies and objectives pursued under each of the policy sections;
- (6) to boost the capacity of key EU networks to promote, support and further develop EU policies and objectives, where applicable.

The present Call for tenders is issued in the context of the implementation of the 2007 annual plan of work which is consultable at http://ec.europa.eu/employment_social/progress/docs_en.html.

Background information on anti-discrimination at European level

The Union and the Member States have already undertaken serious efforts to combat discrimination and promote equality. Nonetheless, the fight against discrimination continues to constitute a major challenge for the EU if genuine equality is to be achieved in practice.

In this context, the Commission published in May 2004 a Green Paper on "Equality and non-discrimination in an enlarged European Union" whereby it solicited the contributions of all interested stakeholders and the public at large on issues and questions concerning future policy developments³.

As a response to this wide public consultation exercise, the Commission has adopted a Communication setting out its new framework-strategy on non-discrimination and equal opportunities in June 2005⁴. The Communication underlines that the implementation and enforcement of anti-discrimination legislation on an individual level is not enough to tackle the multifaceted and deep-rooted patterns of inequality experienced by some groups. There is a need to go beyond anti-discrimination policies designed to prevent unequal treatment of individuals. It calls for the EU to reinforce its efforts to promote equal opportunities for all, in

⁴ http://europa.eu.int/comm/employment_social/fundamental_rights/pdf/ey07/com07_en.pdf

order to tackle the structural barriers faced by migrants, ethnic minorities, disabled people, older and younger workers and other vulnerable groups. Achieving equality requires a mobilisation of all actors and all policies in support to the promotion of a society free from discrimination. Consequently, the new strategy places a reinforced impetus on developing complementary positive and voluntary measures.

Positive Action

Positive Action is typically understood to cover a wide range of measures taken to compensate for present and past disadvantages which exist because of discrimination.

Directives⁵, 2000/43/EC (Race Equality Directive) article 5 and directive 2000/78/EC (Employment Equality Directive) article 5.1 confirm that:

“With a view to ensuring full equality in practice, the principle of equal treatment shall not prevent any Member State from maintaining or adopting specific measures to prevent or compensate for disadvantages linked to [the protected grounds]”.

3. Objectives of the call

The European Commission wishes to build on the work on positive action that has been undertaken by the Independent Group of Legal Experts in the field of anti-discrimination (a thematic report was produced which will be published shortly under:

http://ec.europa.eu/employment_social/fundamental_rights/public/pubst_en.htm#stud.)

To this aim, the Commission wants to develop a framework for better understanding the role that positive action measures can play in practice in preventing or remedying discrimination, building on the knowledge of the existing legal framework set out in the above study. Therefore, the European Commission wants to gain a better insight in what kind of practical positive action measures are already being taken in the EU (and in the EFTA-EEA countries participating in PROGRESS) and in third countries. The possible costs and benefits of the positive action measures shall also be indicated by the contractor in the study. Given the difficulties surrounding the interpretation of the term 'positive action', the contractor(s) should develop a working definition, based on the information contained in the above mentioned report and in the publication *Comparative Study on the collection of data to measure the extent and impact of discrimination within the United States, Canada, Australia, Great-Britain and the Netherlands*, which can be found under:

http://ec.europa.eu/employment_social/fundamental_rights/pdf/pubst/compstud04_en.pdf.

4. Tasks to be carried out by the contractor

- ⁵ In June 1997, Heads of State and Government agreed to introduce Article 13 of the Treaty establishing the European Community. This Article gives the Community specific powers to take action to combat discrimination based on sex, racial or ethnic origin, religion or belief, disability, age or sexual orientation. On 29 June and 27 November 2000, on the basis of proposals presented by the Commission in November 1999, the Council adopted three key instruments intended to prevent and combat discrimination based on racial or ethnic origin, religion or belief, age, disability or sexual orientation:
- ☐ Directive 2000/43/EC (Race Equality Directive) prohibits discrimination based on racial or ethnic origin in a wider range of fields such as employment, education, provision of goods and services and social protection;
 - ☐ Directive 2000/78/EC (Employment Equality Directive) prohibits discrimination in employment and excludes all discrimination based on religion or belief, disability, age or sexual orientation;

The contractor will be asked to carry out tasks in the following areas:

Task 1: Survey of positive action measures currently employed in the EU and in the EFTA/EEA states participating in PROGRESS

The contractor will be asked:

To conduct a survey among a representative sample of public and private sector organisations in all EU Member States and EFTA-EEA states participating in PROGRESS (minimum number of organisations to be included in the survey is 4000; the contractor will have to ensure a good balance in terms of geographical spread, sectors and company sizes).

The objectives of the survey shall be above all, but not exclusively, to identify:

- How widespread positive action measures are
- What kind of such measures are being taken
- If there is a difference in the number and kind of measures undertaken across different grounds of discrimination (religion or belief, disability, race or ethnicity, age and sexual orientation)
- The main driving force(s) for an organisation to apply positive action measures
- If and how this varies by size, sector, location and type of organisation
- The impact, if any, of the existing regulatory framework on the organisations' decision to choose for specific measures (or not to have any measures at all)
- The perceived (cost-)effectiveness of the actions undertaken and how this could be improved

The research questionnaires shall be drafted in close collaboration with the European Commission. The survey can only start once the contractor has submitted an inception note for the approval of the Commission and the approval has been given by the European Commission in particular in relation to the sample selected and the research questions put forward.

Task 2: Comparative study on positive action

The contractor will be asked to:

Prepare a comparative study based on the 1) existing legal frameworks of two to four selected non-European countries and compare them to the legal frameworks of the European Union (and for EFTA-EEA countries participating in PROGRESS) countries, and 2) a comparative study on the practical measures taken in the selected countries (using a sample of approximately 100 public and private organisations per selected country)

1. Select two to four non-European countries that have a strong and relevant background in imposing and/or applying binding positive action measures. The contractor should, in close collaboration with acknowledged experts of these countries, give an overview of the experience of these countries with the legal context and practical positive action measures and point out the main lessons that have been drawn. In particular, attention should be paid – among other things – to the types of

measures applied, the context in which they have been developed and the effects these measures have (had).

2. Analyse if, to what extent and how the lessons learnt from the use of positive action measures are relevant in the context of the European Union (and for EFTA-EEA countries participating in PROGRESS). This analysis should take into account differences in contextual factors, differences in the sociological and economic structure as well as in the legal framework, and any other variables that are deemed to have a significant impact.

This analysis will take two forms. First, a general comparison with the EU should be made in each case (i.e. with each non-European country). Second, a comparison should be made with a selected subset of EU member states (and EFTA-EEA countries participating in PROGRESS). These European states should be selected so as to represent a good spread in terms of geography, size and experience with positive action measures.

The contractor is asked to carry out his/her work on the bases of the above mentioned thematic brochure prepared by the Independent Group of Legal Experts in the field of anti-discrimination:

http://ec.europa.eu/employment_social/fundamental_rights/public/pubst_en.htm#stud

Furthermore, a study financed by the European Commission was delivered on the measures of discrimination in the USA, Canada and Australia. Certain information of this study is on anti-discrimination, and the study also contains examples of positive measures taken in these countries. The contractor is requested to use the findings of this study as bases for the work it carries out on the comparative study on positive action.

http://ec.europa.eu/employment_social/fundamental_rights/policy/aneval/data_en.htm

Task 3: Follow up seminar on both Tasks and publication

A day long expert seminar shall be organised by the contractor in Brussels to present to the Commission and other interested parties the results of both Tasks. This meeting should not be held in Commission premises but in an external venue e.g. hotel conference centre. Approximately 30 people should attend this seminar. The contractor is responsible for the organisation, reimbursements of travel and accommodation expenses for the participants.

The contractor is requested to draft a publication based on the synthesis of Task one and Task two's (the study and the survey) content. This work is to be done in close cooperation with the European Commission's services. This publication, which should summarise the work carried out under tasks 1 and 2 should respect the following specifications:

- The maximum length of the final text should be not more than 50 pages.
- The contractor should submit the text in English, French and German.
- The text should be provided to the European Commission in Word and charts in Excel.
- The contractor should secure the rights and provide the Commission with 10 photos to illustrate the text.
- The layout, printing and distribution of the report are not covered by this call for tender. It is intended that these tasks should be undertaken by the company that

holds the publication framework contract with DG Employment, Social Affairs and Equal Opportunities and by the EC Publications Office.

The publication shall be ready for distribution at the seminar mentioned above.

5. Guide and details of how the tasks are to be carried out

- (1) The contractor shall work in close contact with the Commission, which will guide and monitor the quality of work and compliance with deadlines.
- (2) The contractor shall appoint one contract coordinator who acts as a single contact point for the Commission on all tasks, unless agreed otherwise for specific purposes.
- (3) The contractor shall ensure that any subcontractor it engages performs the work to a satisfactory standard. The contractor will remain responsible for any work performed by subcontractors and for their compliance with the deadlines agreed by the Commission. Subcontracting must be authorised by the Commission in accordance with Art.II.13.. Sub-contractors included in the tender are deemed to be authorised by the Commission if the contract is awarded.
- (4) The PROGRESS Programme aims at promoting gender mainstreaming in all its five policy sections and commissioned or supported activities. Consequently, the Contractor will take the necessary steps to ensure that its proposed team and/or staff respects the gender balance at all levels. It will also pay due attention when appropriate to the gender dimension of the service he is asked to deliver as detailed in the description of tasks.
- (5) Equally, needs of disabled people shall be duly acknowledged and met while executing the requested service. This will in particular entail that where the Contractor organises training sessions, conference, issues publications or develops dedicated websites, people with disabilities have equal access to the facilities or the services provided.
- (6) Finally, the Contracting Authority encourages the Contractor to promote equal employment opportunities for all its staff and team. This entails that the Contractor shall foster an appropriate mix of people, whatever their ethnic origin, religions, age, and ability.
- (7) The Contractor will be required to detail in its activity report accompanying the request for the final instalment the steps and achievements it made towards meeting these contractual provisions.

6. Rights

- (1) Any results, products or rights thereon, including copyright and other intellectual or industrial property rights, obtained in performance of the Contract, shall be owned solely by the European Communities, which may use, publish, assign or transfer them as it sees fit, without geographical or other limitation, except where industrial or intellectual property rights exist prior to the Contract being entered into.
- (2) Should the Contractor use third-party copyright material, whether textual or artistic, for the purpose of the performance of the Contract, he shall have sole responsibility for taking the necessary steps to obtain unfettered rights from the copyright holder(s), or from his or their legal representative, to include, print, publish, and sell the material, for the full legal term of copyright, in whole or in part, in all editions, forms and media, and

in any language whatsoever, as well as for the European Commission itself further to license reproduction or translation thereof.

- (3) Any costs associated to such rights shall be borne by the Contractor, who ensures that any other conditions linked to the rights are fulfilled, in particular concerning the appropriate acknowledgement of the source material.

7. Professional Qualifications required

The following reports will be required covering all tasks;

1. **An inception note** shall be submitted to the Commission for approval 6 weeks after the contract came into effect. Together with the inception note the Contractor shall present the methodology it will follow to undertake both Task 1 and Task 2, a draft questionnaire and a draft of the selection of countries must be provided to the Commission.

2. Interim report

6 months after the signature of the contract, an interim report has to be submitted to the European Commission, summarising the achieved progress since the incentive note and detailing the remaining foreseen future activities until the completion of the contract. The text should be provided to the European Commission in Word and charts in Excel. The contractor should secure the rights to and provide the Commission with 6 photos to illustrate the text. The contractor should also prepare a short document for internal Commission use identifying the

gaps and problems organisations face in taking positive action and how these could be addressed.

The European Commission benefits of a direct VAT exemption for all invoices EUR 123.95 and more.

An invoice will be made for each payment related to the present Contract. The applied VAT rate and amount shall be specified.

In view of VAT exemption, invoices addressed to the European Commission should bear the mention:

“Vrijstelling van BTW, artikel 42, § 3.3, BTW-Wetboek”.

1. VAT exemption level

The European Commission benefits of a direct exemption of VAT for all invoices of EUR 123.95 and more.

2. Use of form 15.10

To allow the Contractor to justify to the fiscal authorities an invoicing to the European Commission using a 0% VAT rate (direct exemption) or to enable the benefit of the exemption by reimbursement, it is necessary to use the form 15.10.

These forms have recently been up-dated, and the new versions are the only ones to remain in official use. They entered into force on 01.04.1997, with a new ref. XXI/03278 – 01.04.1997.

See attached document: 2 pages and 1 page of explanatory notes.

3. Signature of the form 15.10 – Delegation of signature

The forms must normally be signed by the fiscal authorities of Belgium. However, a delegation of signature has been awarded by the Belgium authorities to the European Commission – ref. ET 76430 of 22.12.1992 (This ref. No should be inserted in box 7 of new form 15.10). The Commission being represented for the present Contract by the Director General of Employment, Social Affairs and Equal Opportunities DG, form 15.10 will therefore be signed by the latter.

4. Invoicing the Commission

An invoice will be made for each payment related to the present Contract. The applied VAT rate and amount shall be specified. Concerning the direct VAT exemption or VAT exemption by the way of reimbursement, the invoice shall bear all the necessary mentions.

The above indication is given only as piece of information. The Contractor must refer to the national laws in force in his Member State of fiscal imposition.
