

FEAD

providing social inclusion support to the most deprived

Fund for European Aid to the Most Deprived 2018

SWEDEN

BACKGROUND

The share of people at risk of poverty or social exclusion in Sweden was relatively stable and well below the EU average between 2014 and 2018. In Sweden, the provision of social inclusion assistance to the most deprived, concerning health and basic information on the Swedish society, is relevant in view of fighting social exclusion. Aid is directed to individuals who are not entitled to support and assistance under the Social Services Act.

NUMBER OF END RECIPIENTS *

MAIN RESULTS

- In Sweden, end recipients often have a lack of confidence in the work of public authorities. Therefore, ground for success lies within the creation of trustful relationships.
- The planned number of end recipients was reached and exceeded. The percentage of the total number of participants stating that they have received support or assistance has risen steadily, from 43% in 2016 to 84% in 2018.
- In 2018, the same is true for the proportion of individuals stating that they have improved the conditions for managing health and hygiene: from 38% in 2016 to 82% in 2018.
