

QUESTIONS RELATED TO CALL FOR TENDER VT/2006/015

1. According to point 9 of the tender specifications, all costs (including translations and travel) must be included under Part A: Professional fees and direct costs. However, in the draft contract which is attached to the tender, the budget is structured in the old way (ie with travel expenses as reimbursables). Could you please confirm which one is the model to use.

Answer

Please note that Draft contract attached with the tender specification was the old version.

Please find published on the website, the new version (including the correction related to the Professional fees and direct costs) is amended.
