II.1.7. In the event of disruption resulting from the action of a member of the Contractor's staff working on Commission premises or in the event of the expertise of a member of the Contractor's staff failing to correspond to the profile required by the Contract, the Contractor shall replace him without delay. The Commission shall have the right to request the replacement of any such member of staff, stating its reasons for so doing. II.1.9. Should the Contractor fail to perform his obligations under the Contract in accordance with the provisions laid down therein, the Commission may - without prejudice to its right to terminate the Contract - reduce or recover payments in proportion to the scale of the failure. In addition, the Commission may impose penalties or liquidated damages provided for in Article II.16.

Such conflict of interests could arise in particular as a result of economic interest, political or national affinity, family or emotional ties, or any other relevant connection or shared interest. Any conflict of interests which could arise during performance of the Contract must be notified to the Commission in writing without delay. In the event of such conflict, the Contractor shall immediately take all necessary steps to resolve it.

The Commission reserves the right to verify that such measures are adequate and may require additional measures to be taken, if necessary, within a time limit which it shall set. A copy of the instructions given and the undertakings made in this respect shall be sent to the Commission should it so request.

II.4.1. Pre-financing

Where required by Article I.4.1, the Contractor shall provide a financial guarantee in the form of a bank guarantee or equivalent supplied by a bank or an authorised financial institution (guarantor) equal to the amount indicated in the same article to cover pre-financing under the Contract. Such guarantee

may be replaced by a joint and several guarantee by a third party. The guarantor shall pay to the Commission at its request an amount corresponding to payments made by it to the Contractor which have not yet been covered by equivalent work on his part. The guarantor shall stand as first-call guarantor and shall not require the Commission to have recourse against the principal debtor (the Contractor). The guarantee shall specify that it enters into force at the latest on the date on which the Contractor receives the pre-financing. The Commission shall release the guarantor from its obligations as soon as the Contractor has demonstrated that any pre-financing has been covered by equivalent work. The guarantee shall be retained until the pre-financing has been deducted from interim payments or payment of the balance to the Contractor. It shall be released the following month. The cost of providing such guarantee shall be borne by the Contractor.

II.4.2. *Interim payment*

At the end of each of the periods indicated in Annex I the Contractor shall submit to the Commission a formal request for payment accompanied by those of the following documents which are provided for in the Special Conditions:

- an interim technical report in accordance with the instructions laid down in Annex I;
- the relevant invoices indicating the reference number of the Contract to which they refer;
- statements of reimbursable expenses in accordance with Article II.7.

If the report is a condition for payment, on receipt the Commission shall have the period of time indicated in the Special Conditions in which:

- to approve it, with or without comments or reservations, or suspend such period and request additional information; or
- to reject it and request a new report.

If the Commission does not react within this period, the report shall be deemed to have been approved. Approval of the report does not imply recognition either of its regularity or of the authenticity, completeness or correctness of the declarations or information enclosed. Where the Commission requests a new report because the one previously submitted has been rejected, this shall be submitted within the period of time indicated in the Special Conditions. The new report shall likewise be subject to the above provisions.

II.4.3. *Payment of the balance*

Within sixty days of completion of the tasks referred to in Annex I the Contractor shall submit to the Commission a formal request for payment accompanied by those of the following documents which are provided for in the Special Conditions:

- a final technical report in accordance with the instructions laid down in Annex I;
- the relevant invoices indicating the reference number of the Contract to which they refer;
- statements of reimbursable expenses in accordance with Article II.7.

If the report is a condition for payment, on receipt the Commission shall have the period of time indicated in the Special Conditions in which:

- to approve it, with or without comments or reservations, or suspend such period and request additional information; or
- to reject it and request a new report.

If the Commission does not react within this period, the report shall be deemed to have been approved. Approval of the report does not imply recognition either of its regularity or of the authenticity, completeness or correctness of the declarations and information enclosed. Where the Commission requests a new report because the one previously submitted has been rejected, this shall be submitted within the period of time indicated in the Special Conditions. The new report shall likewise be subject to the above provisions.

Article II.5 General Provisions concerning Payments

II.5.1. Payments shall be deemed to have been made on the date on which the Commission's account is debited.

II.5.2. The payment periods referred to in Article I.4 may be suspended by the Commission at any time if it informs the Contractor that his payment request is not admissible, either because the amount

is not due or because the necessary supporting documents have not been properly produced. In case of doubt on the eligibility of the expenditure indicated in the payment request, the Commission may suspend the time limit for payment for the purpose of further verification, including an on-the-spot check, in order to ascertain, prior to payment, that the expenditure is eligible.

The Commission shall notify the Contractor accordingly by registered letter with acknowledgment of receipt or equivalent. Suspension shall take effect from the date of dispatch of the letter. The remainder of the period referred to in Article I.4 shall begin to run again once the suspension has been lifted.

II.5.3. In the event of late payment the Contractor may claim interest within two months of receiving the payment. Interest shall be calculated at the rate applied by the European Central Bank to its most recent main refinancing operations (*"the reference rate"*) plus seven percentage points (*"the margin"*). The reference rate in force on the first day of the month in which the payment is due shall apply. Such interest rate is published in the C series of the Official Journal of the European Union. Interest shall be payable for the period elapsing from the calendar day following expiry of the time limit for payment up to the day of payment. Suspension of payment by the Commission may not be deemed to constitute late payment.

Article II.6 Recovery

II.6.1. If total payments made exceed the amount actually due under the Contract or if recovery is justified in accordance with the terms of the Contract, the Contractor shall reimburse the appropriate amount in euro on receipt of the debit note, in the manner and within the time limits set by the Commission.

II.6.2. In the event of failure to pay by the deadline specified in the request for reimbursement, the sum due shall bear interest at the rate indicated in Article II.5.3. Interest shall be payable from the calendar day following the due date up to the calendar day on which the debt is repaid in full.

II.6.3. The Commission may, after informing the Contractor, recover amounts established as certain, of a fixed amount and due by offsetting, in cases where the Contractor also has a claim on the Communities that is certain, of a fixed amount and due. The Commission may also claim against the guarantee, where provided for.

Article II.7 Reimbursements

II.7.1. Where provided by the Special Conditions or by Annex I, the Commission shall reimburse the expenses which are directly connected with execution of the tasks on production of original supporting documents, including receipts and used tickets.

II.7.2. Travel and subsistence expenses shall be reimbursed, where appropriate, on the basis of the shortest itinerary.

II.7.3. Travel expenses shall be reimbursed as follows:

- (d) travel outside Community territory shall be reimbursed under the general conditions stated above provided the Commission has given its prior written agreement.

II.7.4. Subsistence expenses shall be reimbursed on the basis of a daily allowance as follows:

- (a) for journeys of less than 200 km (return trip) no subsistence allowance shall be payable;
- (b) daily subsistence allowance shall be payable only on receipt of a supporting document proving that the person concerned was present at the place of destination;
- (c) daily subsistence allowance shall take the form of a flat-rate payment to cover all subsistence expenses, including accommodation, meals, local transport, insurance and sundries;

- (d) daily subsistence allowance, where applicable, shall be reimbursed at the rate specified in Article I.3.3.

II.7.5. The cost of shipment of equipment or unaccompanied luggage shall be reimbursed provided the Commission has given prior written authorisation.

Article II.8 Ownership of the Results – Intellectual and Industrial Property

Any results or rights thereon, including copyright and other intellectual or industrial property rights, obtained in performance of the Contract, shall be owned solely by the Community, which may use, publish, assign or transfer them as it sees fit, without geographical or other limitation, except where industrial or intellectual property rights exist prior to the Contract being entered into.

Article II.9 Confidentiality

II.9.1. The Contractor undertakes to treat in the strictest confidence and not make use of or divulge to third parties any information or documents which are linked to performance of the Contract. The Contractor shall continue to be bound by this undertaking after completion of the tasks.

II.9.2. The Contractor shall obtain from each member of his staff, board and directors an undertaking that they will respect the confidentiality of any information which is linked, directly or indirectly, to execution of the tasks and that they will not divulge to third parties or use for their own benefit or that of any third party any document or information not available publicly, even after completion of the tasks.

Article II.10 Use, Distribution and Publication of Information

II.10.1. The Contractor shall authorise the Commission to process, use, distribute and publish, for whatever purpose, by whatever means and on whatever medium, any data contained in or relating to the Contract, in particular the identity of the Contractor, the subject matter, the duration, the amount paid and the reports. Where personal data is concerned, Article I.8 shall apply.

II.10.2. Unless otherwise provided by the Special Conditions, the Commission shall not be required to distribute or publish documents or information supplied in performance of the Contract. If it decides not to publish the documents or information supplied, the Contractor may not have them distributed or published elsewhere without prior written authorisation from the Commission.

II.10.3. Any distribution or publication of information relating to the Contract by the Contractor shall require prior written authorisation from the Commission and shall mention the amount paid by the Community. It shall state that the opinions expressed are those of the Contractor only and do not represent the Commission's official position.

II.10.4. The use of information obtained by the Contractor in the course of the Contract for purposes other than its performance shall be forbidden, unless the Commission has specifically given prior written authorisation to the contrary.

Article II. 11 Taxation

II.11.2. The Contractor recognises that the Commission is, as a rule, exempt from all taxes and duties, including value added tax (VAT), pursuant to the provisions of Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Communities.

II.11.3. The Contractor shall accordingly complete the necessary formalities with the relevant authorities to ensure that the goods and services required for performance of the Contract are exempt from taxes and duties, including VAT.

II.11.4. Invoices presented by the Contractor shall indicate his place of taxation for VAT purposes and shall specify separately the amounts not including VAT and the amounts including VAT.

Article II.12 Force Majeure

II.12.1. *Force majeure* shall mean any unforeseeable and exceptional situation or event beyond the control of the contracting parties which prevents either of them from performing any of their obligations under the Contract, was not due to error or negligence on their part or on the part of a subcontractor, and could not have been avoided by the exercise of due diligence. Defects in equipment or material or delays in making it available, labour disputes, strikes or financial problems cannot be invoked as *force majeure* unless they stem directly from a relevant case of *force majeure*.

II.12.2. Without prejudice to the provisions of Article II.1.8, if either contracting party is faced with *force majeure*, it shall notify the other party without delay by registered letter with acknowledgment of receipt or equivalent, stating the nature, likely duration and foreseeable effects.

II.12.3. Neither contracting party shall be held in breach of its contractual obligations if it has been prevented from performing them by *force majeure*. Where the Contractor is unable to perform his contractual obligations owing to *force majeure*, he shall have the right to remuneration only for tasks actually executed.

II.12.4. The contracting parties shall take the necessary measures to reduce damage to a minimum.

Article II.13 Subcontracting

II.13.1. The Contractor shall not subcontract without prior written authorisation from the Commission nor cause the Contract to be performed in fact by third parties.

II.13.2. Even where the Commission authorises the Contractor to subcontract to third parties, he shall none the less remain bound by his obligations to the Commission under the Contract and shall bear exclusive liability for proper performance of the Contract.

II.13.3. The Contractor shall make sure that the subcontract does not affect rights and guarantees to which the Commission is entitled by virtue of the Contract, notably Article II.17.

Article II.14 Assignment

II.14.1. The Contractor shall not assign the rights and obligations arising from the Contract, in whole or in part, without prior written authorisation from the Commission.

II.14.2. In the absence of the authorisation referred to in 1 above, or in the event of failure to observe the terms thereof, assignment by the Contractor shall not be enforceable against and shall have no effect on the Commission.

Article II.15 Termination by the Commission

II.15.1. The Commission may terminate the Contract in the following circumstances:

- (a) where the Contractor is being wound up, is having his affairs administered by the courts, has entered into an arrangement with creditors, has suspended business activities, is the subject of proceedings concerning those matters, or is in any analogous situation arising from a similar procedure provided for in national legislation or regulations;
- (b) where the Contractor has been convicted of an offence concerning his professional conduct by a judgment which has the force of *res judicata*;

- (c) where the Contractor has been guilty of grave professional misconduct proven by any means which the contracting authority can justify;

- (g) where the Contractor was guilty of misrepresentation in supplying the information required by the Commission as a condition of participation in the Contract procedure or failed to supply this information;
- (h) where a change in the Contractor's legal, financial, technical or organisational situation could, in the Commission's opinion, have a significant effect on the performance of the Contract;
- (i) where execution of the tasks has not actually commenced within three months of the date foreseen, and the new date proposed, if any, is considered unacceptable by the Commission;
- (j) where the Contractor is unable, through his own fault, to obtain any permit or licence required for performance of the Contract;
- (k) where the Contractor, after receiving formal notice in writing to comply, specifying the nature of the alleged failure, and after being given the opportunity to remedy the failure within a reasonable period following receipt of the formal notice, remains in serious breach of his contractual obligations.

II.15.2. In case of *force majeure*, notified in accordance with Article II.12, either contracting party may terminate the Contract, where performance thereof cannot be ensured for a period corresponding to at least to one fifth of the period laid down in Article I.2.3.

II.15.3. Prior to termination under point e), h) or k), the Contractor shall be given the opportunity to submit his observations.

Termination shall take effect on the date on which a registered letter with acknowledgment of receipt terminating the Contract is received by the Contractor, or on any other date indicated in the letter of termination.

II.15.4. Consequences of termination

In the event of the Commission terminating the Contract in accordance with this article and without prejudice to any other measures provided for in the Contract, the Contractor shall waive any claim for consequential damages, including any loss of anticipated profits for uncompleted work. On receipt of the letter terminating the Contract, the Contractor shall take all appropriate measures to minimise costs, prevent damage, and cancel or reduce his commitments. He shall draw up the documents required by the Special Conditions for the tasks executed up to the date on which termination takes effect, within a period not exceeding sixty days from that date.

The Commission may claim compensation for any damage suffered and recover any sums paid to the Contractor under the Contract.

On termination the Commission may engage any other contractor to complete the services. The Commission shall be entitled to claim from the Contractor all extra costs incurred in making good and completing the services, without prejudice to any other rights or guarantees it has under the Contract.

Article II.16 Liquidated Damages

Should the Contractor fail to perform his obligations under the Contract within the time limits set by the Contract, then, without prejudice to the Contractor's actual or potential liability incurred in relation to the Contract or to the Commission's right to terminate the Contract, the Commission may decide to impose liquidated damages of 0.2% of the amount specified in Article I.3.1 per calendar day of delay. The Contractor may submit arguments against this decision within thirty days of notification by registered letter with acknowledgement of receipt or equivalent. In the absence of reaction on his part or of written withdrawal by the Commission within thirty days of the receipt of such arguments, the

decision imposing the liquidated damages shall become enforceable. These liquidated damages shall not be imposed where there is provision for interest for late completion. Tender Specifications and Monitoring

ANNEX I Tender No. VT/2007/045 of

Article 19.1 of *PROGRESS* Decision establishes that "*in order to ensure a regular **monitoring of the programme** and allow necessary reorientations, **annual activity reports** focusing on the outcomes delivered through the programme shall be elaborated by the Commission and transmitted to the programme Committee referred to in Article 13 and to the European Parliament*". The Commission planned to present such annual activity reports on March of year N+1.

PROGRESS will be implemented through a **results-based management**. Such an approach will focus on delivering outcomes, implementing performance measurement, and reporting on performance. To that effect, the Commission has developed a **logical framework** describing how *PROGRESS* activities and expected outcomes contribute to the Social Agenda objectives. The logical framework is available at http://ec.europa.eu/employment_social/progress/docs/progress003_annexe3_en.pdf. The articulation of each activity of the Annual Plan of Work 2007 with the expected *PROGRESS* objectives and outcomes is attached in annex 2 to the present Terms of reference.

In this context, the Commission is in the process of developing a **strategic framework for the implementation of PROGRESS**. Such a framework will:

1. include a governance structure, describing the roles and responsibilities of all interested parties involving in implementing *PROGRESS*;
2. provide a clear and results-based design of *PROGRESS*, linking resources to expected outcomes;
3. define a gender mainstreaming approach for the implementation of *PROGRESS*;
4. establish an adequate performance measuring and monitoring system at the level of *PROGRESS* outcomes;
5. establish an adequate reporting system based on outcomes;
6. define the evaluation strategy of *PROGRESS*

A strategic framework is being developed by the Commission with the support of an *ad hoc* working group composed of representatives of the *PROGRESS* Committee, of the social partners and of civil society. The mandate of the working group is to draw up a performance management plan for the *PROGRESS* programme. Such a performance management should define the principles guiding the implementation of the *PROGRESS* programme and identify the targets against which the performance of the programme will be measured in terms of output, outcome and impact.

The plan will detail the performance management process, performance measurement and performance information required to monitor delivery. The working group will make a proposal to the *PROGRESS* Committee by the end of 2007.

Subject of the contract

The subject of the contract is to:

- provide assistance to the Commission in monitoring of, and reporting on the performance of *PROGRESS* Programme. This includes providing assistance to *PROGRESS* Contractors and Beneficiaries on the setting-up of their own monitoring mechanisms and systems.

- provide guidance and advice the Contracting Authority on possible improvements to increase the efficiency and performance of *PROGRESS* Programme.

Tasks to be carried out by the contractor

To provide assistance to the Commission in monitoring of, and reporting on of the performance of *PROGRESS* Programme

Monitoring the performance of PROGRESS

For the purpose of this contract, monitoring is defined³ as a "continuing function that aims primarily to provide the management and main stakeholders of an ongoing intervention (project, programme) with early indications of progress, or lack thereof, in the achievement of results".

Monitoring of *PROGRESS* performance will be made against the performance management plan to be established by the above-mentioned ad hoc working group. The present contract, therefore, does not cover the elaboration of *PROGRESS* performance management plan.

The current contract concerns the timely **gathering and analysis of accurate information** (quantitative or qualitative) at the level of the Progress activities, objectives, outcomes and processes in relation to the *PROGRESS* planning and programming cycle. Such data will feed into the indicators which will have been identified for the measurement of *PROGRESS* performance.

This will entail:

- Devising a reliable and quality monitoring and information system for *PROGRESS*, notably by providing comprehensive information on the activities financed by the programme;
- Analysing the quality of the monitoring system currently in place in the Commission and proposing improvements where necessary;
- Proposing a common and coherent framework for the monitoring at the activity level by contractors and beneficiaries;
- Gathering other information required to carry out the monitoring (desk research, statistical indicators, surveys, on-site visits, working meetings, etc.).

As a first step and during the first year, the Contractor will be required to collect and gather information data to establish **a baseline situation**. This baseline situation will be drawn on the basis of the indicators identified in the performance management plan.

This will entail:

- Gathering information on the basis of the evaluations of the previous Community programmes or interventions in the employment and social fields or collecting ad hoc additional data or information in case of missing data;
- Processing and analysing information to make quantitative and qualitative comparisons on the basis of typologies or any other analytical method likely to produce reliable results;
- Drawing conclusions from the analyses.

The baseline situation should be presented in a **report of 50 pages maximum**, available in EN, that will only be used for internal purposes together with a five-page summary in EN FR DE presenting the main elements of the baseline situation.

As a second step, the Contractor will **develop an information system** (for example **databases** or software) for:

³ DG BUDG Publication on "Evaluating EU activities" – July 2004-
http://ec.europa.eu/budget/evaluation/pdf/pub_eval_activities_full_en.PDF

- (1) collecting and assessing the data at the desired programme or activity level and
- (2) monitoring them on a regular basis for indications on *PROGRESS* performance. This would entail in particular monitoring the extent to which *PROGRESS* outcomes and objectives are being achieved and how efficiently and effectively *PROGRESS* is operating.

Most of the data at the activity level will have to be collected and gathered by contractors and beneficiaries. To ensure consistency, availability and adequacy of data, the present Contractor will be requested to **provide technical assistance to *PROGRESS* contractors and beneficiaries**. The technical assistance will consist in **proposing common and coherent monitoring systems and information** which are easy to use and adapted to the agreed operational and strategic purposes. It will also entail **supervising** the collection and gathering of information by contractors and beneficiaries, to assess their usefulness, reliability and quality. Suggesting **corrective measures** will also be part of the tasks expected from the Contractor.

Finally, the technical assistance will also include studying the **feasibility of developing a common software platform** allowing interface between Commission and the contractor monitoring systems. Access to the software would be restricted to Commission services and contractors/beneficiaries. While the common software platform will not be hosted on the Commission website, its technical specifications will have to be in line with Commission's technical rules. Such points will be addressed during the meetings scheduled between the contractor and the Contracting Authority. Subject to the conclusion of the feasibility study, the Contractor could be requested to **set up and maintain this software** throughout the contractual period under the strict supervision of the Commission. The execution of this task would be in that case part of the plan of work for the first renewal of the present Contract.

Reporting on the performance of PROGRESS

The Contractor will provide **technical assistance for the annual reporting by the Commission** on the performance of *PROGRESS*. The Commission will report on the outcomes in Year n+1 (in March) so as to allow for the collection, analysis and compilation of the data that will inform the measurement of *PROGRESS* performance. To be meaningful, the reporting should

- Take account of the mission, mandate and objectives of *PROGRESS*, the major strategies implemented, and the related external context;
- Be based on clear and concrete key performance expectations and achievements focussed on outcomes;
- Measure key outcomes related to objectives, attributed in whole or in part to the activities undertaken;
- Make it possible to learn from programme performance and to adapt the programme to contextual changes;
- Provide fair and reliable information.

The Contractor will assist the Commission in its reporting tasks by providing the following documents:

- **Interim performance monitoring report**: consisting of a 30-page report, in English, and its technical annexes. In addition to reporting on progress in achieving the objectives and outcomes of the *PROGRESS* programme, the report should also highlight positive trends or practices as well as areas that would require greater scrutiny. The report will exclusively be for internal use.

- **Final annual performance monitoring report**: consisting of a full report of 80 pages maximum, in English, and its technical annexes; together with a synthesis report, of 20-25 pages maximum, available in EN FR DE and a five-page summary paper available in EN FR DE together with a *PROGRESS* balanced scorecard.

All documents will have to be presented in a clear and concise manner. Jargon should be avoided and linguistic versions should be at least checked by native speakers. The final annual performance monitoring report on Year n should be ready for editing in all the requested linguistic versions by early March on Year n+1 and should bear

the compulsory provisions as indicated below. The layout, printing and distribution of the report are not covered by this call for tender.

Meetings between the Contractor and the Contracting Authority

Several meetings will be organised in the Commission premises in Brussels between Commission's officials and the Contractor. They will be used to supervise the execution of the requested services by the Contractor and to allow the Contractor to report on progress and on problems and difficulties arisen under the present contract. It is planned to have up to four of such meetings each year. Working documents should be prepared by the Contractor and sent to the Commission at least 15 calendar days before each meeting.

The Contractor will also present and report to stakeholders on the execution of the work, including the presentation of the outcome of their monitoring work. This will include at least an annual presentation to the PROGRESS Committee. Such presentations will imply preparing working documents in EN, FR and DE and powerpoint presentations in English.

To provide guidance and advice the Contracting Authority on possible improvements to increase the efficiency and performance of *PROGRESS* Programme

This task will be particularly relevant for the comprehensive report to be delivered in 2010 that should feed into the next *PROGRESS* programming cycle for the remaining years 2010-2013. The Contractor should offer a comprehensive overview of achievements under *PROGRESS*, in particular against the effectiveness and efficiency criteria and suggest areas for improvements for the next cycle. Any such suggestion should be based on fair, undisputed and reliable information and data.

In addition, without pre-empting at this stage the kind of advice the Commission will request from the Contractor, one possible area deals with improvement of management information systems and processes.

Guide on how the tasks detailed above should be carried out

The *PROGRESS* Programme aimed at promoting gender mainstreaming in all its five policy sections and commissioned or supported activities. Consequently, the Contractor will take the necessary steps to ensure that its proposed team and/or staff respects the gender balance at all levels. It will also pay due attention when appropriate to the gender dimension of the service he is asked to deliver as detailed in the description of tasks. Equally, needs of disabled people shall be duly acknowledged and met while executing the requested service. This will in particular entail that where the Contractor issues publications or develops dedicated database/software, people with disabilities have equal access to the services provided.

Finally, the Contracting Authority encourages the Contractor to promote equal employment opportunities for all its staff and team. This entails that the Contractor shall foster an appropriate mix of people, whatever their ethnic origin, religions, age, and ability. The Contractor will be required to detail in its activity report accompanying the request for the final instalment the steps and achievements it made towards meeting these contractual provisions.

In accordance with the General conditions, the Contractor is under the obligation to acknowledge that the present service is delivered on behalf of the Community in all documents and media produced, in particular final delivered outputs, related reports, brochures, press releases, videos, software, etc, including at conferences or seminars, as follows.

This (publication, conference, training session) is supported by the European Community Programme for Employment and Social Solidarity (2007-2013). This programme was established to financially support the implementation of the objectives of the European Union in the employment and social affairs area, as set out in the Social Agenda, and thereby contribute to the achievement of the Lisbon Strategy goals in these fields.

The seven-year Programme targets all stakeholders who can help shape the development of appropriate and effective employment and social legislation and policies, across the EU-27, EFTA and EU candidate and pre-candidate countries.

The Programme has six general objectives. These are:

- (1) to improve the knowledge and understanding of the situation prevailing in the Member States (and in other participating countries) through analysis, evaluation and close monitoring of policies;*
- (2) to support the development of statistical tools and methods and common indicators, where appropriate broken down by gender and age group, in the areas covered by the programme;*
- (3) to support and monitor the implementation of Community law, where applicable, and policy objectives in the Member States, and assess their effectiveness and impact;*
- (4) to promote networking, mutual learning, identification and dissemination of good practice and innovative approaches at EU level;*
- (5) to enhance the awareness of the stakeholders and the general public about the EU policies and objectives pursued under each of the policy sections;*
- (6) to boost the capacity of key EU networks to promote, support and further develop EU policies and objectives, where applicable.*
