ANNEX

to the

proposal for a Council Decision

on the position on Decision No 1/2015 to be taken on behalf of the European Union by the Joint Veterinary Committee set up by the Agreement between the European Community and the Swiss Confederation on trade in agricultural products, regarding the amendment of Appendices 1, 2, 3, 4, 5, 6, 7, 10 and 11 of Annex 11 to the Agreement.
ANNEX

PROPOSAL FOR

DECISION NO 1/2015 OF THE JOINT VETERINARY COMMITTEE
CREATED BY THE AGREEMENT BETWEEN THE EUROPEAN COMMUNITY
AND THE SWISS CONFEDERATION
ON TRADE IN AGRICULTURAL PRODUCTS

of 0.0.0

amending Appendices 1, 2, 3, 4, 5, 6, 7, 10 and 11 to Annex 11 to the Agreement

THE JOINT VETERINARY COMMITTEE,

Having regard to the Agreement between the European Community and the Swiss Confederation on trade in agricultural products¹ and in particular Article 19(3) of Annex 11 thereto,

Whereas:

(1) The Agreement between the European Community and the Swiss Confederation on trade in agricultural products (hereinafter referred to as ‘the Agriculture Agreement’) entered into force on 1 June 2002.

(2) Under Article 19(1) of Annex 11 to the Agriculture Agreement, the Joint Veterinary Committee set up by the Agriculture Agreement (hereinafter referred to as ‘the Joint Veterinary Committee’) is responsible for considering any matter arising in connection with the said Annex and its implementation, and for carrying out the tasks provided for therein. Article 19(3) of that Annex authorises the Joint Veterinary Committee to amend the Appendices thereto, in particular with a view to their adaptation and updating.

(3) Decision No 2/2003 of the Joint Veterinary Committee² amended Appendices 1, 2, 3, 4, 5, 6 and 11 to Annex 11 to the Agriculture Agreement for the first time.

(4) Decision No 1/2013 of the Joint Veterinary Committee³ last amended Appendices 1, 2, 3, 5, 6 and 10 of Annex 11 to the Agriculture Agreement.

(5) A number of European Union and Swiss legislative provisions have been amended since the last amendment to the Appendices 1, 2, 3, 5, 6 and 10 of Annex 11 to the Agricultural Agreement by Decision No 1/2013 of the Joint Veterinary Committee. Given the scale of the amendments, the references to the legislation were updated.

(6) On 1 January 2013, the Federal Veterinary Office was transferred within the Federal Ministry of the Interior and merged with the Food Safety Division of the Federal Public Health Office to form one new agency on 1 January 2014. The new agency is called the Federal Food Safety and Veterinary Office. Following the merger, various legislative texts have had to be amended.

³ Decision No 1/2013 of the Joint Veterinary Committee set up by the Agreement between the European Community and the Swiss Confederation on trade in agricultural products of 22 February 2013 regarding the amendment of Appendices 1, 2, 3, 5, 6 and 10 to Annex 11 to the Agreement (2013/479/EU) (OJ L 264, 5.10.2013, p. 1).
(7) Switzerland has submitted to the Joint Veterinary Committee its plan stating the measures it intends to implement for the approval of its establishments for the purposes of Article 3 of Council Directive 2009/158/EC of 30 November 2009 on animal health conditions governing intra-Community trade in, and imports from, third countries of poultry and hatching eggs (OJ L 343, 22.12.2009, p. 74). Pursuant to the Agreement, the Joint Veterinary Committee is the competent authority for approving this plan.

(8) Until 31 December 2014, Switzerland may derogate from the Trichinella examination of carcasses and meat of domestic swine kept for fattening and slaughter in low-capacity slaughter establishments. These carcasses and meat and meat products produced from them must be marked with a special health stamp and may not be traded with the Member States of the European Union, in accordance with the provisions of Article 9a of the ordinance of the Federal Department of Home Affairs of 23 November 2005 on food products of animal origin (RS 817.022.108). Commission Regulation (EU) No 216/2014\(^4\) amends the specific rules applicable to the official controls on Trichinella in meat and provides for the delayed application of some provisions. In order to facilitate the gradual amendment of current practice in Switzerland, the possibility of a derogation for the Trichinella examination should be extended until 31 December 2016.

(9) This Decision shall enter into force on the day it is adopted.

(10) Appendices 1, 2, 3, 4, 5, 6, 7, 10 and 11 of Annex 11 to the Agriculture Agreement should be amended accordingly,

**HAS ADOPTED THIS DECISION:**

**Article 1**

Appendices 1, 2, 3, 4, 5, 6, 7, 10 and 11 of Annex 11 to the Agriculture Agreement are amended in accordance with Annexes I to IX to this Decision.

**Article 2**

The file submitted by Switzerland concerning the measures it intends to take for the approval of its establishments pursuant to Article 3 of Directive 2009/158/EC is recognised as being in line with the requirements of Council Directive 2009/158/EC\(^5\).

**Article 3**

This Decision, drawn up in duplicate, shall be signed by the joint chairmen or other persons empowered to act on behalf of the Parties to the Agriculture Agreement.

---

Article 4

This Decision shall enter into force on the day of its adoption.
It shall apply from 1 January 2015.
Done at Bern,

For the Swiss Confederation For the European Union
ANNEX I

Appendix 1 of Annex 11 to the Agricultural Agreement shall be replaced by the following:

"Appendix 1

Control measures/notification of diseases

I. Foot and mouth disease

A. LEGISLATION

* Unless indicated otherwise, any reference to an act shall mean that act as amended before Tuesday 31 December 2014.

<table>
<thead>
<tr>
<th>European Union</th>
<th>Switzerland</th>
</tr>
</thead>
</table>
2. Ordinance on epizootic diseases (OFE; RS 916.401) of 27 June 1995, in particular Articles 2 (highly contagious epizootic diseases), 49 (handling micro-organisms that are pathogenic for animals), 73 and 74 (cleaning and disinfection), 77 to 98 (common provisions concerning highly contagious epizootic diseases), 99 to 103 (specific measures concerning foot-and-mouth disease).
3. Ordinance of 28 June 2000 on the organisation of the Département fédéral de l'intérieur (Org DFI; RS 172.212.1), and in particular Article 12 thereof (reference laboratory, registration, monitoring and provision of vaccine against foot-and-mouth disease). |

B. IMPLEMENTING ARRANGEMENTS

1. The Commission and the Federal Food Safety and Veterinary Office shall notify each other of any intention to carry out emergency vaccinations. In extreme emergencies, notification may cover the decision as taken and the rules and procedures governing its implementation. At all events, consultations must be held as soon as possible within the Joint Veterinary Committee.

2. Pursuant to Article 97 of the Ordinance on epizootic diseases, Switzerland has established a contingency plan, which is published on the website of the Federal Food Safety and Veterinary Office.

3. The joint reference laboratory for identifying the foot-and-mouth virus shall be: The Pirbright Institute, Pirbright Laboratory, Ash Road, Pirbright, Surrey, GU24 0NF, United Kingdom. Switzerland shall pay the costs for which it is liable for operations carried out by the laboratory in that capacity. The functions and tasks of the laboratory shall be as laid down in Annex XVI to Directive 2003/85/EC.
II. Classical swine fever

</table>

B. IMPLEMENTING ARRANGEMENTS

1. The Commission and the Federal Food Safety and Veterinary Office shall notify each other of any intention to carry out emergency vaccinations. Consultations shall be held as soon as possible within the Joint Veterinary Committee.

2. If necessary, pursuant to Article 117(5) of the Ordinance on epizootic diseases, the Federal Food Safety and Veterinary Office shall lay down technical implementing rules on the marking and treatment of meat coming from protection and surveillance zones.

3. Pursuant to Article 121 of the Ordinance on epizootic diseases, Switzerland has a plan to eradicate classical swine fever in wild pigs in accordance with Articles 15 and 16 of Directive 2001/89/EC.

4. Pursuant to Article 97 of the Ordinance on epizootic diseases, Switzerland has established a contingency plan, which is published on the website of the Federal Food Safety and Veterinary Office.

5. On-the-spot inspections shall be carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 21 of Directive 2001/89/EC and Article 57 of the Law on epizootic diseases.

6. If necessary, pursuant to Article 89(2) of the Ordinance on epizootic diseases, the Federal Food Safety and Veterinary Office shall lay down technical implementing rules on
serological checks on pigs in protection and surveillance zones in accordance with Chapter IV of the Annex to Commission Decision 2002/106/EC *.

7. The joint reference laboratory for classical swine fever shall be the: Institut für Virologie der Tierärztlichen Hochschule Hannover, 15 Bünteweg 17, 30559 Hannover, Germany. Switzerland shall pay the costs for which it is liable for operations carried out by the laboratory in that capacity. The functions and tasks of the laboratory shall be as laid down in Annex IV to Directive 2001/89/EC.

</tr>
</tbody>
</table>

### B. IMPLEMENTING ARRANGEMENTS

1. Flat oyster farming is not currently practised in Switzerland. Should cases of bonamiosis or marteiliosis appear, the Federal Food Safety and Veterinary Office undertakes to adopt the necessary emergency measures in accordance with the EU rules on the basis of Article 57 of the Act on epizootic diseases.

2. With a view to combating diseases affecting fish and molluscs, Switzerland shall apply the Ordinance on epizootic diseases, in particular Articles 61 (obligations of leasers of fishing rights and of bodies responsible for monitoring fishing), 62 to 76 (general measures for combating disease), 277 to 290 (specific measures relating to fish diseases, diagnostic laboratory) and 291 (epizootic diseases to be monitored).

3. The European Union reference laboratory for crustacean diseases shall be the Centre for Environment, Fisheries & Aquaculture Science (CEFAS), Weymouth Laboratory, United Kingdom. The European Union reference laboratory for fish diseases shall be the National Veterinary Institute, Technical University of Denmark, Hångøvej 2, 8200 Århus, Denmark. The European Union reference laboratory for mollusc diseases shall be the Laboratoire IFREMER, BP 133, 17390 La Tremblade, France. Switzerland shall pay the costs for which it is liable for operations carried out by the laboratories in the above capacity. The functions and duties of the laboratories shall be as laid down in Part I of Annex VI to Directive 2006/88/EC.

4. On-the-spot inspections shall be carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 58 of Directive 2006/88/EC and Article 57 of the Law on epizootic diseases.
VIII. Transmissible spongiform encephalopathies

B. IMPLEMENTING ARRANGEMENTS

1. The EU reference laboratory for transmissible spongiform encephalopathies (TSEs) is the: Animal Health and Veterinary Laboratory Agency AHVLA Corporate Headquarters (Weybridge), Woodham Lane, New Haw, Addlestone, Surrey, KT15 3NB, United Kingdom. Switzerland shall pay the costs for which it is liable for operations carried out by the laboratory in that capacity. The functions and tasks of the laboratory shall be as laid down in Chapter B of Annex X to Regulation (EC) No 999/2001.

2. Pursuant to Article 57 of the Law on epizootic diseases, Switzerland has established an emergency plan for implementing measures to combat TSEs.
3. Under Article 12 of Regulation (EC) No 999/2001, any animal suspected of being infected by a TSE in the Member States of the European Union shall be placed under an official movement restriction until the results of a clinical and epidemiological examination carried out by the competent authority are known, or killed for the purposes of laboratory examination under official control.

In accordance with Articles 179b and 180a of the Ordinance on epizootic diseases, Switzerland has banned the slaughter of animals suspected of being infected by a TSE. Suspect animals must be killed without spilling blood and incinerated, and their brains must be analysed in the Swiss reference laboratory for TSEs.

Under Article 10 of the Ordinance on epizootic diseases, Switzerland has introduced a uniform identification system for bovine animals enabling them to be traced back to the dam and herd of origin and making it possible to establish that they are not the progeny of BSE suspect females or BSE confirmed bovine animals.

Pursuant to Article 179c of the Ordinance on epizootic diseases, Switzerland slaughters animals infected with BSE, at the latest by the end of the production phase, all animals of the bovine species born between one year before and one year after the birth of the contaminated animal and which, over this period of time, were part of the herd, and all the direct descendants of the contaminated cows born in the two years which preceded the diagnosis.

4. Pursuant to Article 180b of the Ordinance on epizootic diseases, Switzerland slaughters animals infected with scrapie, their dams and the direct descendants of contaminated dams, as well as all the other sheep and goats in the herd, with the exception of:
   – sheep carrying at least one ARR allele and no VRQ allele; and
   – animals less than two months old which are intended solely for slaughter. The head and organs of the abdominal cavity of these animals are disposed of in accordance with the provisions of the Ordinance on the elimination of animal by-products (OESPA). RS 916.441.22);

By way of exception, in the case of breeds which are low in number, the herd does not have to be slaughtered. In this case, the herd is placed under official veterinary surveillance for a period of two years during which a clinical examination of the animals in the herd is carried out twice a year. If during this period animals are presented for slaughter, their heads, including tonsils, are subjected to an analysis by the Swiss reference laboratory for TSEs.

These measures are reviewed according to the findings from animal health monitoring. In particular, the monitoring period is extended if a new case of the disease is detected in the herd.

In the event of a confirmed case of BSE in a sheep or goat, Switzerland undertakes to apply the measures laid down in Annex VII to Regulation (EC) No 999/2001.

5. Under Article 7 of Regulation (EC) No 999/2001, the Member States of the European Union prohibit the feeding of processed animal proteins to farmed animals which are kept, fattened or bred for the production of food. There is a total prohibition on feeding proteins derived from animals to ruminants in the EU Member States.

Under Article 27 of the Ordinance on the elimination of animal by-products (OESPA), Switzerland has introduced a total prohibition on the feeding of animal protein to farmed animals.
6. Under Article 6 of Regulation (EC) No 999/2001 and in accordance with Chapter A of Annex III to that Regulation, the Member States of the European Union are to introduce an annual BSE monitoring programme. This plan includes a rapid BSE test for all cattle more than 24 months old subject to emergency slaughter, animals which have died on the farm or found to be ill during the ante mortem inspection and all animals more than 30 months old slaughtered for human consumption.

The rapid BSE tests used by Switzerland are listed in Chapter C of Annex X to Regulation (EC) No 999/2001.

Pursuant to Article 176 of the Ordinance on epizootic diseases, Switzerland carries out an obligatory rapid BSE test on all cattle older than 48 months that have died, been killed for reasons other than slaughter, been taken diseased to the slaughterhouse or have suffered an accident.

7. Under Article 6 of Regulation (EC) No 999/2001 and in accordance with Chapter A of Annex III to that Regulation, the EU Member States are to introduce an annual monitoring programme for scrapie.

Pursuant to the provisions of Article 177 of the Ordinance on epizootic diseases, Switzerland has introduced a TSE monitoring programme for ovine and caprine animals more than 12 months old. Animals which are subject to emergency slaughter, have died on the farm or have been found to be ill during the ante mortem inspection and all animals slaughtered for human consumption were examined over the period from June 2004 to July 2005. As all the samples tested negative for BSE, samples for monitoring purposes are taken from clinical suspect animals, animals subject to emergency slaughter and animals which died on the farm.

The recognition of similarities in legislation governing the monitoring of TSEs in ovine and caprine animals will be reconsidered by the Joint Veterinary Committee.

8. The Joint Veterinary Committee is responsible for providing the information required in Article 6 and Chapter B of Annex III and in Annex IV (3.III) to Regulation (EC) No 999/2001.

9. On-the-spot inspections are carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 21 of Regulation (EC) No 999/2001 and Article 57 of the Law on epizootic diseases.

C. ADDITIONAL INFORMATION

1. From 1 January 2003, and pursuant to the Ordinance of 10 November 2004 on the allocation of contributions to cover the costs of eliminating animal waste (RS 916.407), Switzerland has introduced a financial incentive for farms on which bovine animals are born and slaughterhouses where they are slaughtered, provided they comply with the procedures for declaring animal movements as provided for in the legislation in force.

2. Under Article 8 of Regulation (EC) No 999/2001 and in accordance with point 1 of Annex XI to that Regulation, the Member States of the European Union are to remove and destroy specified risk materials (SRMs).

The list of SRMs removed from bovine animals comprises the skull, excluding the mandible but including the brain and eyes, and the spinal cord of bovine animals aged over 12 months; the spinal column, excluding the vertebrae of the tail, the spinous and transversal processes of the cervical and lumbar vertebrae and the median sacral crest and the wings of the sacrum, but including the dorsal root ganglia and spinal cord of bovine
animals aged over 24 months; the tonsils, the intestines from the duodenum to the rectum and the mesentery of bovine animals of all ages.

The list of SRMs removed from ovine and caprine animals comprises the skull, including the brain and eyes, the tonsils and the spinal cord of ovine and caprine animals aged over 12 months or which have a permanent incisor erupted through the gum, and the spleen and ileum of ovine and caprine animals of all ages.

Under Article 179d of the Ordinance on epizootic diseases and Article 4 of the Ordinance on foodstuffs of animal origin, Switzerland has introduced a policy of removing SRMs from the animal and human food chains. The list of SRMs removed from bovine animals comprises in particular the spinal column of animals aged over 30 months, and the tonsils, intestines from the duodenum to the rectum, and mesentery of animals of all ages.

Under Article 180c of the Ordinance on epizootic diseases and Article 4 of the Ordinance on foodstuffs of animal origin, Switzerland has introduced a policy of removing SRMs from the animal and human food chains. The list of SRMs removed from ovine and caprine animals includes in particular the brain in the cranial cavity, the spinal cord with the dura mater and the tonsils of animals aged over 12 months or which have a permanent incisor erupted through the gum, and the spleen and ileum of animals of all ages.

Under Article 22 of the Ordinance on the elimination of animal by-products, Switzerland is to incinerate category 1 animal by-products, including specified risk materials and animals which have died on the farm.

B. IMPLEMENTING ARRANGEMENTS

1. The EU reference laboratories are the following:
   - EU reference laboratory for the analysis and testing of zoonoses (salmonella):
     Rijksinstituut voor Volksgezondheid en Milieuhygiëne (RIVM)
     3720 BA Bilthoven
     Netherlands
   - EU reference laboratory for the monitoring of marine biotoxins:
     Agencia Española de Seguridad Alimentaria (AESA):
     36200 Vigo
     Spain
   - EU reference laboratory for monitoring the viral and bacteriological contamination of bivalve molluscs:
     The laboratory of the Centre for Environment, Fisheries and Aquaculture Science (CEFAS), Weymouth
     Dorset DT4 8UB
     United Kingdom
   - EU reference laboratory for Listeria monocytogenes:
     AFSSA – Laboratoire d’études et de recherches sur la qualité des aliments et sur les procédés agroalimentaires (LERQAP)
     94700 Maisons-Alfort
     France
   - EU reference laboratory for Coagulase positive Staphylococci, including Staphylococcus aureus:
     AFSSA – Laboratoire d’études et de recherches sur la qualité des aliments et sur les procédés agroalimentaires (LERQAP)
     94700 Maisons-Alfort
     France
   - EU reference laboratory for Escherichia coli, including Verotoxigenic E. coli (VTEC):
     Istituto Superiore di Sanità (ISS)
     00161 Rome
     Italy
   - EU reference laboratory for Campylobacter:
     Statens Veterinärmedicinska Anstalt (SVA)
     751 89 Uppsala
     Sweden
   - EU reference laboratory for parasites (in particular Trichinella, Echinococcus and Anisakis):
     Istituto Superiore di Sanità (ISS)
     00161 Rome
     Italy
   - EU reference laboratory for antimicrobial resistance:
     Danmarks Fødevareforsknings (DFVF)
     1790 Copenhagen V
     Denmark
2. Switzerland shall pay the costs for which it is liable for operations carried out by the laboratories in the above capacity. The functions and tasks of these laboratories shall be as laid down in Regulation (EC) No 882/2004 of the European Parliament and of the Council of 29 April 2004 on official controls performed to ensure the verification of compliance with feed and food law, animal health and animal welfare rules (OJ L 165, 30.4.2004, p. 1).

3. Switzerland shall transmit to the Commission every year by the end of May a report on trends and sources of zoonoses, zoonotic agents and antimicrobial resistance, covering the data collected pursuant to Articles 4, 7 and 8 of Directive 2003/99/EC during the previous year. This report shall also include the information referred to in Article 3(2)(b) of Regulation (EC) No 2160/2003. This report shall be sent by the Commission to the European Food Safety Authority with a view to the publication of the summary report concerning the trends and sources of zoonoses, zoonotic agents and antimicrobial resistance in the European Union.

B. IMPLEMENTING ARRANGEMENTS

1. Pursuant to Article 301(1)(i) of the Ordinance on epizootic diseases, the cantonal veterinarian shall authorise holdings, markets and other similar establishments or events as defined in Article 2 of Directive 64/432/EEC. For the purposes of this Annex, in accordance with Articles 11, 12 and 13 of Directive 64/432/EEC, Switzerland shall draw up a list of its approved assembly centres, transporters and traders.

2. The information provided for in Article 11(3) of Directive 64/432/EEC shall be submitted to the Joint Veterinary Committee.

3. For the purposes of this Annex, Switzerland is recognised as fulfilling the conditions laid down in Annex A(II)(7) to Directive 64/432/EEC as regards bovine brucellosis. In order to maintain its status as having an officially brucellosis-free bovine herd, Switzerland undertakes to meet the following conditions:

   a) any animal of the bovine species suspected of being infected with brucellosis shall be reported to the competent authorities and the animal concerned shall undergo the official tests for brucellosis, comprising at least two serological tests with complement fixation and a microbiological examination of suitable samples taken in cases of abortion;
b) until such time as suspicion of the disease is lifted, i.e. when the tests provided for in point (a) have produced negative results, the officially brucellosis-free status of the herd to which the animal (or animals) of the bovine species suspected of infection belongs shall be suspended.

Detailed information concerning herds testing positive and an epidemiological report shall be submitted to the Joint Veterinary Committee. If any of the conditions laid down in Annex A(II)(7) to Directive 64/432/EEC is not fulfilled by Switzerland, the Federal Food Safety and Veterinary Office shall immediately notify the Commission. The situation shall be considered within the Joint Veterinary Committee with a view to reviewing this paragraph.

4. For the purposes of this Annex, Switzerland is recognised as fulfilling the conditions laid down in Annex A(I)(4) to Directive 64/432/EEC as regards bovine tuberculosis. In order to maintain its status as having an officially tuberculosis-free bovine herd, Switzerland undertakes to meet the following conditions:

a) an identification system shall be introduced allowing each bovine animal to be traced back to its herd of origin;

b) all slaughtered animals shall undergo a post mortem inspection carried out by an official veterinarian;

c) any suspected cases of tuberculosis in live, dead or slaughtered animals shall be reported to the competent authorities;

d) in each case the competent authorities shall carry out the investigations necessary to establish whether the suspected disease is present, including upstream research on herds of origin and transit herds; where lesions suspected to have been caused by tuberculosis are discovered during an autopsy or at the time of slaughter, the competent authorities shall have a laboratory examination conducted on the lesions;

e) the officially tuberculosis-free status of the herds of origin and transit herds to which the bovine animal suspected of infection belong shall be suspended until clinical, laboratory or tuberculin tests have confirmed that no bovine tuberculosis is present;

f) where tuberculin, clinical or laboratory tests confirm that tuberculosis is present, the officially tuberculosis-free status of the herds of origin and transit herds shall be withdrawn;

g) officially tuberculosis-free status shall not be established until all the animals suspected of being infected have been removed from the herd, the premises and equipment have been disinfected, and all the remaining animals aged over six weeks have reacted negatively to at least two official intradermal injections of tuberculin pursuant to Annex B to Directive 64/432/EEC, the first being carried out at least six months after the infected animal has left the herd and the second at least six months after the first.

Detailed information on the infected herds and an epidemiological report shall be submitted to the Joint Veterinary Committee. If any of the conditions laid down in the first subparagraph of Annex A(II)(4) to Directive 64/432/EEC is not fulfilled by Switzerland, the Federal Food Safety and Veterinary Office shall immediately notify the Commission. The situation shall be considered within the Joint Veterinary Committee with a view to reviewing this paragraph.

5. For the purposes of this Annex, Switzerland is recognised as fulfilling the conditions laid down in Chapter I.F of Annex D to Directive 64/432/EEC as regards enzootic bovine
In order to maintain its status as having an officially enzootic bovine leucosis-free herd, Switzerland undertakes to meet the following conditions:

a) the Swiss herd must be monitored by sampling. The size of the sample shall be such that it can be declared with 99% reliability that less than 0.2% of herds are infected with enzootic bovine leucosis;

b) all slaughtered animals shall undergo a post mortem inspection carried out by an official veterinarian;

c) any suspected cases of enzootic bovine leucosis found in clinical examinations, autopsies or checks on meat shall be reported to the competent authorities;

d) where enzootic bovine leucosis is suspected or found to be present, the officially leucosis-free status of the herd shall be suspended until the isolation period is terminated;

e) the isolation period shall be terminated when, after the infected animals and, where appropriate, their calves have been eliminated, two serological examinations carried out at an interval of at least 90 days have produced negative results.

If enzootic bovine leucosis has been found in 0.2% of herds, the Federal Food Safety and Veterinary Office shall immediately notify the Commission. The situation shall be considered within the Joint Veterinary Committee with a view to reviewing this paragraph.

6. For the purposes of this Annex, Switzerland is recognised as officially free from infectious bovine rhinotracheitis. In order to maintain that status, Switzerland undertakes to meet the following conditions:

a) the Swiss herd must be monitored by sampling. The size of the sample shall be such that it can be declared with 99% reliability that less than 0.2% of herds are infected with infectious bovine rhinotracheitis;

b) breeding bulls aged over 24 months shall undergo an annual serological examination;

c) any suspected cases of infectious bovine rhinotracheitis shall be reported to the competent authorities and the animals concerned shall undergo official tests for infectious bovine rhinotracheitis, comprising virological or serological tests;

d) where infectious bovine rhinotracheitis is suspected or found to be present, the officially infection-free status of the herd shall be suspended until the isolation period is terminated;

e) the isolation period shall be terminated when a serological examination carried out at least 30 days after the infected animals have been eliminated produces negative results.

By virtue of the recognised status of Switzerland, Decision 2004/558/EEC* shall apply mutatis mutandis.

The Federal Food Safety and Veterinary Office shall immediately notify the Commission of any change in the conditions on which recognition of that status is based. The situation shall be considered within the Joint Veterinary Committee with a view to reviewing this paragraph.

7. For the purposes of this Annex, Switzerland is recognised as officially free from Aujeszky's disease. In order to maintain that status, Switzerland undertakes to meet the following conditions:
a) the Swiss herd must be monitored by sampling. The size of the sample shall be such that it can be declared with 99% reliability that less than 0.2% of herds are infected with Aujeszky's disease;

b) any suspected cases of Aujeszky’s disease shall be reported to the competent authorities and the animals concerned shall undergo official tests for Aujeszky’s disease including virological or serological tests;

c) where Aujeszky's disease is suspected or found to be present, the officially infection-free status of the herd shall be suspended until the isolation period is terminated;

d) Isolation shall be terminated when, after the infected animals have been eliminated, two serological examinations of all breeding animals and a representative number of fattening animals carried out at an interval of least 21 days have produced negative results;

By virtue of the recognised status of Switzerland, Commission Decision 2008/185/EEC shall apply mutatis mutandis.

The Federal Food Safety and Veterinary Office shall immediately notify the Commission of any change in the conditions on which recognition of that status is based. The situation shall be considered within the Joint Veterinary Committee with a view to reviewing this paragraph.

8. The question of possible additional guarantees concerning transmissible gastroenteritis of pigs (TGE) and porcine reproductive and respiratory syndrome (PRRS) shall be considered as soon as possible by the Joint Veterinary Committee. The Commission shall inform the Federal Food Safety and Veterinary Office of any developments.

9. In Switzerland the Institute for Veterinary Bacteriology of the University of Zurich is responsible for the official testing of tuberculin within the meaning of point 4 of Annex B to Directive 64/432/EEC.

10. The Centre for Zoonotic Diseases, Bacterial Diseases and Antimicrobial Resistance (ZOBA) shall be responsible for the official testing of antigens (brucellosis) in Switzerland in accordance with Annex C(A)(4) to Directive 64/432/EEC.

11. Bovine animals and swine traded between the Member States of the European Union and Switzerland shall be accompanied by health certificates in accordance with the models set out in Annex F to Directive 64/432/EEC. The following adaptations shall apply:

   – Model 1: in section C, the certifications are adapted as follows:
     – in point 4, relating to the additional guarantees, the following shall be added to the indents:
       ′– disease: infectious bovine rhinotracheitis,
       – in accordance with Commission Decision 2004/558/EC, which shall apply mutatis mutandis;′.

   – Model 2: in section C, the certifications are adapted as follows:
     – in point 4, relating to the additional guarantees, the following shall be added to the indents:
       ′– disease: Aujeszky's,
       – in accordance with Commission Decision 2008/185/EC, which shall apply mutatis mutandis;′.
For the purposes of applying this Annex, bovine animals traded between the Member States of the European Union and Switzerland shall be accompanied by additional health certificates containing the following health declarations:

- Bovine animals:
  - are identified by a permanent identification system enabling them to be traced back to the dam and herd of origin and making it possible to establish that they are not the progeny of BSE suspect or confirmed females born during the two years preceding the diagnosis;
  - do not come from herds where a suspected case of BSE is under investigation;
  - were born after 1 June 2001.

B. IMPLEMENTING ARRANGEMENTS

1. For the purposes of Article 4(2) of Directive 88/407/EEC, it is noted that in Switzerland all centres keep only animals giving a negative reaction to the serum neutralisation test or the Elisa test.

2. The information provided for in Article 5(2) of Directive 88/407/EEC shall be submitted to the Joint Veterinary Committee.

3. On-the-spot inspections shall be carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 16 of Directive 88/407/EC and Article 57 of the Law on epizootic diseases.

4. Bovine semen traded between the Member States of the European Union and Switzerland shall be accompanied by health certificates in accordance with the model set out in Annex D to Directive 88/407/EEC.
VIII. PORCINE SEMEN

A. LEGISLATION*

* Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2014.

B. IMPLEMENTING ARRANGEMENTS

1. For the purposes of this Annex, this point shall cover trade in live animals not subject to points I to V, and in semen, ova and embryos not subject to points VI to VIII.
2. The European Union and Switzerland undertake not to ban or restrict trade in the live animals, semen, ova and embryos as referred to in point 1 for animal-health reasons other than those resulting from the application of this Annex, and in particular any safeguard measures taken pursuant to Article 20 thereof.

3. Ungulates of species other than those referred to in points I, II and III which are traded between the Member States of the European Union and Switzerland shall be accompanied by health certificates in accordance with the model set out in the first section of Part I of Annex E to Directive 92/65/EEC, bearing the declaration provided for in Article 6(A)(1)(e) of Directive 92/65/EEC.

4. Lagomorphs traded between the Member States of the European Union and Switzerland shall be accompanied by health certificates in accordance with the models set out in part 1 of Annex E to Directive 92/65/EEC, bearing where necessary the declaration provided for in the second subparagraph of Article 9(2) of Directive 92/65/EEC. The declaration may be adapted by the Swiss authorities to include in full the requirements of Article 9 of Directive 92/65/CEE.

5. The information provided for in the fourth subparagraph of Article 9(2) of Directive 92/65/EEC shall be submitted to the Joint Veterinary Committee.

6. a) Consignments of cats and dogs from the European Union to Switzerland shall be subject to the requirements of Article 10(2) of Directive 92/65/EEC.

b) The identification system shall be the one provided for in Regulation (EU) No 576/2013. The passport to be used shall be the one provided for in Part 3 of Annex II to Implementing Regulation (EU) No 577/2013.

+++++The validity of the anti-rabies vaccination, and if relevant the re-vaccination, is defined in Annex III to Regulation (EU) No 576/2013++++++.

7. Semen, ova and embryos of the ovine or caprine species traded between the Member States of the European Union and Switzerland shall be accompanied by health certificates as provided for by Commission Decision 2010/470/EU++++++.

8. Semen of the equine species traded between the Member States of the European Union and Switzerland shall be accompanied by the health certificate provided for in Decision 2010/470/EU.

9. Ova and embryos of the equine species traded between the Member States of the European Union and Switzerland shall be accompanied by health certificates in accordance with Decision 2010/470/EU.

10. Ova and embryos of the porcine species traded between the Member States of the European Union and Switzerland shall be accompanied by health certificates in accordance with Decision 2010/470/EU.

11. Colonies of bees (hives or queens with attendants) traded between the Member States of the European Union and Switzerland shall be accompanied by health certificates in accordance with the model set out in the second part of Annex E to Directive 92/65/EEC.

12. Animals, semen, embryos and ova from bodies, institutes or centres approved in accordance with Annex C to Directive 92/65/EEC traded between the Member States of the European Union and Switzerland shall be accompanied by health certificates in accordance with the model set out in the third part of Annex E to Directive 92/65/EEC.

13. For the purposes of Article 24 of Directive 92/65/EEC, the information provided for in paragraph 2 of that Article shall be submitted to the Joint Veterinary Committee.
X. NON-COMMERCIAL MOVEMENTS OF PET ANIMALS

A. LEGISLATION*

Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2014.

<table>
<thead>
<tr>
<th>European Union</th>

B. IMPLEMENTING ARRANGEMENTS

1. The identification system shall be the one provided for in Regulation (EC) No 576/2013.
2. The validity of the anti-rabies vaccination, and if relevant the re-vaccination, is defined in Annex III to Regulation (EU) No 576/2013.
3. The model passport to be used is that provided for in Part 3 of Annex III to Regulation (EU) No 577/2013. The additional requirements relating to this passport are laid down in Part 4 of Annex III to Regulation (EU) No 577/2013.
4. For the purposes of this Appendix, the provisions of Chapter II of Regulation (EC) No 576/2013 shall apply mutatis mutandis to the non-commercial movement of pet animals between the Member States of the European Union and Switzerland. Documentary and identity checks that have to be carried out for non-commercial movements of pet animals to Switzerland from a Member State of the European Union shall be carried out in line with Article 33 of Regulation (EU) No 576/2013.

** Commission Decision 2008/185/EC of 21 February 2008 on additional guarantees in intra-Community trade of pigs relating to Aujeszky's disease and criteria to provide information on this disease (OJ L 59, 4.3.2008, p. 19).
+++++ Commission Decision 2010/470/EU of 26 August 2010 laying down model health certificates for trade within the Union in semen, ova and embryos of animals of the equine, ovine and caprine species and in ova and embryos of animals of the porcine species (OJ L 228, 31.08.2010, p. 15).
ANNEX III

Appendix 3 of Annex 11 to the Agricultural Agreement shall be replaced by the following:

"Appendix 3

Imports of live animals, their semen, ova and embryos from third countries

I. EUROPEAN UNION — LEGISLATION*

* Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2014.

A. Ungulates, excluding equidae

B. Equidae

C. Poultry and hatching eggs

D. Aquaculture animals

E. Bovine embryos

F. Bovine semen

G. Porcine semen

H. Other live animals

I. Other specific provisions

II. SWITZERLAND – LEGISLATION*

* Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2014.

1. Law of 1 July 1966 on epizootic diseases (LFE; RS 916.40);

2. Ordinance of 27 June 1995 on epizootic diseases (OFE; RS 916.401);

4. Ordinance of 18 April 2007 on the import and transit of animals by air from third countries (OITA; RS 916.443.12).

5. Ordinance of 27 August 2008 on the import and transit of animal products by air from third countries (OITPA; RS 916.443.13).

6. Ordinance of the DFI of 16 May 2007 on controls on the import and transit of animals and animal products (Ordinance on controls, OITE; RS 916.443.106);

7. Ordinance of 18 April 2007 on the importation of pet animals (OIAC; RS 916.443.14).

8. Ordinance of 18 August 2004 on veterinary medicinal products (OMédV; RS 812.212.27).

9. Ordinance of 30 October 1985 on the fees levied by the Federal Food Safety and Veterinary Office (Ordinance on the Fees of the Federal Food Safety and Veterinary Office; RS916.472);
III. IMPLEMENTING PROVISIONS

The Federal Food Safety and Veterinary Office shall apply, simultaneously with the Member States of the European Union, the import conditions set out in the acts mentioned in point I of this Appendix, the implementing measures and the lists of establishments from which the corresponding imports are authorised. This undertaking shall apply to all the relevant acts, irrespective of their date of adoption.

The Federal Food Safety and Veterinary Office may adopt more restrictive measures and require additional guarantees. Consultations shall be held within the Joint Veterinary Committee to find suitable solutions.

The Federal Food Safety and Veterinary Office and the Member States of the European Union shall notify each other of the specific import conditions established bilaterally, which have not been harmonised at European Union level.

For the purposes of this Annex, for Switzerland, the institutions accepted as approved centres in accordance with Annex C to Directive 92/65/EEC shall be published on the website of the Federal Food Safety and Veterinary Office."

B. IMPLEMENTING ARRANGEMENTS

For the purposes of this Appendix, live animals and animal products traded between the Member States of the Community and Switzerland shall circulate under the conditions established for trade between the Member States of the Community.

Without prejudice to the provisions on zootechnical checks in Appendices 5 and 6, the Swiss authorities undertake to ensure that Switzerland applies to its imports the same provisions as those in Council Directive 94/28/EC.

Where difficulties arise, the matter shall be referred to the Joint Veterinary Committee at the request of either party."

B. IMPLEMENTING ARRANGEMENTS

The Commission, in cooperation with the Federal Food Safety and Veterinary Office, shall integrate Switzerland into the TRACES system, in accordance with Commission Decision 2004/292/EC.

If necessary, transitional and complementary measures shall be laid down by the Joint Veterinary Committee.
CHAPTER II
Veterinary and zootechnical controls applicable to the trade between the Member States of the European Union and Switzerland

A. LEGISLATION*

* Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2014.

Veterinary and zootechnical checks applicable in trade between the Member States of the Union and Switzerland shall be carried out in accordance with the provisions of the following acts:

<table>
<thead>
<tr>
<th>European Union</th>
<th>Switzerland</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>3. Ordinance of the DFI of 16 May 2007 on controls on the import and transit of animals and animal products (Ordinance on controls, OITE; RS 916.443.106);</td>

</tr>
</tbody>
</table>

B. IMPLEMENTING ARRANGEMENTS

In the cases provided for in Article 8 of Directive 90/425/EEC, the competent authorities of the place of destination shall contact the competent authorities of the place of dispatch without delay. They shall take all necessary measures and notify the competent authority of the place of dispatch and the Commission of the nature of the checks carried out, the decisions taken and the reasons for such decisions.

The Joint Veterinary Committee shall be responsible for the application of the provisions of Articles 10, 11 and 16 of Directive 89/608/EEC and Articles 9 and 22 of Directive 90/425/EEC.

C. SPECIAL RULES AND PROCEDURES FOR IMPLEMENTATION FOR ANIMALS SENT FOR GRAZING IN BORDER AREAS

1. Definitions

Grazing: dispatching animals to a Member State or to Switzerland with a view to grazing in a 10 km strip on either side of the border. In special, duly substantiated conditions, a wider strip on either side of the border between Switzerland and the Union may be authorised by the competent authorities concerned.

Daily grazing: grazing where the animals are returned to their holding of origin in a Member State or in Switzerland at the end of each day.
2. The provisions of Commission Decision 2001/672/EC\textsuperscript{1} shall apply \textit{mutatis mutandis} to grazing between the Member States and Switzerland. However, for the purposes of this Annex, the following adjustments shall apply to Article 1 of Decision 2001/672/EC:

– the reference to the period from 1 May to 15 October shall be replaced by “the calendar year”;
– for Switzerland, the parties referred to in Article 1 of Decision 2001/672/EC and referred to in the corresponding Annex shall be:

SWITZERLAND
CANTON OF ZÜRICH
CANTON OF BERN/BERNE
CANTON OF LUZERN
CANTON OF URI
CANTON OF SCHWYZ
CANTON OF OBWALDEN

CANTON OF THURGAU
CANTON OF TICINO
CANTON OF VAUD
CANTON OF VALAIS/WALLIS
CANTON OF NEUCHÂTEL

\textsuperscript{1} Commission Decision 2001/672/EC of 20 August 2001 laying down special rules applicable to movements of bovine animals when put out to summer grazing in mountain areas (OJ L 235, 4.9.2001, p. 23).
Pursuant to the Ordinance on epizootic diseases of 27 June 1995 (OFE; RS 916.401), and in particular Article 7 (registration) thereof and the Ordinance of 26 November 2011 on the database on animal movements (Ordinance on the BDTA; RS 916.404.1), and in particular Section 2 (content of the database) thereof, Switzerland is to allocate to each pasturage a specific registration code which must be registered in the national database on bovine animals.

3. In the case of grazing between the Member States of the Community and Switzerland, the official veterinarian of the country of dispatch shall:
   a) on the date of issue of the certificate and no later than 24 hours before the planned date of arrival of the animals, by means of the computerised system linking veterinary authorities provided for in Article 20 of Directive 90/425/EEC, inform the competent authority of the place of destination (local veterinary unit) to which the animals have been dispatched;
   b) examine the animals within 48 hours prior to their departure for the grazing ground; the animals must be duly identified;
   c) issue a certificate in accordance with the model in point 9 below.

4. Throughout the duration of the grazing period, the animals shall remain under customs control.

5. The holder of the animals must:
   a) agree, in a written statement, to comply with all measures taken pursuant to this Annex and any other measures introduced at local level, in the same way as any holder originating in a Member State or Switzerland;
   b) pay the costs of the checks required pursuant to this Annex;
   c) cooperate fully with arrangements for customs or veterinary checks required by the authorities of the country of dispatch or of destination.

6. When the animals return at the end of the season or before, the official veterinarian of the country where the grazing ground is located shall:
   a) on the date of issue of the certificate and no later than 24 hours before the planned date of arrival of the animals, by means of the computerised system linking veterinary authorities provided for in Article 20 of Directive 90/425/EEC, inform the competent authority of the place of destination (local veterinary unit) to which the animals have been dispatched;
   b) examine the animals within 48 hours prior to their departure for the grazing ground; the animals must be duly identified;
   c) issue a certificate in accordance with the model in point 9 below.

7. In the event of outbreaks of disease, the competent veterinary authorities shall take appropriate measures by mutual agreement. Those authorities shall consider how to cover any costs involved. If necessary, the matter shall be referred to the Joint Veterinary Committee.

8. As an exception to the rules on grazing in points 1 to 7, in the case of daily grazing between the Member States of the Community and Switzerland:
a) the animals shall not enter into contact with animals from another holding;
b) the holders of such animals shall undertake to inform the competent veterinary authority of any contact between their animals and animals from another holding;
c) the health certificate set out in point 9 below shall be presented to the competent veterinary authorities every calendar year when the animals first enter a Member State or Switzerland. This health certificate must be presented to the competent veterinary authorities at the request of the latter;
d) points 2 and 3 above shall apply only to the first time in each calendar year that the animals are dispatched to a Member State or to Switzerland;
e) point 6 shall not apply;
f) the holders of animals shall undertake to inform the competent veterinary authority of the end of the grazing period.

9. Model health certificate for bovine animals sent for grazing or daily grazing in border areas and for bovine animals returning from border grazing:

II. Health information

II.a. Certificate reference No

II.b. Local reference number:

A. Health certificate for bovine animals sent for grazing or daily grazing in border areas.

I, the undersigned official veterinarian, certify that each animal from the lot described above:

A.1. comes from a holding of origin and an area which, in conformity with Community or national legislation, is not subject to any prohibition or restriction for reasons of animal diseases affecting bovine animals;

A.2. comes from a herd of origin situated in a Member State or part of its territory:
   a) with a surveillance network approved by Commission Decision xx/xx/EC, or, for Switzerland, by the Agreement of 21 June 1999 between the European Community and Switzerland (point I of Appendix 2 to Annex 11);
   b) which is officially recognised as free of leucosis, tuberculosis and brucellosis.

A.3. is an animal for breeding (3) or production (1) that:
   a) has been resident, as far as can be ascertained, on the holding of origin during the past 30 days, or since birth if less than 30 days old, and no animal imported from a third country was introduced into that holding during this period, unless it was isolated from all other animals on the holding;
   b) has not been in contact during the past 30 days with animals from herds not meeting the conditions set out in point 2.

A.4. The above described animals were inspected on [insert date], during the 48 hours before scheduled departure and showed no clinical signs of infectious or contagious disease.

A.5. The holding of origin and, where applicable, the approved assembly centre and the area they are situated in are not subject to any prohibitions or restrictions for reasons of animal diseases affecting bovine animals in conformity with Community or national legislation.

A.6. All applicable provisions of Council Directive 64/432/EEC have been fulfilled.

A.7. The animals comply with the additional guarantees regarding infectious bovine rhinotracheitis/infectious pustular vulvovaginitis in accordance with Commission Decision 2004/558/EC, which applies mutatis mutandis in accordance with the Agreement of 21 June 1999 between the European Community and Switzerland.

A.8. at the time of inspection the above animals were fit to be transported on the intended journey in accordance with the provisions of Council Regulation (EC) No 1/2005.

A.9. Date of arrival at the pasture (6) ...

A.10. Planned date of departure from the pasture: …

B. Health certificate for bovine animals returning from grazing in border areas (at or before the end of the normal grazing period).

B.1. the animals described above [list of animals returning early (3) or list of animals on the associated original certificate (3), (7), (8)] were inspected on … (date of loading or 48 hours before departure) and showed no clinical signs of infectious or contagious disease;

B.2. the area in which the animals have been grazing is not subject to any prohibition or restriction in connection with animal diseases affecting the bovine species in accordance with Community or national legislation and, in particular, no cases of tuberculosis, brucellosis or leucosis have been found during the grazing period.

* Part A to be filled in for dispatch to grazing or daily grazing in a border area, Part B to be filled in for return from grazing in a border area.

(1) The information which must appear on this certificate must be entered in the computerised system linking veterinary authorities provided for in Article 20 of Directive 90/425/EEC on the date of issue of the certificate and no later than 24 hours before the planned date of arrival of the animals.

(2) This certificate shall be valid for ten days from the date of the health inspection carried out in Switzerland or in the Member State of origin. In the case of daily grazing, this certificate shall be valid for the entire grazing period.

(3) Delete as appropriate.

(4) In the case of daily grazing, this certificate shall be valid for the entire grazing period.

CHAPTER III
Conditions for trade between the European Union and Switzerland

A. LEGISLATION

For the trade in live animals, their semen, ova, embryos, and the border grazing of bovine animals between the European Union and Switzerland, the health certificates are those provided for by this Annex and available in the TRACES system, pursuant to Commission Regulation (EC) No 599/20041.

CHAPTER IV
Veterinary checks applicable to imports from third countries

A. LEGISLATION*

* Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2014.

Checks on imports from third countries shall be carried out in accordance with the provisions of the following acts:

<table>
<thead>
<tr>
<th>European Union</th>
<th>Switzerland</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>6. Ordinance of 30 October 1985 on the fees levied by the Federal Food Safety and Veterinary Office (Ordinance on the Fees of the Federal Food Safety and Veterinary Office; RS 916.472);</td>
</tr>
<tr>
<td></td>
<td>7. Ordinance of 18 August 2004 on veterinary medicinal products (OMédV; RS 812.212.27).</td>
</tr>
</tbody>
</table>

---

and 91/664/EEC (OJ L 125, 23.5.1996, p. 10);

### B. IMPLEMENTING ARRANGEMENTS

1. For the purposes of implementing Article 6 of Directive 91/496/EEC, the Member States’ border inspection posts approved for veterinary checks on live animals are listed in the Annex to Decision 2009/821/EC+.

2. For the purposes of implementing Article 6 of Directive 91/496/EEC, the border inspection posts for Switzerland shall be:

<table>
<thead>
<tr>
<th>Name</th>
<th>TRACES code</th>
<th>Type</th>
<th>Inspection centre</th>
<th>Type of approval</th>
</tr>
</thead>
<tbody>
<tr>
<td>Zürich Airport</td>
<td>CHZRH4</td>
<td>A</td>
<td>Centre 3</td>

</tr>
<tr>
<td>Geneva Airport</td>
<td>CHGVA4</td>
<td>A</td>
<td>Centre 2</td>
<td>O - Other animals (including zoo animals)*</td>
</tr>
</tbody>
</table>

* By reference to the approval categories defined in Decision 2009/821/EC.

The Joint Veterinary Committee shall be responsible for any subsequent amendments to the list of border inspection posts, their inspection centres and their type of approval.

On-the-spot inspections shall be carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 19 of Directive 91/496/EC and Article 57 of the Law on epizootic diseases.

3. The Federal Food Safety and Veterinary Office shall apply, simultaneously with the Member States of the European Union, the import conditions referred to in Appendix 3 of this Annex, and the implementing measures.

The Federal Food Safety and Veterinary Office may adopt more restrictive measures and require additional guarantees. Consultations shall be held within the Joint Veterinary Committee to find suitable solutions.

The Federal Food Safety and Veterinary Office and the Member States of the European Union shall notify each other of the specific import conditions established bilaterally which have not been harmonised at European Union level.

4. The border inspection posts of the Member States of the European Union referred to in point 1 shall check imports from third countries destined for Switzerland in accordance with point A of Chapter IV of this Appendix.
5. The Swiss border inspection posts mentioned in point 2 shall check imports from third countries destined for the Member States of the European Union in accordance with point A of Chapter IV of this Appendix.

CHAPTER V
Specific provisions

1. IDENTIFICATION OF LIVESTOCK

A. LEGISLATION*

* Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2014.

Checks on imports from third countries shall be carried out in accordance with the provisions of the following acts:

<table>
<thead>
<tr>
<th>European Union</th>
<th>Switzerland</th>
</tr>
</thead>
</table>

B. IMPLEMENTING ARRANGEMENTS

a. The Joint Veterinary Committee shall be responsible for the application of Article 4(2) of Directive 2008/71/EC.

b. On-the-spot inspections shall be carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 22 of Regulation (EC) No 1760/2000, Article 57 of the Act on epizootic diseases and Article 1 of the Ordinance of 26 October 2011 on the coordination of inspections of agricultural holdings (OCI, RS 910.15).

2. ANIMAL WELFARE

A. LEGISLATION*

* Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2014.

<table>
<thead>
<tr>
<th>European Union</th>
<th>Switzerland</th>
</tr>
</thead>
<tbody>
<tr>
<td>2. Ordinance of 23 April 2008 on animal welfare</td>
<td>2. Ordinance of 23 April 2008 on animal welfare</td>
</tr>
</tbody>
</table>

B. IMPLEMENTING ARRANGEMENTS

a) The Swiss authorities undertake to comply with the provisions of Regulation (EC) No 1/2005 for trade between Switzerland and the European Union and for imports from third countries.

b) In the cases provided for in Article 26 of Regulation (EC) No 1/2005, the competent authorities of the place of destination shall contact the competent authorities of the place of departure without delay.

c) The Joint Veterinary Committee shall be responsible for the application of Articles 10, 11 and 16 of Directive 89/608/EEC.

d) On-the-spot inspections shall be carried out under the responsibility of the Joint Veterinary Committee in accordance, in particular, with Article 28 of Regulation (EC) No 1/2005 and Article 208 of the Ordinance of 23 April 2008 on animal welfare (OPAn; RS 455.1);

e) Pursuant to the provisions of Article 15a (3) of the Federal Act of 16 December 2005 on animal welfare (LPA; RS 455), transit via Switzerland of bovine animals, sheep, goats and pigs, horses for slaughter and poultry for slaughter is authorised only by rail or aeroplane. This matter shall be examined by the Joint Veterinary Committee.

3. FEES

1. No fees shall be charged for veterinary checks carried out in trade between the Member States of the European Union and Switzerland.

---

+ Council Directive 89/608/EEC of 21 November 1989 on mutual assistance between the administrative authorities of the Member States and cooperation between the latter and the Commission to ensure the correct application of legislation on veterinary and zootechnical matters (OJ L 351, 2.12.1989, p. 34);

---

ANNEX VI

Appendix 6 of Annex 11 to the Agricultural Agreement shall be replaced by the following:

"Appendix 6

Animal products

CHAPTER I

Sectors where recognition of equivalence is mutual

“Animal products for human consumption”

The definitions of Regulation (EC) No 853/2004 shall apply mutatis mutandis.

**Protection of animals**

Ordinance of 23 April 2008 on animal protection (OPAn; RS 455.1);

OVF Ordinance of 12 August 2010 on the protection of animals at the time of slaughter (OPAnAb; RS455.110.2);

Ordinance of 23 November 2005 on the slaughter of livestock and the checking of meat (OabCV; RS 817.190);

Federal Law of 16 December 2005 on animal protection (LPA; RS 455);

Yes, subject to special conditions
Special conditions

(1) Animal products intended for human consumption which are traded between the Member States of the European Union and Switzerland shall be moved only under the same conditions as animal products intended for human consumption which are traded between the Member States of the European Union, also as regards animal protection at the time of slaughter. Where necessary, these products are accompanied by the health certificates required for trade between the Member States of the European Union or defined in this Annex and available in the TRACES system.

(2) Switzerland will draw up a list of its establishments approved in accordance with Article 31 (registration/approval of establishments) of Regulation (EC) No 882/2004.

(3) For its imports, Switzerland shall apply the same provisions as those applicable at Community level.

(4) The competent authorities of Switzerland may not make use of the exemption from the Trichinella examination as provided for in Article 3(2) of Regulation (EC) No 2075/2005. Where this exemption is used, the competent authorities of Switzerland undertake to notify the Commission by written procedure of the list of regions where the risk of Trichinella in domestic swine is officially recognised as negligible. The Member States of the Community shall have three months from receipt of the notification to send written comments to the Commission. If the Commission or a Member State raises no objections, the region is recognised as a region presenting a negligible Trichinella risk, and domestic swine coming from that region shall be exempted from examination for Trichinella at the time of slaughter. The provisions of Article 3(3) of Regulation (EC) No 2075/2005 shall apply mutatis mutandis.

(5) The detection methods described in Chapters I and II of Annex I to Regulation (EC) No 2075/2005 shall be used in Switzerland for the Trichinella examinations. However, no use shall be made of the trichinoscopic examination described in Chapter III of Annex I to Regulation (EC) No 2075/2005.

(6) The competent authorities of Switzerland may derogate from the Trichinella examination of carcasses and meat of domestic swine kept for fattening and slaughter in low-capacity slaughter establishments.

This provision shall apply until 31 December 2016.

Pursuant to the provisions of Article 8(3) of the DFI Ordinance of 23 November 2005 on hygiene during the slaughter of livestock (OHyAb; RS 817.190.1) and Article 9(8) of the DFI Ordinance of 23 November 2005 on foodstuffs of animal origin (RS 817.022.108), these carcasses and meat of domestic swine kept for fattening and slaughter as well as meat preparations, meat products and derived processed products thereof shall be marked with a special health stamp in accordance with the model specified in the last subparagraph of Annex 9 to the DFI Ordinance of 23 November 2005 on hygiene during the slaughter of livestock. These products may not be traded with the Member States of the European Union, in accordance with the provisions of Article 9a of the DFI Ordinance on foodstuffs of animal origin of 23 November 2005.

(7) Carcasses and meat of domestic swine kept for slaughter which are traded between the Member States of the European Union and Switzerland from:
   – holdings recognised as free from Trichinella by the competent authorities of the Member States of the Community;
– regions where the risk of Trichinella in domestic swine is officially recognised as negligible;

and for which the Trichinella examination has not been carried out pursuant to the provisions of Article 3 of Regulation (EC) No 2075/2005, shall move only under the same conditions as those traded between the Member States of the Community.

(8) Pursuant to the provisions of Article 2 of the Ordinance on hygiene (RS 817.024.1), the competent authorities of Switzerland may in particular cases allow exceptions to Articles 8, 10 and 14 of the Ordinance on hygiene:

a) to meet the needs of establishments located in mountainous regions, pursuant to the Federal Law of 6 October 2006 on regional policy (RS 901.0) and the ordinance of 28 November on regional policy (RS 901.021).

The competent authorities of Switzerland undertake to notify the Commission by written procedure of such adjustments. This notification shall:

– provide a detailed description of the provisions for which the competent authorities of Switzerland consider that an adjustment is necessary, and indicates the nature of the adjustment in question;
– describe the foodstuffs and establishments concerned;
– explain the grounds for the adjustment (including, where appropriate, the provision of a summary of the risk analysis carried out and indicating any measure needed to ensure that the adjustment does not compromise the objectives of the Ordinance on hygiene (OHyg; RS 817.024.1);
– give any other relevant information.

The Commission and the Member States shall have three months from the receipt of the notification to submit their written observations. If necessary, the Joint Veterinary Committee will be convened.

b) for the production of foods with traditional characteristics.

The competent authorities of Switzerland undertake to notify the Commission by written procedure of such adjustments at the latest twelve months after the individual or general derogations have been granted. Each notification shall:

– provide a short description of the requirements that have been adapted;
– describe the foodstuffs and establishments concerned, and
– give any other relevant information.

(10) Under Article 179d of the Ordinance on epizootic diseases and Article 4 of the Ordinance on foodstuffs of animal origin, Switzerland has introduced a policy of removing SRMs from the animal and human food chains. The list of SRMs removed from bovine animals comprises in particular the spinal column of animals aged over 30 months, and the tonsils, intestines from the duodenum to the rectum, and mesentery of animals of all ages.
The EU reference laboratories for residues of veterinary medicines and contaminants in food of animal origin are as follows:

a) For the residues listed in Annex I, Group A (1), (2), (3) and (4), Group B (2)(d) and Group B (3)(d) to Directive 96/23/EC:
   RIKILT – Institute for Food Safety, part of Wageningen UR
   P.O. Box 230
   6700 AE Wageningen
   Netherlands

b) For the residues listed in Annex I, Group B (1) and B (3)(e) to Directive 96/23/EC, and carbadox and olaquindox
   Laboratoires d'études et de recherches sur les médicaments vétérinaires et les désinfectants
   ANSES – Laboratoire de Fougères
   35306 Fougères cedex
   France

c) For the residues listed in Annex I, Group A (5) and Group B (2)(a), (b) and (e) to Directive 96/23/EC
   Bundesamt für Verbraucherschutz und Lebensmittelsicherheit
   Diedersdorfer Weg, 1
   D-12277 Berlin
   Germany

d) For the residues listed in Annex I, Group B(3)(c) to Directive 96/23/EC
   Istituto Superiore di Sanità (ISS)
   Viale Regina Elena, 299
   00161 Rome
   Italy

Switzerland shall pay the costs for which it is liable for operations carried out by the laboratories in the above capacity. The competences and tasks of these laboratories are laid down in Regulation (EC) No 882/2004.

Pending recognition of the alignment of European Union legislation and the Swiss legislation, for exports to the European Union, Switzerland shall monitor compliance with the acts listed below and their implementing texts:

7. Repealed and replaced by Implementing Regulation (EU) No° 872/2012, as mentioned in point 2. above.

“Animal by-products not intended for human consumption”

Exports from the European Union to Switzerland and exports from Switzerland to the European Union

4. Ordinance of 18 April 2007 on the import, transit and export of animals and animal products (OITE; RS 916.443.10);

Yes, subject to special conditions

Special conditions

For its imports, Switzerland applies the same provisions as those under Articles 25 to 28 and 30 to 31 and Annexes XIV and XV (certificates) to Regulation (EU) No 142/2011, in accordance with Articles 41 and 42 of Regulation (EC) No 1069/2009.

Trade in Category 1 and Category 2 materials shall be governed by Article 48 of Regulation (EC) No 1069/2009.

Category 3 materials traded between the Member States of the European Union and Switzerland shall be accompanied by the commercial documents and health certificates provided for in Chapter III of Annex VIII to Regulation (EU) No 142/2011, in accordance

Pursuant to Title II, Chapter I, Section 2 of Regulation (EC) No 1069/2009 and Chapter IV and Annex IX to Regulation (EU) No 142/2011, Switzerland shall draw up the list of its corresponding establishments.

CHAPTER II

Sectors other than those covered by Chapter I

Exports from the European Union to Switzerland and exports from Switzerland to the European Union

These exports shall be subject to the same conditions as intra-Community trade. However, if relevant, a certificate attesting compliance with those conditions shall be issued by the competent authorities to accompany consignments.

If necessary, models for certificates shall be discussed in the Joint Veterinary Committee.
ANNEX VII

Appendix 7 of Annex 11 to the Agricultural Agreement shall be replaced by the following:

"Appendix 7

Competent Authorities

Part A

Switzerland

Health and veterinary monitoring competences shall be shared between the authorities of the individual Cantons and those of Federal Food Safety and Veterinary Office. The following provisions shall apply:

– for exports to the European Union, the Cantons shall be responsible for monitoring compliance with production conditions and requirements, and in particular statutory inspections and the issuing of health certificates attesting to compliance with the standards and requirements laid down,

– the Federal Food Safety and Veterinary Office shall be responsible for overall coordination, audits of inspection systems and the necessary legislative action to ensure uniform application of standards and requirements within the Swiss market. It shall also be responsible for imports of foodstuffs of animal origin and other animal products from third countries. It shall also draw up authorisations for the export of Category 1 and 2 animal by-products to the European Union.

Part B

European Union

Responsibility shall be shared between the national services in the individual Member States and the European Commission. The following provisions shall apply:

– for exports to Switzerland, the Member States shall be responsible for monitoring compliance with production conditions and requirements, and in particular statutory inspections and the issuing of health certificates attesting to compliance with the standards and requirements laid down,

– the European Commission shall be responsible for overall coordination, audits of inspection systems and the necessary legislative action to ensure uniform application of standards and requirements within the Single Market."
ANNEX VIII

Appendix 10 of Annex 11 to the Agricultural Agreement shall be replaced by the following:

"Appendix 10

Animal products: border checks and payment of fees

B. IMPLEMENTING PROVISIONS

1. The Commission, in cooperation with the Federal Food Safety and Veterinary Office, shall integrate Switzerland into the TRACES system, in accordance with Commission Decision 2004/292/EC.

2. The Commission, in cooperation with the Federal Food Safety and Veterinary Office, shall integrate Switzerland into the rapid alert system provided for in Article 50 of Regulation (EC) No 178/2002 as regards the provisions relating to refusal to allow entry of animal products at borders.

The Commission shall immediately notify Switzerland of any rejection of a batch, a container or a cargo by a competent authority at an EU/Switzerland border post.

Switzerland shall immediately notify the Commission of any rejection of a batch, container or cargo of food or feed by a competent authority at a Swiss border post on the grounds of a direct or indirect risk to human health, and shall comply with the confidentiality rules provided for in Article 52 of Regulation (EC) No 178/2002.

The special measures relating to this participation shall be established by the Joint Veterinary Committee.
CHAPTER II
Veterinary checks applicable in trade between
the Member States of the European Union and Switzerland

A. LEGISLATION*

* Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2014.

</table>

B. IMPLEMENTING PROVISIONS

In the cases provided for in Article 8 of Directive 89/662/EEC, the competent authorities of the place of destination shall contact the competent authorities of the place of dispatch without delay. They shall take all necessary measures and notify the competent authority of the place of dispatch and the Commission of the nature of the checks carried out, the decisions taken and the reasons for such decisions.

The Joint Veterinary Committee shall be responsible for the application of the provisions of Articles 10, 11 and 16 of Directive 89/608/EEC and Articles 9 and 16 of Directive 89/662/EEC.

CHAPTER III
Veterinary checks applicable to imports from third countries

A. LEGISLATION*

* Unless indicated otherwise, any reference to an act shall mean that act as most recently amended.

Checks on imports from third countries shall be carried out in accordance with the provisions referred to below:
5. Council Directive 89/608/EEC of 21 November 1989 on mutual assistance between the administrative authorities of the Member States and cooperation between the latter and the Commission to ensure the correct application of legislation on veterinary and zootechnical matters (OJ L 351, 2.12.1989, p. 34);

1. Law of 1 July 1966 on epizootic diseases (LFE; RS 916.40), in particular Article 57 thereof;  
2. Ordinance of 18 April 2007 on the import, transit and export of animals and animal products (OITE; RS 916.443.10);  
3. Ordinance of 27 August 2008 on the import and transit of animal products by air from third countries (OITPA; RS 916.443.13);  
4. Ordinance of the DFI of 16 May 2007 on controls on the import and transit of animals and animal products (Ordinance on controls, OITE; RS 916.443.106);  
5. Ordinance of 18 April 2007 on the importation of pet animals (OIAC; RS 916.443.14);  
6. Ordinance of 30 October 1985 on the fees levied by the Federal Food Safety and Veterinary Office (Ordinance on the Fees of the Federal Food Safety and Veterinary Office; RS 916.472);  
7. Law of 9 October 1992 on foodstuffs (LDAL; RS 817.0);  
8. Ordinance of 23 November 2005 on foodstuffs and consumer products (ODAIIOUs, RS 817.02);  
10. Ordinance of the DFI of 26 June 1995 on foreign substances and components in foodstuffs (OSEC; RS 817.021.23);

* By reference to the approval categories defined in Decision 2009/821/EC.

The Joint Veterinary Committee shall be responsible for any subsequent amendments to the list of border inspection posts, their inspection centres and their type of approval.

On-the-spot inspections are carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 45 of Regulation (EC) No 882/2004 and Article 57 of the Law on epizootic diseases.
CHAPTER IV
Health requirements and control requirements relating to trade between the European Union and Switzerland

For sectors where recognition of equivalence is mutual, animal products traded between the Member States of the Community and Switzerland shall move under the same conditions as products traded between the Member States of the Community. Where necessary, these products are accompanied by the health certificates required for trade between the Member States of the European Union or defined in this Annex and available in the TRACES system.

For the other sectors, the health requirements laid down in Chapter II of Appendix 6 shall continue to apply.

CHAPTER V
Health requirements and control requirements relating to imports from third countries

I. EUROPEAN UNION — LEGISLATION*

* Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2014.

A. Public health measures

B. Animal health rules

C. Other specific provisions*

* Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2014.

2. Decision 94/1/EC of the Council and the Commission of 13 December 1993 on the conclusion of the Agreement on the European Economic Area between the European Communities, their Member States and the Republic of Austria, the Republic of Finland, the Republic of Iceland, the Principality of Liechtenstein, the Kingdom of Norway, the Kingdom of Sweden and the Swiss Confederation (OJ L 1, 3.1.1994, p. 1).

2. Switzerland – Legislation*

* Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2014.
A. Ordinance of 18 April 2007 on the import, transit and export of animals and
animal products (OITE; RS 916.443.10);
B. Ordinance of 27 August 2008 on the import and transit of animal products by
air from third countries (OITPA; RS 916.443.13).

3. Implementing arrangements
A. The Federal Food Safety and Veterinary Office shall apply, simultaneously
with the Member States of the European Union, the import conditions set out in
the acts mentioned in point I of this Appendix, the implementing measures and
the lists of establishments from which the corresponding imports are
authorised. This undertaking shall apply to all the relevant acts, irrespective of
their date of adoption.

The Federal Food Safety and Veterinary Office may adopt more restrictive
measures and require additional guarantees. Consultations shall be held within
the Joint Veterinary Committee to find suitable solutions.

The Federal Food Safety and Veterinary Office and the Member States of the
European Union shall notify each other of the specific import conditions
established bilaterally which have not been harmonised at Community level.

B. The Member States' border inspection posts referred to in point B.1 of Chapter
III of this Appendix shall check imports from third countries destined for
Switzerland in accordance with point A of Chapter III of this Appendix.

C. The Swiss border inspection posts mentioned in point B.2 of Chapter III of this
Appendix shall check imports from third countries destined for the Member
States of the European Union in accordance with point A of Chapter III of this
Appendix.

D. Pursuant to the provisions of the Ordinance of 27 August 2008 on the import
and transit of animal products by air from third countries (OITPA;
RS 916.443.13), the Swiss Confederation shall retain the possibility of
importing bovine meat from cattle potentially treated with hormonal growth-
promoters. The export of such meat to the European Union shall be prohibited.
In addition, the Swiss Confederation shall:
– confine the use of such meat to direct selling by retail establishments to
consumers under appropriate labelling conditions;
– allow such meat to be introduced into Switzerland only through Swiss
border inspection posts; and
– maintain an appropriate traceability and channelling system to prevent
any possibility of such meat being subsequently introduced into the
territory of the Member States of the Community;
– present once a year a report to the Commission on the origin and
destination of the imports, plus an account of the checks carried out to
ensure compliance with the conditions listed in the foregoing indents;
– where there are concerns, these provisions shall be examined by the Joint
Veterinary Committee.
CHAPTER VI

Fees

1. No fees shall be charged for veterinary checks carried out in trade between the Member States of the Community and Switzerland.

2. For veterinary checks on imports from third countries, the Swiss authorities undertake to collect the official control fees provided for in Regulation (EC) No 882/2004 of the European Parliament and of the Council of 29 April 2004 on official controls performed to ensure the verification of compliance with feed and food law, animal health and animal welfare rules (OJ L 165, 30.4.2004, p. 1).’
ANNEX IX

Appendix 11 to Annex 11 to the Agreement shall be replaced by the following:

"Appendix 11
