CALL FOR APPLICATIONS FOR THE SELECTION OF MEMBERS OF THE SUB-GROUP ON AIR EMISSIONS FROM SHIPS OPERATING UNDER THE EUROPEAN SUSTAINABLE SHIPPING FORUM

1. Background

By Commission Decision of 7.01.2016 amending Decision C(2013)5984 final of 24 September 2013 on setting-up the group of experts on maritime transport sustainability, the Commission has extended the duration of the mandate of the Expert Group on maritime transport sustainability - the European Sustainable Shipping Forum, ESSF - until 30 June 2018. The ESSF provides a platform for a structural dialogue, exchange of technical knowledge, cooperation, and coordination amongst relevant maritime industries' stakeholders, Member States authorities and the Commission and its services to better address the environmental sustainability challenges confronting the EU maritime transport sector. Under the ESSF the Commission manages a number of technical sub-groups working on priorities in relation to maritime transport sustainability under the ESSF new mandate. DG Environment, with endorsement by DG MOVE and the ESSF Plenary, has decided to establish a new Subgroup on Air Emissions from Ships ("the group") under ESSF and to launch a related public call for participation.

The subgroup’s main objective shall be to provide expert knowledge in assessing and measuring air pollutant emissions from the sector, the technologies available to address them. A key priority of the subgroup is to support for cost-effective implementation of relevant policies in the maritime sector, with priority on Directive (EU) 2016/802 (the Sulphur Directive) as regards the reduction of the sulphur content of marine fuels, in order to achieve the projected health and environmental benefits for EU's citizens while preserving the level playing field for economic operators.

2. Features of the Sub-group

2.1. COMPOSITION

The sub-group shall consist of up to 40 members.

Members shall be representatives of all Member States (regulatory and enforcement authorities), ship operators and owners, oil industry, engine manufacturers and manufacturers of abatement technology, classification societies, laboratories of analyses, NGOs etc.

Member States' authorities, organisations and other public entities shall nominate their representatives and shall be responsible for ensuring that their representatives provide a high level of expertise. The Commission services shall appoint alternate members, in accordance with the same conditions as members, who shall automatically replace any members who are absent or indisposed.

In order to ensure continuity and the smooth functioning of the sub-group, the Commission services shall establish a reserve list of suitable candidates that may be used to appoint replacements. The Commission services shall ask applicants for their consent before including their names on the reserve list.

Members who are no longer capable of contributing effectively to the sub-group’s deliberations, who in the opinion of the Commission's services do not comply with the conditions set out in Article 339 of the Treaty on the functioning of the European Union or who resign, shall no longer be invited to participate in any meetings of the sub-group and may be replaced for the remainder of their term of office.

The members that voted against or abstained shall have the right to have a document summarising the reasons for their position annexed to the opinions, recommendations or reports.

In agreement with the Commission services, the subgroup may, by simple majority of its members, decide that deliberations shall be public.

Participants in the activities of the subgroup shall not be remunerated for the services they offer. No reimbursement will be possible under the new rules.

The members of the sub-group, as well as invited experts and observers, are subject to the obligation of professional secrecy, which by virtue of the Treaties and the rules implementing them applies to all members of the institutions and their staff, as well as to the Commission's rules on security regarding the protection of Union classified information, laid down in Commission Decisions (EU, Euratom) 2015/443\(^2\) and 2015/444\(^3\).
