Activity Report

During 2012, the Working Group for Non Road Mobile Machinery GEME held one plenary meeting in Brussels in February. The main emphasis was on the interpretation of the revised flexibility scheme and the future need for decreased pollutant emissions from non-road mobile machinery. The Commission also presented the main items to be addressed in the full legislative amendment of Directive 97/68/EC.

Activity Report

At least one plenary meeting of the Working group for Non Road Mobile Machinery will be held per year. Occasionally restricted meetings for Member States experts only will be held. In order to assist the European Commission in developing new legislation GEME may decide to create ad-hoc Working groups which are limited in time. This was the case in 2010 for preparing the 2012 revision of Directive 97/68/EC. In 2010, a working group meeting took place on 13 September 2010. In addition a restricted meeting for MS only was held on 19 January 2010. Three ad-hoc GEME WG meetings were held in January, March and June 2010. The main objective of these meetings was to prepare the milestones for the next revision of the non-road engine emission's legislation.

Selection Procedure (members)

The Working Group for Non Road Mobile Machinery consists of high-level officials in charge of the implementation of Directive 97/68/EC and related non-road machinery issues in Member States. Each Member State appoints one representative. Also observers (such as industry and Non-governmental organisations) have the right to participate but they are not reimbursed for their travel expenses.

Internal Rules of Procedure

The Group works informally, without formal rules of procedure.
