Activity Report

Information about SISAI: Meeting in 2010: 15-16 June (meeting of STNE - Statistics, Telematic Networks and EDI working group and group renamed into SISAI). Meeting in 2011: 7-8 June (first meeting of "SISAI", continuing the work of STNE working group). Activities: Covers the activities of the European Statistical System (ESS) in the area of statistical information systems and their links with related business processes, including moves towards a shared statistical business and information architecture, aiming at further integration of the ESS and use of common tools and services. Provides a forum for exchange of experiences and good practices among information systems architects from national and international statistical organisations. Facilitates and encourages implementation of common technical standards, services and recommendations in the field of statistical computing throughout the ESS. Analyses requirements within the ESS in the area of IT systems architecture & co-operative work towards formal models, and an infrastructure for technical and business collaboration activities. Analyses statistical information systems frameworks in terms of overall architectural principles and makes recommendation for usage in ESS. Networks with the relevant ESS and international bodies. Technically evaluates software developed within the ESS and proposes development, maintenance and improvement promoting sharable solutions.
