Activity Report

Main activities: the DMES (Directors' group of MacroEconomic Statistics) has a strategic role in orienting and coordinating the work on national accounts and other macro-economic statistics. It acts as an intermediary between the activities at more technical levels and the European Statistical System Committee. The DMES provides a forum for exchange of views on a range of strategic and management issues related to macro-economic statistics. In particular, the DMES is involved at an early stage in the preparation of the annual and multi-annual programmes by identifying new statistical priorities and possible statistical fields where simplification, reprioritisation and/or phasing-out of certain work could be envisaged.
