Origin: The working Group on Crop Statistics originates from the beginning of European Agricultural Statistics, earlier mandated by the Standing Committee on Agricultural Statistics (CPSA). The Working Group covers the statistics on crop products (area, production, yield, humidity and main area), structural statistics on permanent crops (orchards and vineyards), supply balance sheets (on wine and main crop products) and the statistics on organic farming that fall under its remit. Crop production outside agricultural land (wild mushrooms and berries, etc.) is out of the scope.
